## LATIN AMERICA BACKS U. S. SAYS LECTURER

**Former Adviser to Chilean Foreign Minister Asserts Continent in Favor of Wilson Policy.**

**Future Security Depends On German Defeat, Declares Speaker in Villard.**

Bringing assurance that the Latin American countries are standing back of the policies advanced by the United States and are ready to join in the reconstruction work after the war, Dr. Alejandro Alvarez, formerly adviser to the minister of foreign affairs of Chile, spoke at the Wednesday morning assembly in Villard Hall.

"It should be a great satisfaction to the people of the United States that the people of all the American countries are supporting President Wilson," said Dr. Alvarez. "The future security of the powers in North and South America is dependent on the work of the United States in this war."

**Will Help Reorganization.**  
The necessity for absolute reorganization of international life after the war was emphasized by the speaker. If the ideals of the states of the American continent are further unified, the power of the western continent after the war will be greater. The American Institute of International Law, of which Dr. Alvarez is secretary general, has worked for this uniformity among the countries.

"We must unify as far as possible the international doctrines and ideals of our governments," continued Dr. Alvarez. "All countries here must have one united board with uniformity of ideas, to assure the triumph of our continent and government. Thus, the triumph of democracy will be possible, and world peace established."

Believing that the value of co-operation has been brought out in the present war, Dr. Alvarez thinks that co-operation between individuals and nations in time of peace must be also established to secure a firm organization of international relationship.

**Individual Rule Eradicated.**  
In regard to the reconstruction of international law, the American institute asks that the three principles of the Monroe Doctrine be promulgated.

"These principles represent not only the interest of the United States, but the interests of the whole American continent," stated Dr. Alvarez.

Pointing out the disappearance of the rule of the individual as a significant feature in international life, Dr. Alvarez brought out that experience shows that all the belligerent nations have eradicated the rule of the individual, and substituted co-operation.

The ideal of the American institute, as expressed by Dr. Alvarez, is to see the 22 countries of America formed into one national society, with the United States as the inspiring power.

**East Pessimistic on War.**  
Dr. Alvarez has already visited 24 universities in this series of lectures given to the American universities in

connection with the work of the division of international law of the Carnegie endowment for international peace. From Eugene he goes to the University of California.

Bishop Walter T. Sumner, who was in Eugene to take part in the presentation of colors ceremony, gave a short talk on some general features of the war spirit in the west. Having just returned from a trip to the east, the optimism of the west is a noticeable contrast.

"The war is not going to be such a short matter as we in the west would like to think," said the bishop. "America must get into the work hard. Whatever we can give in the way of service or money to the many drives that are being made, we shall never do work commensurate with the work of those men who serve us at the front."

## CO-ED BASKETBALL FIVE PREPARES FOR O. A. C.

**Game Scheduled at Corvallis March 9; Varsity to Play Return With E. H. S. Next Week.**

The co-ed Varsity basketball team has been having stiff practice during the past two weeks, in preparation for the game with O. A. C., according to Maud Lombard, manager of basketball. The game will probably come off at Corvallis, March 9, if that date is convenient to the orange and black quintet.

Word has been received that the O. A. C. team is working hard, and that it expects to show the lemon-yellow aggregation a fast game. O. A. C. has been using the New England rules, but this will not affect the game between the two institutions, according to Hazel Rader, who is coaching the Oregon team. The Varsity team plans to play a return game here with the Eugene high school girls early next week. In the game played between the two teams last week, Oregon won with a score of 16 to 5.

Not only is the Varsity team practicing three nights a week, but it is also working every other hour or half hour available. Assembly hour yesterday was spent for that purpose.

Marjory Kay, '20, is spending the week-end at her home in Salem.
