BAND PICKS OFFICERS

Quisenberry Next Year's President; Center, Secretary.

(By Floyd South)

Wednesday May 23rd was the last regular business meeting of the band for this year at which time the officers to serve next year were elected as follows:

President, Russell Quisenberry; vice-president, Newton Center; manager, Tony Goreczky; secretary, Jay Gore; librarian, Richard Nelson.

The past year has been, without doubt, the most successful in the history of the U. of O. band. Since Professor Albert Perfect was appointed director, the once famous discordant "Boola band" has been transformed into a real concert organization susceptible to the detailed movements of the baton. Besides directing the band Professor Perfect, as a member of the faculty of the school of music, has composed and arranged music for band or orchestra, but unfortunately the credit for much of this work has been misdirected.

The members of the band together with Professor Perfect have worked hard throughout the year with only conditional promises of a trip. However when a concert tour was pronounced impossible, May 18th was the time agreed upon for a concert in Eugene but the committee on dates later refused this date as a commonwealth conference was being held on the campus at that time. The band will be heard in a concert next fall about one month after school begins and if Professor Perfect is still in command this musical event will, without doubt, start the new year off right.

Compulsory military drill is the keynote in the existence and upbuilding of a university band, hence the outlook for next year's band is very optimistic.

The band is a strictly student organization and deserves a trip next year equal to that taken by other musical organizations in the past.
