DRILL FOR TURM TO CLOSE NEXT MONDAY

Colonel Bowen Will Give Talk to
Men in Villard Tuesday.
Tells How to Avoid Ill-
ness in Service.

Take Time to Cook Food Well
Is Advice From the
Commandant.

Military drill for the present quarter will end with the Monday period according to Colonel Bowen, drill commandant, who addressed the men of the four University companies during drill hour, yesterday. Tuesday the men will assemble at 11:30 in Villard hall and Colonel Bowen will give an illustrated lecture on "Custer's Last Battle."

A heavy rain prevented outside work yesterday morning and the Colonel devoted the period to a lecture on the hardships of camp life during actual service and how to best avoid discomfort and sickness.

Colonel Relates Experiences.

The Colonel told of his experiences in temporary camps in the Philippines when it was often impossible to get enough water and proper food for the needs of the company.

"Use the water on your feet and body and let your hands and face go, if necessary," said Colonel Bowen in pointing out to the student companies that they would, if called into service, often see the time when it would be impossible to have showers for all the men and sometimes possibly enough water only for drinking purposes.

Cook Food Well.

Colonel Bowen urged the men who should be later called into the field for Uncle Sam to always take time, when cooking their own food, to cook it well. He urged boiling whenever possible as, he said, it would keep the men in a healthier condition and preserve more of the food value than frying, often prac-

ticed because it takes less time than the boiling process.

"It is as much your patriotic duty to keep your body in condition in the field as it is to fight bravely in battle," said Colonel Bowen.

TO PRESENT MUSICAL PLAY

Dr. Landsbury and Mrs. Parsons Work
Out Three-Act Production.

Work has been begun on a three-act musical play in which Mrs. M. H. Parsons, of the department of English, and Dean John J. Landsbury, are co-operating. The libretto of the piece, "In a Dresden Garden," has been written by Mrs. Parsons, and the music will be written by Dr. Landsbury. Cleome Carroll, a senior in the department of public speaking, is handling the problem of staging of the production. She has already built a complete miniature of the garden scene and is now working out the costumes and lighting effects. The production may be ready within a few weeks.
