# HUNS' PEACE TERMS **BLUFF SAYS DRUCKER**

Believes Bolsheviki Succeeded Where Allies Failed, in Making Rift in Germany.

Entente Playing Into Hands of Kaiser in Initiating Lenine, He Asserts.

"The Bolsheviki have accomplished what the allies have tried to do and failed. They have at last made a rift between the German socialists and the German imperialists," declared Professor A. P. R. Drucker, the Russian head of the commerce department in the University. "Up to this time the German socialists have considered Germany the greatest and most glorious government on earth. Now they realize some of the kaiser's bluffs."

Professor Drucker was born in Rus sia, and receives letters, papers and much information from his Petrograd

The kaiser's offers of peace were heartily endorsed by the socialist party, explained Mr. Drucker. When, however, he refused to allow the meeting to take place in a neutral countrythus insuring recognition to the Lenine government through international courtesy-both the Bolsheviki and the German socialists realized that the alleged recognition of Lenine was not sincere. Also, the refusal to allow Poland and Lithuania to speak for themselves concerning the government they preferred, proved that the principle of self-definition of small countries, which was one of the underlying principles of the peace offers, was also merely a bluff. So the Bolsheviki have exposed the German government to the German people in a way that the allies could not do.

Professor Drucker is a great admirer of Lenine. "He is the greatest man in Russia," is the opinion of the Russian professor. "A keen statesman and politician, he is a man of iron, reasoning, calculating, absolutely unbendable. He is a match for the kaiser, cold, unafraid, unswayed by sympathies or leanings, working for the best good of the Bolsheviki-but without the power probably be until the close of the war. of the war-lord. He accepted German hospitality, knowing what was expected Mr. and Mrs. Wesley B. Pennington, of of him, but uninfluenced by gratitude or display of power."

Professor Admires Lenine.

The refusal of France, England and America to recognize the government of Russia, is, in the opinion of Professor Drucker, somehow influenced by the German wishes. When the Russian socialists were refused a part in the socialist meeting in Stockholm in September, the kaiser chuckled, for this left the Russians to be influenced solely by the German socialists. One minute's continuous applause, and the singing of a stanza of "God Save the King," were the tributes paid Colone! John Leader by University students who packed Villard hall Wednesday morning to hear Colonel Leader tell the story of the battle of the Somme. So enthusiastic were the students that the time was extended to 11:30 that the survivor of the Somme might continue his reminiscences of the fight.

Addressing his talk to his "fellow soldiers, the members of the University battalion," Colonel Leader declared that the battle of the Somme should be an encouragement to citizen soldiers.

First Triumph for Citizenry. "It was the first battle on a large scale," said Colonel Leader, "fought in this war by citizen soldiers against regulars.
