

New Spring Coats and SUITS

Youth is in the air this Spring and the smart garments in our store show its charm.

When the sun pops out bright and warm on these March days, how Springy it is—just the day of days when you will most enjoy donning your new Spring coat or suit and responding to the call from the glad outdoors.

Its surprising how young the new clinging silhouette can make one look and feel.

And here for your pleasure are the very latest creations in young women's garments. Let us show you these new coats and suits—the new materials and colors alone are worth going many blocks to see.

CANOEING RULES UP

Student Body Reiterates Last Year's Stipulations.

Every Student Going on Race Must Have Certificate Attesting Ability to Swim.

With the advent of sunshine and balmy afternoons and the inevitable accompanying tendency on the part of students to gravitate toward the traditional mill stream, comes the realization of the dangers encountered in the pleasant pursuit of canoeing, the fateful consequences of past carelessness, and precautions that should be observed.

Canoeing on the race has always been considered safe under ordinary sensible conditions. It is because of the tendency to venture upon the river that rules were passed by the student-body last year. The matter of enforcing regulations for canoeing was brought up at last Wednesday's meeting of the associated students, and a report by Karl Becke, chairman of a standing committee for the purpose of investigating canoe conditions, resulted in the student body reiterating last year's stipulations.

The rules are:
1. Every student who goes canoeing must be provided with a certificate attesting his ability to swim.

2. All canoes shall be off the river by dark.

3. The number of passengers in a canoe shall be determined by the size of the canoe.

4. Shooting the rapids is prohibited.

TEACHERS WILL BANQUET

Supervised Pedagogues Arrange Program at Osburn March 29.

The supervised teachers, (students doing practice teaching this semester) are to give a banquet at the Hotel Osburn March 29. Those of last semester and the class doing observation work now, will be invited. The present observation class will be the supervised teachers next year.

A musical program has been arranged. Professor Stetson will act as toastmaster and President Campbell and Dr. Sheldon will talk. The purpose of the meeting is to give the prospective teachers a better knowledge of each other.

AWARDS TO BE MADE SOON

The prizes of \$10.00 and \$5.00 offered by James B. Kerr of Portland for the two best short stories written by University students will be awarded as soon as the last of the four judges has handed in a decision.

The contest was open to all regularly enrolled students in the University and was conducted by the department of rhetoric. Thirteen stories were submitted.

The judges are Ida V. Turney, Mable Holmes Parsons, J. Frederick Thorne and Edison Marshall.

STUDENTS SUMMONED

(Continued from page one)

by dreams of extended slumber Sunday morning. But there was no alternative with the country's call resounding in their tired brains. Anyway, patriotism was running rampant, and the cares of school work were soon forgotten in the blur of possible adventure and glory in the eyes of those left behind.

By 10 o'clock the company was organized and under way in fighting uniform. The line of advance decided upon by Captain Svarverud took the company the full length of Thirteenth street toward the University. Occasion was taken to execute several difficult formations directly in front of Kappa Kappa Gamma sorority on Thirteenth street.

As the company proceeded, 35 strong, the picture was formidable and impressive. Waving from doors and windows along the line of march was significant of an all-important fact, that the nation is firmly behind its soldier guard.

Hats were tilted back and steps were quick and lively as the young soldiers left Eugene. In the evening, upon the company's return, hats were pulled down, and the effect of a ten mile tramp over the mountains and through tangled brush had told on the stride. However, Captain Svarverud's scheme to get the company out for a day's drill worked even better than he had anticipated.

COURSE OF STUDY DISCUSSED

At faculty meeting this afternoon the expediency of changing the University course of study so as to provide a two year period of preparation was discussed. The committee which has been carrying on investigations of the working out of the system elsewhere made a report.
