

OREGON WILL IGNORE CONTRACT BREAKING

(Continued from page one)

representatives preferred to drop the matter, since such a proceeding might prove fatal to coast athletics.

Freshman Not Eligible Twice

From now on, no person will be allowed to participate on a freshman team of any institution represented in the conference, who has formerly been eligible to participate in that sport, was the decision on freshman eligibility. This ruling was made to stop all arguments concluding, whether or not men above freshmen standing could represent their institutions in freshman athletics. The ruling makes it prohibitive for anyone above this first year standing to play with a freshman team.

As transportation and living expenses are very high, because of the war, it was practically decided that no inter-sectional contests will be held in basketball and baseball, during 1918. Instead of the usual contests between California and the northern institutions, it is highly probable that games between California and Southern California, Oregon and O. A. C., and Washington and Washington State, will be substituted. This means that the coast conference is to be practically disbanded, until the next football season, when inter-sectional contests will again be resumed.

Schedule Partly Arranged

Three football games were scheduled for Oregon. The first will be with California, in Berkeley, on November 2. Since the California-Washington game, will be played in Seattle this year, the southern authorities will probably consider the Oregon-California contest as their most important home game.

The Varsity's next contest will be played in Eugene on November 16th, against Washington State College. These two institutions have not been pitted against each other in Eugene, for several years, and a great interest should be manifest on that date. It is very probable that this will be the headliner of the Homecoming week-end.

The third contest to be scheduled was that with the Aggies, in Portland, on Thanksgiving Day. As this game was a great financial success this year, it was decided to continue it as the annual holiday attraction for the coming year. Baseball and basketball schedules have not been arranged as yet but will be announced within the next few days.

NEW BAND INSTRUMENTS

Women's Organization Still Open for More Members.

"Now is your chance to get into the Women's Band, girls," announces Jeanette Calkins, president of the organization, "but if you want to get in you will have to be quick about it as we have already added for recruits since we organized a couple of weeks ago. Mr. Perfect has just obtained several more instruments on which you can try out by going to his office in the music hall.

The instruments obtained are two cornets, two clarinets, two alto horns, a baritone and a snare drum. A saxophone also was secured but has already found a player.

The band is working hard this week preparing for the matinee dance to be given in the mens' gymnasium Friday, December 14.

SENIOR LOTTERY BIG PARTY

Eighteeners to Make Merry at Sigma Nu in "Hard-Times" Affair.

Final plans have been completed by Oscar Goresky and his committee, to make the senior lottery dance, Friday night, at the Sigma Nu house, the ne plus ultra of such affairs. The party will be in the nature of a "hard times" dance, and any person appearing in his "Sunday best" will be refused admittance.

The dictate concerning dances will be strictly enforced, and every man bringing two girls is expected to take an equal number with each lady.

SOLDIERS' SCRAP BOOK ARRIVES ON CAMPUS

Sample of New Idea to Be on Display at Library. Will Furnish Variety for Sammy.

Making a scrapbook for Sammy is the latest idea. It was started in England by Rudyard Kipling, spread like wildfire, and has now arrived on the University campus. The aim is to get something different from books—something light, that a well soldier can carry about with him in his knapsack and a sick soldier can hold up and look at without effort.

Directions for filling the books have arrived at the University library, and samples of the empty books will be on display at the circulation desk sometime next week. The manufactured covers are merely for convenience, and if the individual is sufficiently artistic, he can make his scrapbooks, cover and all.

Novel touches, showing the personality and interest of the maker, are desired. "It should be borne in mind that the scrap books are for young American men, not for children. The contents should appeal to virile, active adults, with wide interests and a lively curiosity about everything under the sun," say the directions.

Colored pictures should be used rather than prints in black and white; magazine covers are excellent for this purpose. References to sentiment and things at home, should be used carefully, and anything that might cause despondency, or homesickness, should be avoided. Although the subject of war should not be ignored, any humorous articles on the subject, or serious article about new inventions, would be preferable. Subjects of practical interest should not be overlooked, according to the directions.

But foremost of all don't forget that side-splitting story, that wholesome American anecdote, and your much-desired personal greeting at the close of the book.
