

SEE MOODY
and
SEE BETTER

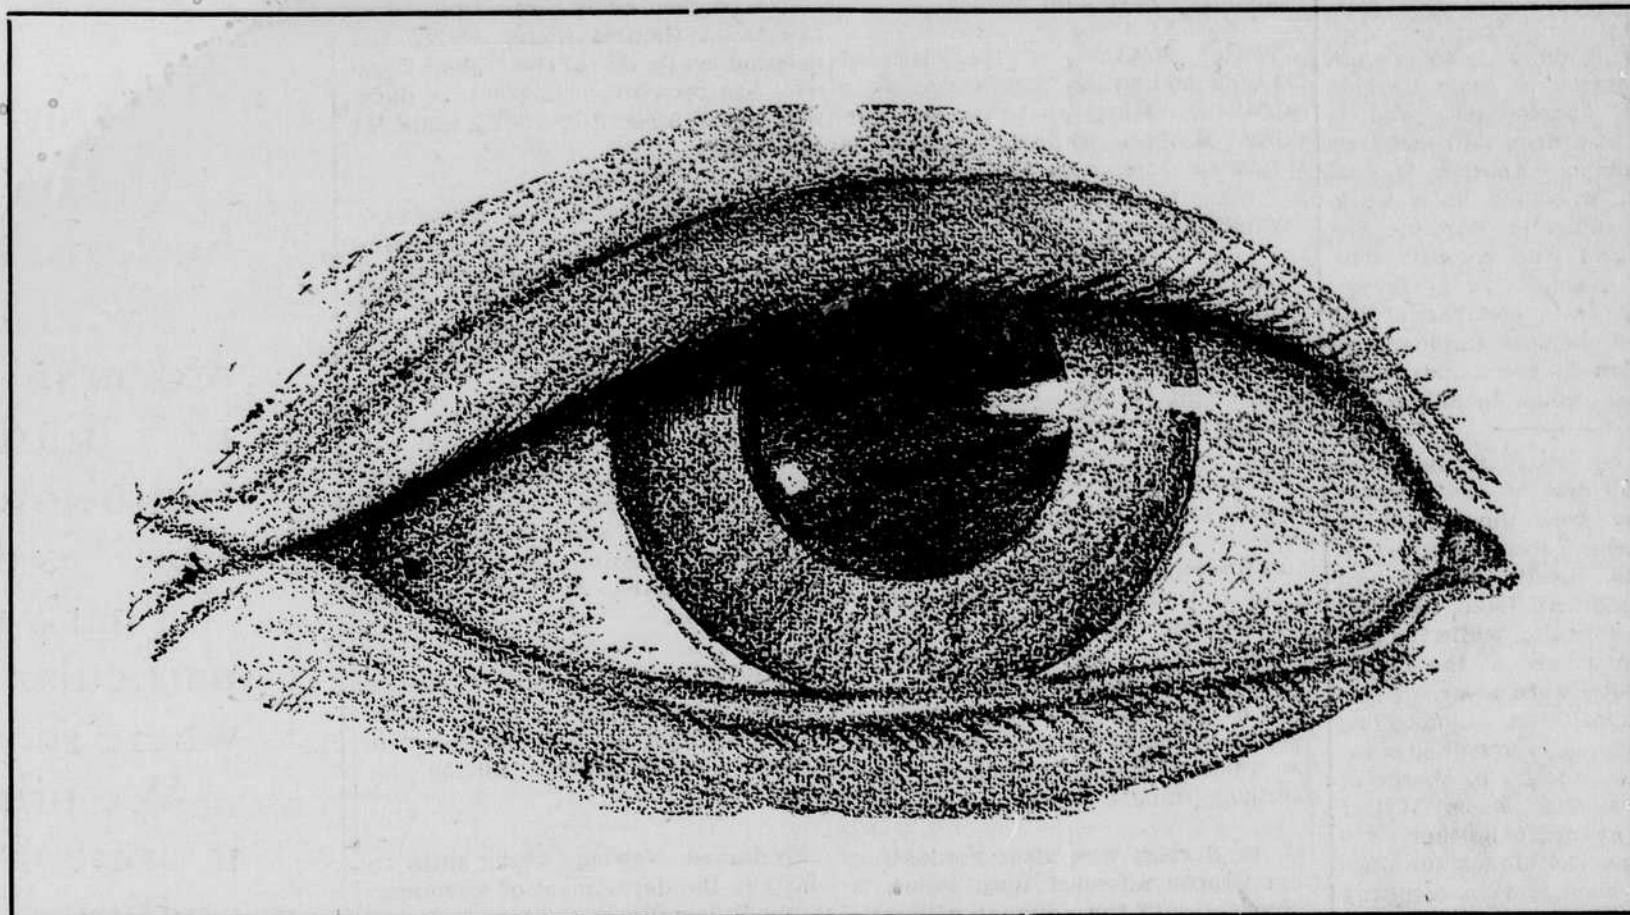

This is called a surfacing machine, and is used in grinding the surfaces of either flat or curved rough glass blanks to obtain in the finished lens the exact result required by your individual prescription. This operation requires careful, skilled workmanship.

After the lenses have been cut to approximately the desired shape and size they are placed in one of these automatic edging machines and ground to accurate shape, with smooth, even edges.

If You Can't See—See Moody for Better Optical Service

In every trade, profession or branch of work there are found a few men who, from special fitness or education, or both, are better prepared to serve you in their line than the multitude of others in the same field.

Since Optometry requires especial ability in both professional and mechanical work, men that are fitted to do both equally well are scarce.

Therefore you cannot be too particular about the selection of the man to whom you entrust your eyes.

The professional work—the examining and measuring of your eye defects—must be skilfully done.

The mechanical part—the making and adjusting of your glasses—is no less important.

Competent advice must rest on adequate experience.

The little details others overlook receive our most considerate attention—a reason why our glasses are above the average in quality at the same price others ask for inferior glasses.

This little machine is used in cutting lenses to any desired shape and size. The cutting is accomplished with a diamond set in the machine.

The holes for use in setting the lenses in eyeglasses or spectacle mountings are smoothly and accurately bored by this diamond drill.

With this instrument the operator locates the optical center of the lens and also marks the axis of the cylinder, if any. It is also employed to check the accuracy of every completed pair of glasses. We call it the "policeman" of the shop.

SOCIETY

Edited by Pearl Craine.

Prominent among the social happenings of the week is the annual freshman acquaintance party which is taking place in the men's gymnasium this evening. The gym is gay in autumn leaves, and the class colors have been used in the color scheme also. The committee in charge is composed of Clarence Mocat, Margaret Kubli, Catherine Wilson, Paula Linn and George Beggs.

Among the numbers on the program, which is an interesting feature of the evening, is a vocal solo by Esther Banks. Leota Roberts will give a reading, and Dean Straub will make a short talk. Dancing is to follow the program and other forms of entertainment have been provided for those who do not care to dance. Simple refreshments are to be served.

Miss Margaret Spangler and Miss Edith Buell were hostesses at an attractive dance at the Eugene Country Club last night in honor of Dorris Churchill, Helen Stanfield, Ethel McGilchrist and Margaret Jones, who have been recently pledged Delta Delta Delta. In addition to the honor guests, Miss Gertrude Mann, Delta Delta Delta chaperone, and all the members of the active chapter were present. Other guests were: James Sheehy, Dow Wilson, Paul Spangler, Horace Hair, Tom Campbell, of American Lake, Garnet Green, Harold Grey, Curtiss Peterson, Richard Lyon, H. Trowbridge, Jack Montague, Lieutenant Herschel Taylor, of American Lake, Karl Knudson, James Howells, Billy Ralston, Elmer Howard, George Higgenbotham, Bob Mann and Joseph Hedges.

Open house among the women's fraternities of the University was held last Saturday evening from seven until nine. Previous to this year open house has been an event of the Sunday afternoon immediately follow-

ing pledge day among the women's houses. Among the fraternities who entertained with dancing following open house were Kappa Alpha Theta, Kappa Kappa Gamma, Pi Beta Phi, Chi Omega, Gamma Phi Beta and Delta Gamma.

The annual Y. W. C. A. and Y. M. C. A. reception will be an event of Friday, October 18. The affair is to be held in the men's gymnasium and will start promptly at eight in the evening. Mrs. Katherine Johnson and Thurston Laraway are members of the general committee in charge of the event. A musical program presenting some of the finest University talent is to be a feature of the evening.

Kappa Kappa Gamma had as guests during the opening week of college Edna Howd, ex-'20, of Salem, Florence Brosius ex-'20, and Madeline Harding, of Silverton. Miss Howd is at present attending business college in Salem and will probably return to the University in January. Miss Brosius will enter the Monmouth normal school for a term.

Mrs. Margaret Hewitt, who has for the past fortnight been acting chaperone of Delta Gamma, left yesterday for Bremerton, Washington. Mrs. Hewitt will spend several days in Portland en route. Mrs. Bailey, of Palo Alto, California, will arrive in a few days to fill the vacancy left by Mrs. Hewitt.

Mary Love Collins, national grand president of Chi Omega, was a guest of the local chapter Monday, while on her way to the meeting of the national Pan-Hellenic, in Chicago, of which Mrs. Collins is chairman.

O. M. Plummer of Portland, field agent of the Oregon food conservation campaign, was a Thursday evening dinner guest of Chi Omega.

Miss Esther Maegley, Miss Ida Blackford, and Miss Eileen Yerex, of Portland, are week-end guests of Chi Omega.

Nu of Mu Phi Epsilon held their first meeting of the year at the University School of Music this afternoon.

Claire Raley, '16, and Mrs. Claude Hampton, of Pendleton, are spending the week-end at the Chi Omega house. Vernon Motschenbacher, '14, is spending the week-end at the Alpha Tau Omega house.

CIRCULATING PHONOGRAPH RECORDS TO BE PART OF EXTENSION DIVISION

Schools or Clubs in Oregon Will Have Access to Library.

A circulating library of phonograph records will soon be installed in the University of Oregon extension division in Eugene, and schools or clubs throughout the state will be furnished material in this way upon request. The plan was formulated by the Oregon State Music Teachers' Association and will be carried out by this body in conjunction with Dr. J. J. Landsbury, dean of the School of Music in the University.

A committee headed by Miss Mary F. Isom, of Portland, has been appointed to obtain the records. This committee is made up of some of the prominent musical authorities of the state, says Dr. Landsbury, chairman of the publicity committee. He will, in connection with his extension lectures, visit many of the towns of the state, using the records for illustrations.

"Both the University and the State Teachers' Association hope to be of more service and to interest more people," said Dr. Landsbury today. "By working together we hope to save much time and labor." The complete list of records has not yet been made out.

For the first time in the history of the University of Utah the men outnumber the women.

MEDICAL MISSIONARY TO PAY VISIT TO CAMPUS AND SPEAK ON HER WORK

Dr. Maud Allen, Twenty Years in India, Has Vivid Stories of Experiences in Orient.

Dr. Maud Allen, for twenty years a medical missionary in northern India, will be a campus visitor Sunday and Monday, and will speak Sunday afternoon at 3 o'clock in the Y. W. C. A. bungalow. All University women and others who are interested are invited to be present.

Miss Allen came to the United States last spring on a furlough of a year and a half, and most of her time thus far has been spent on the Pacific coast. She has given a large part of her effort while here to raising \$5,000 to build a hospital in Ferozepore, northern India, where she has been working for the last twelve years. Her visit to the campus, however, will not be in that particular interest.

Girls who were in attendance at the Y. W. C. A. conference at Seabeck last spring are already acquainted with Miss Allen, and say that she has most vivid stories to tell of her own experience as a missionary.

"The Sunday meeting promises to be exceptional in interest," said Miss Tirza Dinsdale, Y. W. C. A. secretary, "and we urge all University women to come and meet Miss Allen."

Special music will be furnished by Rena Adam, who will sing. Entertainment for Miss Allen, who will arrive early Sunday and leave Monday evening, has been taken over by the girls, and her schedule is as follows: Sunday dinner, Delta Delta Delta; Sunday luncheon, Mary Spiller; Monday lunch, Alpha Phi.

NEW JOURNALISM IN U. OF OHIO

A course in home economics is being offered by the department of journalism at the University of Ohio. The purpose of this course is to give college women who have specialized in foods an opportunity to write articles for newspapers or magazines.

IMPROVEMENT MADE ON FENCE

Improvement has been made on the athletic field by the reconstruction of about 150 feet of fence near the main entrance. As the old fence greatly concealed a full side view of the Administration building, it was necessary to rebuild a part of the fence. This work is now complete and greatly improves the appearance of the field, as well as affording a better view of the Administration building.

MICHIGAN WOMEN TRAIN FOR WAR

Courses in military training for women are being offered at the University of Michigan. The work is very similar to that given the men, consisting of setting up exercises and drill.

DEAN ELIZABETH FOX IN SAN FRANCISCO

Member of Y. W. C. A. Committee on Betterment of Camp Life.

Representing the coast on the Y. W. C. A. executive committee which has charge of the raising of the million dollar fund for increasing the enjoyment of camp life for enlisted men, Miss Elizabeth Fox, dean of women, is in San Francisco this week conferring with other members of the committee.

Miss Fox received her appointment on the committee from the headquarters of the Y. W. C. A. in New York, recently. She left to attend the San Francisco meeting Tuesday night and will return to the campus early Monday.
