DOUGHNUT BASEBALL LEAGUE TO ORGANIZE

Diamond to Be Placed East of Varsity Field; Teams' Playing Not to Interfere.

Daylight-Saving Plan to Make After Dinner Schedule Possible.

Dean Walker, director of intra-mural athletics, announces a meeting of the managers of the baseball teams of the various fraternities and clubs on the campus, in his office Monday at 4, at which time the formation of a doughnut baseball league will be discussed, and in all probability a schedule drawn up.

If the faculty enters a team in the league there will be 11 teams, giving each team a schedule of 10 games during the season. It is planned to start playing as soon as possible, and to play at least five games a week so that the schedule may be completed before the first of June.

A new diamond is to be laid out above the Varsity diamond, so that the practice and playing of the doughnut games will not interfere in any way with the regular work of the Varsity squad.

May Form Two Leagues.

It has not been decided, according to Walker, whether or not two leagues will be formed, as was done in basketball, or whether just the one league will be created, having each team playing each of the other teams once. This question, together with the one of whether or not Varsity men should be allowed to play, will be discussed at the meeting Monday. It has been suggested that the Varsity men be allowed to participate if they do not play in their regular positions. It is probable that all of the freshmen will be allowed to play.

Another thing that will have to be decided at the meeting of the managers, is the time of the games and their duration. With the introduction of the daylight saving plan it will be possible to play the games in the evenings, and by so doing there would be no interruption to the practice of the regular team and the frosh. Five-inning games seem to be the best, which would fit in with the after-dinner arrangement nicely.

Colonel Leader May Play.

So far no word has been heard from the faculty as to whether or not they will enter a team. Colonel Leader is highly in favor of it, and has threatened to get out and play himself. Professor Hamilton is said to be a wonder in the box, and will probably twirl for the "Profs" if they decide to enter a team. Professors Prescott and Winger are both said to be fairly good, and Registrar Tiffany will probably "gamble on the green" when the season starts.

SUMMER JOBS CALL CO-EDS

Maude Sargent to Teach; May Murray Goes to Logging Camp.

Two more girls are taking advantage of the spring term to begin their summer's work. Maude Sargent leaves some time next week for Colstin, a town in northern California, where she will teach in a country school. Her school term there begins now and lasts through the summer. It will be out in time for Miss Sargent to return to University next year.

May Murray, a freshman in the University, plans to leave next week for her home in Silverton, where there is a large logging camp. Miss Murray's work will be waiting tables in the logging camp and planning recreation for the men after hours.

These girls are members of Tre Nu, the society for girls who are making their way partly or entirely through University. A farewell meeting will be held for them Sunday afternoon.

STUDENT TAKES NEWS POSITION

Beatrice Thurston Now Telegraph Editor of Klamath Falls Paper.

Miss Beatrice Thurston, woman's editor of the Emerald during the first and second terms of this year, is now holding down the position of telegraph editor and covering general assignments on the Evening Herald, of Klamath Falls. Miss Thurston is a member of Delta Gamma and a major in the school of journalism. She will return to complete her college work with the opening of the fall term.

Eileen Gehr, of Portland, is spending the week-end at the Gamma Phi Beta house.

Donald Skene and Bill Haseltine were Monday evening dinner guests of Kappa Alpha Theta.

HAYWARD WANTS MORE TRACK MEN

(Continued from page one)

capped in several ways should be enough to make the boys work all the harder. They have, upon several occasions, faced just as hard a fight to overcome adverse conditions and have always come through. But now is the time to make the effort.

"I don't care so much for hard, strenuous work, but we should have more men out—three for every event. A third place man is just as valuable to a team as a first. We have a hard season to go through, all very true, with green men, and may be defeated, but, if we have to go down to defeat, let us at least go down trying. I have too much respect for the Oregon type of men to think they will give up everything, but what I want to impress upon them is that now is the time to make the effort.

One Goal Is Victory.

"There are a lot of valuable men that are not getting out, I have been told, and these are the ones to whom I want to make this appeal. I do not ask for experienced men—just for those who are willing to try.

"As I lie here on my hospital cot I cannot help but worry to some extent over the outcome. But let us have more men and if I can get out of here soon enough, we will be all right.

"The Oregon team is not licked yet—our one goal must be victory."

May Return in Two Weeks.

Dean Walker announced this week that Bill Hayward will probably be back on the campus inside of two weeks. "In the letter I received this morning he said that he had been able to walk across the floor Thursday for the first time, and that he was gaining weight and strength fast. He seems to feel fine, but is a little weak yet. At one time during his sickness Bill was down to 146 pounds, which is about 50 pounds under weight for him, but he should improve fast from now on and be on the campus in about two weeks, although he will be unable to do little coaching for some time."

Delta Delta Delta will entertain with an informal dance at their chapter house this evening, immediately after open house.
