

VARSITY IS DEFEATED IN FIFTH CONTEST

Aggies Break into Winning Column with Rally in Fourth and Errors for Oregon.

GAME SLOW AND RAGGED

Lemon Yellow Artists Fill Sacks in Ninth, but Are Unable to Score.

Oregon Agricultural College Campus, Corvallis, Oregon, May 3.—(Special to the Emerald.)—The University of Oregon dropped her first baseball game to the Aggies here this afternoon when she came out on the small end of a 13-12 count after nine innings of slow, uninteresting baseball. The Aggies really won the game in the ninth when they scored three runs, putting them one to the good. Oregon opened the ninth with the score 12 to 10 in her favor but failed to get any more of a lead, although she had the bases full.

The loss of the game can be placed in the fourth inning when several of the Oregon players took a mental vacation and allowed the Aggies to score. Lodell, first man up for the O. A. C., singled to center. Gurley was safe when Grebe dropped his fly. Baldwin and Sieberts both fouled out to Dunton. Oleson safe on Morrison's error, scoring Lodell. Preston doubled to center scoring Gurley and Oleson. Rickson singled to left scoring Rickson and went to third on Dunton's overthrow of second. Hubbard fanned. Five runs, four hits, two errors.

This tied the score and then Oregon went into the lead again but was unable to hold it. "Rabbit" Grebe butted into a couple of throws to second that should have been Morrison's and failed to hold the lead, allowing the Aggies an additional base on life. "Rabbit" tapped the ball for a triple later in the game but not enough runs were chased across the plate to win.

The game was slow and ragged lasting two hours and fifty minutes. Neither Wilson nor Coleman pitched airtight ball and errors on both sides helped to make the game ragged. Coleman was worked yesterday and he is to participate in the track meet today.

Lind rapped the pellet in grand style

U. TO PAY \$100 FEE

Club to Ask Students' Aid in Raising Fund.

Money Will Entitle Oregon to Membership in Union.

At a luncheon held Thursday at the Hotel Osburn for the members of the University club of Eugene, a resolution was passed to raise funds with which to pay for membership in the American University Union in Europe, a club formed for the convenience and entertainment of American college men in the service in France and England. The fee for one year is \$100.

"We will ask the student body," said Dr. Warren D. Smith, president of the University club, "for financial help. We owe this to our University men in the service. There are 121 American Universities and colleges represented in the organization. The clubs are not luxuries but necessities."

The headquarters of the organization are in London, Paris, and Bordeaux. At these headquarters American university men can get rooms and board very cheaply. American magazines and papers, and can meet other American college men.

"There is no distinction made," said Dr. Smith, "between the enlisted man and the officer at these club houses. They are the general headquarters of college men in France and England."

Anyone who wishes to contribute to the fund can pay his money to Luke Goodrich, cashier of the First National Bank.

Fraternities belonging to the organization are Beta Theta Pi, Delta Psi, Phi Gamma Delta, Psi Upsilon, Delta Kappa Upsilon, Alpha Delta Psi, West Point and Annapolis are honorary members.

500 STUDENTS EXPECTED FOR SUMMER SESSION

Professor Schafer, Dean, Says Increase Is Due to Efforts of Greater Oregon Club.

Summer school students will number between four and five hundred this year, according to Professor Joseph Schafer, dean of the University summer school. Though this is a larger number than has attended in previous years, the work carried on by the Greater Oregon club through its officers in the counties of the state will bring more students here this summer in spite of the war, he says.

"The members of the Greater Oregon club are showing a great spirit of cooperation," Professor Schafer said. "They have sent printed material and letters to the teachers of the state who might attend."

MAY 10 SET ASIDE FOR STATE UNIVERSITY DAY

Alumni to Talk up Alma Mater in Local Communities and Hold Reunion Parties.

May 10 has been set aside by the Alumni council as state University day, the time when all old Oregon grads should have a get together party in their communities, enjoying a day of good fellowship and reunion and at the same time stimulating interest in the University.

That every one of the 24,000 Oregon high school students know before next May 10 has passed into history where the University is and what it has to offer, is the wish of the council members. That every one of the 3000 who will be graduated this year will know what men and women in their community are alumni of the University of Oregon and will know some college person to whom to turn for advice in answering the question "Shall I go to college?" is a further aim of the council.

Every local committee, secretary Karl Onthank of the council points out, should include persons who will cooperate with the high school principal in a special assembly on University day. At this meeting the vital importance of every student who can continue his education beyond high school to do so and the splendid opportunities offered by the University should be clearly brought out by the speaker. Illustrated booklets, rescribing in detail the work offered by the University will be sent to anyone desiring them. Mr. Onthank is sending copies to the local committee chairmen.

WOMEN'S TENNIS MEET WITH WILLAMETTE OFF

Illness of Member of Opposing Team Delays Game; O. A. C. to Play Here Next Saturday.

The Oregon girls' tennis team did not meet the Willamette University team today in Salem as had been planned because of the illness of the star player on the opposing team. Adrienne Epping, president of the tennis club, received word last night from R. L. Matthews, athletic manager of the Willamette girls, that Mary Findley would not be able to play today, but they wish to meet Oregon at the earliest opportunity.

According to Miss Epping this may not be for two or three weeks as the schedule of the club is pretty well filled up until then. May 11 the girls meet O. A. C. team here.

The girls who were to leave for Salem this morning are, Madeline Slotboom and Caroline Alexander, who were to play the doubles, Adrienne Epping and Marjorie Campbell, singles. Caroline Alexander was to go as manager of the team.

Today the annual May day festival is held at Willamette, and the tennis match was to form part of the day's program.

SWIMMING CLASS CHANGED

Women to Be in Tank at Nine on Fridays Instead of at Ten.

Swimming classes for women will begin at nine o'clock on Friday mornings for the remainder of the term, according to an announcement made yesterday at the gymnasium. This provision was made to make the tank less crowded on swimming days. Classes began before at ten o'clock on Friday mornings. Tuesday and Thursday afternoons are the other days for swimming.

CORNERSTONE LAID FOR MEDICAL SCHOOL

Governor Withycombe Officiates at Dedication of University's New Building in Portland.

Structure to Be Center of Group Will Accommodate 150 Students.

Dedication of the first unit of the University of Oregon medical school group on Marquam Hill took place Wednesday in Portland, when the cornerstone of the building was laid by Governor James Withycombe.

Dr. Kenneth A. J. Mackenzie, dean of the medical school, and J. D. Farrell, who as president of the Oregon-Washington Railroad and Navigation company was instrumental in obtaining the gift of the 21 acre site, which is some 500 feet above the Terwilliger boulevard, were given credit for the work by the speakers of the day.

Dr. Ernest H. Lindley, president of the University of Idaho, who has visited the campus here several times and who gave the baccalaureate address last June, was the principal speaker of the occasion.

President Campbell was unable to attend the dedicatory ceremonies due to his absence in the East as secretary-treasurer of the National emergency council of education. Dr. K. A. J. Mackenzie, who presided, read a letter from President Campbell expressing his regrets at being absent, and his best wishes for the school's rapid growth. The building is to be ready for occupancy this August, and the fall classes will start in it. It will accommodate 150 students, whereas the present quarters are only large enough for 90 students.

The sum of \$115,000 was raised for the building by state appropriation and by popular subscription. Bio-chemical laboratories, lecture rooms, library administration offices, dissecting rooms, surgical, microscopic and pathological laboratories, research rooms, and a large auditorium will be provided in this building, which is to be followed from time to time by others, according to the plans of the school.

ASH, '15, BECOMES SAILOR

Oregon Alumnus Enters Merchant Marine Service at San Francisco.

Clarence Ash, an old Oregon alumnus of the class of '15, is shipping out of San Francisco on a government steamer which has been commandeered into the merchant marine service. Mr. Ash's place is not on the form of an enlistment, but after three months or so of preliminary training at the regular shipping and sea end of the deal, he will be qualified to apply for a commission in the service, which will entitle him to the rank of first or second mate of a merchant ship.

Mrs. Ash, formerly Miss Mastic, who is also a graduate of the University, is living in Alameda, California, with relatives.

Roberta Schuebel is First Oregon Co-ed to Study Law

Roberta Schuebel, a junior 20 years old, is the first woman in the University to take a straight law course. She is making good and is one of the best students in the law school.

Miss Schuebel is taking this work with the idea of fitting herself to practice. Her father, C. Schuebel, of Oregon City, is a lawyer, and Roberta decided before entering high school that she wanted to be one too.

When she came to the University in September 1915, Miss Schuebel majored in economics and took a regular pre-law course. Now she is in the first of the three years in which she plans to study law here.

Miss Schuebel thinks there is a splendid opportunity for women in law if they like the work. "I do not see why more women don't take law," she says. "They need not think that they have to practice. There are wonderful opportunities for women to start in a firm of lawyers by doing briefing and research work."

BISHOP SUMNER TO BE SPEAKER AT VESPERS

Head of Episcopal Church in State Will Spend Part of Coming Week at University.

Military Drill Students Are Asked to Attend Sunday Services.

A letter received yesterday by Karl Onthank, secretary to the president, from Bishop Walter T. Sumner who is to be a guest of the University the coming week, arrived in Eugene Sunday morning. Bishop Sumner is to be the speaker at vesper services in Villard hall Sunday afternoon, and from that time on will fill the numerous social engagements that will be demanded of him during the following week. He will be able to remain on the campus until Friday of Junior Week-end, thus sharing in the festivities to a certain extent as has been his custom for the last few years. The subject of Bishop Sumner's talk Sunday will be "Who Is the Centurion?"

The Vespers Sunday afternoon will be the first of this quarter and will be in the nature of a military service. Colonel Leader has asked that all University students of the military drill and classes be present, and Thursday night made the same announcement before the home guard companies of Eugene. Credit for two make-up drills will be given members of the University battalion who attend. The students are asked to appear in uniform, and well meet on the lawn east of Villard hall at 4:25.

The University Y. W. C. A. is furnishing the ushers for the Vespers service. Music will be furnished by the girls' glee club and the University orchestra.

PROF. STAFFORD GIVEN \$500

Chemistry Head Receives Endowment for Wood Distillation.

Professor O. F. Stafford head of the department of chemistry, has just received notice that he has been awarded an endowment of \$500 for continuing his research in wood distillation. The word came from Edward C. Pickering, director of Harvard Conservatory and secretary of the Grants Committee of the American association for the Advancement of Science. The endowment is in recognition of the work Professor Stafford has done on the problem of wood distillation.

HAINES GETS COMMISSION

Ex '19 Man Made Officer After Training at Fortress Monroe, Va.

Leland Haines, a sophomore in the University last year, who received an appointment to the Marine Officers training camp at Fortress Monroe, Virginia, writes his friends on the campus that he has received his commission.

U. OF O. BATTALION SPECIAL ORDER

Battalion will fall in without arms Sunday, May 4, for roll call for divine services at 4:25 p. m. on the lawn east of Villard hall. Uniform will be required. Attendance will count in place of attendance for Thursday, May 1, o. o. one other past absence, or can be applied as make-up drill for two other past absences. By order, Dean H. Walker, Captain and Adjutant.

GET-RICH-QUICK PLAN OF TRIPLE C GIRLS FADES

Good Music, Plenty Floor, Ice Cream Galore, but no Crowd to Listen to Music, Glide or Eat.

With visions of an over running class treasury and enough left after all class expenses had been paid, for a junior picnic the Triple C girls planned a dance. Miss Mary Perkins and Professor and Mrs. Sweetser were the chaperons. Dick Lyon's orchestra and the use of the Men's gymnasium was engaged for the afternoon, ice cream was to be sold between dances, and the stage was set for a Tripple C matinee dance yesterday afternoon.

But the Triple C dance fell into the category of the things that do not turn out as they are planned. Floor space was in abundance, the music was up-to-date, but the crowd down stairs was small, a few men decorated the balcony. A few dozen people can not be expected to buy the ice cream that was brought for a hundred, so the sale of ice cream was as small as the gate receipts, which did not come anywhere near the girls' expectations. Their dream of plenty faded, and they are planning on selling ice cream at the ball games during Junior Week-end to make expenses.

POPULAR WAR BOOK LIST REACHES OREGON LIBRARY

Works Are Classified, Summarized and Criticized in Compilation—Jan Hay Favored.

A small booklet called "Some Popular Books on the Great War" compiled for the Western Massachusetts Library Club by Grace Miller, has arrived at the library and is posted on the war bulletin board.

The number of books listed under the various topics ranges from one to seven, which keeps the list from becoming tiresome or confusion arising from too many being listed. Each book is summarized and criticized by a few lines of explanation, and is placed under a special heading such as history, the cause of the war, at the legations, a few who enlisted, spirited sketches of life at the front, fighting in the air, Red Cross and relief work, the western front, the Russian front, some women's experiences, the workers at home, Germany in war time, and war poetry.

Miss Miller lists among her collection of the most popular war books "The First Hundred Thousand" and "All in It" by Ian Hay; Boyd Cable's "Action Front"; "Ambulance No. 0." by Leslie Buswell; John Masefield's "The Old Front Line," and "Gallipoli," and "France at War" by Rudyard Kipling.

CHESTER HUGGINS WITH MACHINE GUN BATTALION

University Athlete Is Now at Camp Fremont; Wins 880-yard Dash in Meet.

Word just received from Chester Huggins, former University track man and all round athlete, says that at last he has been definitely assigned and is now with the 23rd Machine Gun Battalion, stationed at Camp Fremont, California.

The information came on a post card bearing a picture of Chet himself finishing the 880-yard dash so far ahead of his nearest competitor that it looked like a one man race. The event was one scheduled in the divisional track meet held on Stanford track, and the old Oregon standby had just picked off first honors in the mile run when the sensational picture was taken.

Carl Gabrielson and Bob "Tubby" Alton are also at Fremont, probably with the same division.

R.O.T.C. FOR OREGON DELAYED ONCE MORE

President Campbell Wires from Washington that Major Sher Is Not Yet Available.

Must Get Colonel Bowen or Wait on Chamberlain Bill or Senate.

Oregon's quest for R. O. T. C. has been again delayed. A telegram received this morning from President Campbell, who is in Washington and yesterday conferred with the war board, indicates that Major Sher, retired U. S. officer whom it was planned to secure for the University battalion as nominal head so that the R. O. T. C. could be granted under the law, has already agreed to give his services to Kansas.

This leaves as an alternate, Colonel W. H. C. Bowen, retired officer who had charge of the battalion last December before the arrival of Colonel Leader. The war board, President Campbell says, has advised that the University wait for the return from France of some of the officers now in active duty there as they will soon be returning unfitted for the more strenuous work of trench fighting but with knowledge of the present war fighting.

Training Camp To Open May 15.

If this is done it will probably be impossible for Oregon to get R. O. T. C. in time to have the opportunity of sending a quota of men from the battalion to the officers' training camp at Presidio which opens May 15.

President Campbell believes that this would be impossible now under any condition as, he says, the quotas have already been designated.

It is believed that Colonel Leader, drill commandant, will urge that Colonel Bowen be chosen and the R. O. T. C. granted to the University immediately. He has recently committed himself to that policy. A telegram asking him his attitude was sent today to Portland, where Colonel Leader is on business over the week-end.

Chamberlain Bill May Help.

Another alternative urged by the war board, according to the word received from President, is that University wait upon the passage of the Chamberlain bill making it possible for an officer on one year's military experience to qualify under the law as head of an R. O. T. C. At present the University is handicapped in securing a nominal head under the Colonel by a rule that the head must have had five years experience in the United States army.

U. OF W. TEAM COMING

Eight-Man Track Squad Will Meet Oregon Saturday.

Bogarth, Considered Best Man by Washington Coach, to Be Drafted Friday.

Washington will send an eight-man track squad to meet Oregon here next Saturday. This announcement reached Eugene today after the Washington coach, who had been undecided for the past two weeks, put the question up to the men turning out for the team. The men, without exception, voted to make the trip and will be here Junior Week-end.

In making the announcement, however, C. W. Vanderveer, Washington coach, laments the fact that the purple and gold will face a certain handicap and have an absolute lack of first point men. Bogarth, weight man and sprinter, whom the coach thought the most likely first place, will be called in the draft and have to report May 10. The meet with Oregon is on May 11, and so Bogarth will not be able to make the trip with his team mates.

Washington has put her men on a strict training table diet and will hold try-outs early in the week. The team which will consist of eight men, will leave Seattle Thursday.

Washington's time in recent practices was 10 2-5 for the 100, 10 minutes, 47 4-5 seconds for the two-mile, and 53 1-5 seconds for the 440.
