DR. GILBERT HONORED BY TAX CONVENTION

(Continued from page one)

"Therefore nothing was done except to effect a permanent organization, and the problems of correlating state and federal revenue systems will be taken up at the next meeting of the council, which will probably be at the same time and place as the next conference of the National Tax association."

In the meantime, according to Dr. Gilbert, each state will be asked to accredit delegates, appointed by the governor, for the next meeting. Each state may send delegates, not to exceed nine in number, and the national government will be represented by twelve delegates. State Tax Commissioner Galloway, who is a graduate of the University of Oregon, '98, was elected a member of the executive committee of the Council of States. This committee will determine the time and place for the next meeting of the council.

Economic Problems Discussed.

The principal work of National Tax Association was the appointment of several committees and the discussion of the problems of vital economic interest at the present time. A committee on resolutions was appointed, headed by Professor Plehn, of the University of California, of which Dr. Gilbert was made a member.

The problem of the state income tax, including the appointment of assessors, the reassessment of property, and business taxes, especially on gross sales of

mercantile firms, was one of the first to be considered. The delegates were greatly in favor of extending the principal of taxing incomes by the state, according to Dr. Gilbert, and if possible to work out system of co-operation with the federal government in using the income tax returns. The conference also recommended a state tax commission to administer the income taxes, and referred to the success of the Massachusetts and Wisconsin systems as proof of its adaptability.

Would Appoint Assessors.

The representatives also went on record as supporting the system of appointing assessors instead of electing them by the taxpayers generally.

The majority of delegates strongly believed that efficient assessment of property could be accomplished only by having assessment placed under civil service rules, placing responsibility on state boards. A resolution to this effect failed to pass only because of the rule that all resolutions must have the unanimous vote of the association.

"The meeting was rated as the most successful in the history of the organization," said Dr. Gilbert.

On his return trip to Oregon, Dr. Gilbert visited Dr. E. C. Robbins, formerly instructor of Industrial History here, who is now assistant professor of economics at the University of Minnesota. The Minnesota school's department is much larger than that of the University of Oregon, having twelve instructors in its department of economics. Mr. Robbins has classes in industrial history and also in the principles of economics, according to Dr. Gilbert, and does most of his work at the state farm in St. Paul.

WASHINGTON WILL NOT MAKE GOOD ON BROKEN CONTRACT

(Continued from page one)

Prof. Howe. "For this reason we will oppose any such proposed legislation." "In regard to the paying of her guarantee by Washington, we looked for the U. of W. to take the same attitude that Oregon took several years ago under somewhat similar circumstances. Oregon cancelled a game with Idaho when Virgil Noland died and the other members of the team did not feel that they should play. At that time though, we paid our full guarantee to Idaho."

To Consider Basketball.

Aside from the legislation mentioned, the conference will probably consider seriously the advisability of scheduling basketball games for the coming season. "Before making any dates," said Mr. Tiffany, "the conference will likely look pretty thoroughly into the field and then decide on what to do. Baseball schedules will also be adopted at this meeting." The members of the Coast Conference are the Universities of Washington, Oregon, California, Stanford and the Oregon Agricultural College.

DR. O. H. RICHARDSON TO SPEAK ON GERMANY

Professor of History at Washington Will Address Assembly—Pep Rally to Follow.

"Germany and the United States," is the subject of the lecture to be given at assembly tomorrow morning by Dr. Oliver H. Richardson, professor of European history at the University of Washington. Dr. Richardson is on his way to Berkeley to attend a meeting of the American Historical society, but consented to stop off and make this talk to the students of the University. Dr. Richardson will talk to the commercial club of Portland, before coming to Eugene.

"Dr. Richardson is a very vigorous speaker, and he has a good historical background for everything he says," said Karl Onthank. "Every student in the University should be in Villard to hear the lecture."

After the lecture there will be a short pep rally, and the band will introduce its new march, written by Albert Perfect, leader of the band.

Besides the band music, there will be short talks by Jimmie Sheehy and "Slim" Crandall, concerning Oregon's attitude toward O. A. C. and the importance of being in the rooters' section to back up the team.

ORCHESTRA MUSIC ARRIVES

Numbers Selected by Miss Forbes Here From the East.

The work of the University orchestra is to be greatly assisted by the receipt of a number of high-class orchestral numbers. While in the East this summer, Miss Winifred Forbes, director of the organization, selected several suitable numbers for the orchestra. These have been received and will probably form a nucleus of the program for the annual concert by the orchestra.
