FIVE MAKE M. AND B.

Students Prominent in Campus Dramatics Elected.

Houston, Star of "Prince of Liars," Byers, Foster Complete Men.

After filling the offices for the coming year, Mask and Buskin Wednesday night elected to membership the following people prominent in campus dramatics:

John Houston, Tracy Byers, Henry Foster, Evelyn Smith, Gladys Diment.

Mask and Ruskin has been probably the most active of all campus organizations this year, staging two plays during the course of the three terms just passed. Probably the biggest success of the year was the three one-act war plays produced at the Eugene Theater on the nights of May 17 and 18. These three plays were well received by the audience which greeted them, and under the able coaching of Fergus Reddie, of the department of public speaking, went far toward the standing of the organization.

The first play, "Her Husband's Wife," was staged in Guild Hall under the direction of Bob McNary, on the evening of February 1, and the afternoon of February 2. It was an all student production.

Plans for next year have in them the staging of more plays than ever, and the new members are said to have a full year in prospect.

The officers for next year are as follows: Frances Frater, president; Norvell Thompson, vice-president; Helen Guttery, secretary; Norman Philips, corresponding secretary; Curtisa Peterson, manager.

The new membership elections leave but two places open for next year's selections, these two being girls.

ASSISTANT IN LIBRARY TAKES ASTORIA POSITION

Miss Mildred Brown to Be Librarian in Public Schools; Has Been at U. Five Years.

The library staff will lose one of its members next term, with the departure of Miss Mildred G. Brown, assistant librarian, who has worked in the University library since she was a freshman. She has received an appointment to be school librarian in Astoria, and will take up her new duties with the beginning of school in the fall.

This is one of the first instances of the new movement in school libraries, which, as the latest opinions have put it, should have one trained librarian with as few as ten teachers. The appointment of Miss Brown to the Astoria schools marks a new epoch in education by means of the library.

A request was sent to Prof. H. D. Sheldon. He passed the request on to M. H. Douglass, librarian, and he offered the position to Miss Brown. She is much delighted at the opportunity to work with the school children, and will report her progress from time to time.

U. GRAD GETS FELLOWSHIP

Jacob R. Cornog, '15, Now New York Chemist, to Be at Ohio State.

Jacob R. Cornog, graduate of 1915, has secured a fellowship in Ohio State University for next year. At present, he is a chemist in New York City, but has work toward his Ph. D. degree.

Mr. Cornog says in a letter to Professor F. L. Shinn, that opportunities for young chemists are excellent in the east now and that a University graduate in chemistry need not remain idle more than a week or ten days after arriving in New York City.

After graduating from the University Mr. Cornog was an instructor at O. A. C. for two years.
