NOTED MEN OBTAINED FOR SUMMER SCHOOL

Program Includes Many Brilliant Lecturers; 300 Students Expected.

Schedule Includes More Courses Than Have Been Previously Offered.

Visiting teachers attending the University of Oregon summer school may derive the benefits of the session of the N. E. A. convention at Portland, Oregon, without interfering with their work here, for the week of the convention, July 7 to 14, will be vacation period at the summer school, dividing the session into two halves. The work of the school begins Monday, June 18, and ends Friday, August 3.

Dr. Joseph Schafer, dean of the summer school, expects over 300 to attend the summer session this year even if the United States is plunged into war.

Lecturers secured by the summer school are a more than usually brilliant array. Most prominent among these are Dr. G. Stanley Hall, president of Clark university; Dr. Henry C. King, president of Oberlin college; Dr. J. Duncan Spaeth, professor of English at Princeton, and Dr. John Timothy Stone pastor of the Fourth Presbyterian church of Chicago. The University of Oregon will be the only Pacific coast institution of higher learning favored with the presence of Dr. Hall in the coming summer.

More courses than ever are to be offered this coming summer. The already strong educational department under a plan prepared by H. D. Sheldon, dean of the school of education, promises to be especially attractive. Dr. Hall, Dr. King and C. R. Frazier, superintendent of the public schools of Everett, Washington, will give lectures in the department. Courses in educational psychology and exceptional children will be given by Dr. B. W. DeBusk, of the University. Professor F. L. Stetson and Professor Albert N. French also offer additional courses.

Dr. E. S. Conklin of the psychology department, remains for the first time to give two courses in psychology, one elementary psychology and the other abnormal and borderline psychology.

The physical education department with Miss Frieda Goldsmith of the University in charge of the women and Robert Krohn, Jr., who directs the work in two of the Portland high schools, directing the men. The two leaders will co-operate in making the play hour a distinctive and delightful feature of the day's work of all students.

Dr. Edna W. Bailey, of the University of California, will give a course in teaching of zoology and a course in general biology. Dr. Bailey is said to be a very remarkable teacher.

Miss Laura Hatch, a professor of Smith college, Massachusetts, will have charge of the geology department this coming summer. Her work will include advanced geography, fitting the needs of teachers and including physiog-minerals.

Members of the faculty who will instruct in the summer school are besides those mentioned; Professor E. E. De Cou, mathematics; Professor F. S. Dunn, Latin; Dr. W. P. Boynton and Dr. A. E. Caswell, physics; Professor Timothy Cloran, romance languages; Dr. F. G. G. Schmidt, German; Professor D. Walter Morton, commerce; Professor F. G. Young and Dr. James Henry Gilbert, economics and sociology; Dr. Joseph Schafer and Dr. R. Clark history; Professor O. F. Stafford, chemistry; Professor W. F. Thacher and Professor Mabel Holmes Parsons, English; Professor A. R. Sweetser, botany; Dr. George Rebec, philosophy; and M. H. Douglass, library methods.

VARSITY DROPS FOUR GAMES TO INDIANS

Spokane Takes Last of Schedule by Lop-Sided Scores; Errors Feature.

Oregon Twirlers Prove Easy for Leaguers; Infield Aids Foe With Fumbles.

The varsity baseball team completed its abbreviated schedule by dropping four straight games to the Spokane Northwestern league team during spring vacation. All of the games resulted in lop-sided scores.

Walter Kennon occupied the mound for the locals Monday, opposing Holling who played third base in the two previous contests. Kennon was hit rather freely but managed to keep the score

down until the seventh, when a flock of hits and errors brought in four runs. Oregon counted in the first on hits by Medley and Nelson and again in the sixth when Sheehy reached first on an error, worked around to third and stole home. Shy Huntington slammed a fast one over the left fielder's head in the ninth inning for four bases, chasing Medley in ahead of him.

Spokane 8 15 2

The lemon-yellow didn't have a look-in Tuesday. The Indians gleaned eleven hits off Newton Center and these with nine bobbles in the field rang up an even dozen tallies. Schwartz allowed but one hit—Walter Grebe's clean two-bagger—and was never in danger.

Oregon 0 1 9
Spokane 12 11 1

Rain caused a postponement of Wednesday's game so a double-header was run off Thursday. Dwight Wilson was greeted with a reception like that accorded Center. Twelve hits—one triple and two doubles—attested to Spokane's slugging ability. Many of these might have been saved with better fielding, most of the hits coming after a fumble had given the runner a life. The varsity made their usual stand in the final stanza. Alexander was hit by a pitched ball and scored when Malson and Grebe singled in succession.

Spokane 10 12 4

The second half of the double bill was even worse than the first. Kennon went against the leaguers for the second time in four days. It took the Indians two or three innings to get their sights primed and then with the assistance of the Oregon infield they ran bases until the scorer grew dizzy.

PRINT SHOP IS BUSY

University Plant Putting Out Leaflet and Bulletins.

Trade With China and Electrical Development in Sweden and Germany, Are Subjects.

The University print shop has been kept busy lately putting out leaflets and bulletins for various departments of the University. Two jobs have just come off the press for the school of commerce. They are, "Flour Trade in China," and "Long Distance Electrical Development in Germany." Another bulletin will soon be out treating the subject of electrical development in Sweden. Professor Allan C. Hopkins, who has prepared the others is also preparing a lumber bulletin especially for the lumbermen and the lumber market of the northwest. He will give in this the status of lumber, particularly that of Oregon.

Professor A. R. Sweetser has prepared two botanical bulletins dealing with Oregon flowers for the extension department. The first is off the press and ready to be mailed. Professor J. F. Bovard is preparing material for extension courses in zoology. The title of his bulletin which is to come off the press about April 1 is "The Bluebird and the Chickadee."

Four University jobs are with the state printer. They are: "A Commonwealth Review," by Professor F. G. Young; "Birds of Western Oregon," by Professor J. F. Bovard; a publication from the department of Hygiene and Physical Training for Women; and a report from the president of the Board of Regents to the governor.

DR. BRIGGS TO COME

Class of '17 Gets Radcliffe President for Speaker.

Commencement June 1-4; Dr. Lindley for Baccalaureate Sermon.

Dr. Baron Russell Briggs, president of Radcliffe college, will deliver the commencement address for the class of 1917. Dr. Ernest Lindley, head of the department of psychology of the University of Indiana, will deliver the baccalaureate sermon. Commencement comes on Monday, June 4, and college is out for the other classes the following Friday.

Senior examinations will come the week preceding commencement and seniors whom the professors see fit to excuse from examinations will be exempt. The regular examinations for the other classes will begin Tuesday following commencement and will last until Friday. The Pageant will fall on Friday evening, June 1, and the alumni meetings will be on Saturday, June 2. According to Karl Onthank, it is expected that a large number of alumni will be in attendance at class reunions at this time.

Professor A. L. Peck of O. A. C. will criticize the last problem completed by the architecture department Wednesday morning. In the afternoon he will lecture on domestic architecture. A week from next Wednesday three men will be down from Portland to criticize the recent work of the department. The same evening a banquet will be held.

Cornell University Medical College

In the city of New York Admits graduates of the University of Oregon presenting the required physics, chemistry and biology.

INSTRUCTION by laboratory methods throughout the course. Small sections facilitate personal contact of student and instructor.

GRADUATE COURSES leading to A. M. and Ph. D. also offered under direction of the Graduate School of Cornell University.

Applications for admission are preferably made not later than June. Next session opens Sept. 26, 1917.
