

PHYSICAL TRAINING DELAYED TWO WEEKS

Outdoor Work Then to Begin; Nursing Course Takes Up All of Girls' Time.

With men of the S. A. T. C. quartered temporarily in the woman's gymnasium, it is not expected that regular classes in physical training for women will begin for at least two weeks. At that time outdoor work will be started, as is usual in the fall, or if the weather does not permit it, regular indoor work will begin.

Classes in theory, anatomy, remedial exercises and other regular normal work have not been inconvenienced, however, by the provision for the men. A course in nurses' training, under the supervision of the government, and so planned that if successfully followed by the student it will grant her three months' credit in any nurses' training school, has been instituted this year.

A large per cent of the enrollment in the class for nurses' training, according to Miss Mabel Cummings, head of the department of physical training for women, is of young women who signed during the past summer for work in the United States student nurse reserve. The only set requirements for admittance to this work are that the girl be twenty years and eight months of age. She must be in good physical condition and a high school graduate.

The course offered in nursing is so complete and contains so much condensed subject matter that the young women enrolled are unable to take any other University work. Following are the courses contained: Five hours elementary physics, three hours bacteriology with laboratory, twelve lessons in bandaging, twelve lessons on drugs, three hours principles of nutrition for nurses, three hours elementary chemistry for nurses.

Practical experience will be given the

young women in the University refinery. At the close of the three months' of work the young women who have been found qualified will be recommended by the University for the three months' credit in a nurses' training school.

DR. SMITH DECLINES POST

Oregon Geologist Not to Go to Argentine as Foreign Agent.

An offer from the International War Trade Board to act as foreign agent to either Spain or Argentina has been declined by Dr. Warren D. Smith, head of the geology department.

The position required that Dr. Smith go first to Washington, D. C., where he would take up research work along economic lines. He would then go to Buenos Aires, as he said that having been in Spain once before he would prefer going to an entirely new country.

The duties of the office of foreign agent would be to negotiate with foreign nations along the lines of exchange products and distribution.

"The reasons for my declining this offer," said Dr. Smith, "are the fact that I could not take my family with me at this time, I really feel that the work I am doing here is of sufficient importance to demand my attention here, and besides," he laughingly remarked, "Buenos Aires is by far the most expensive city in the world to live in."

NEW LIBRARIAN ARRIVES

Miss Corabel Ben to Have Charge of Reference Work.

The library staff has been increased by the arrival of Miss Corabel Ben, who will have charge of the reference work section. Miss Ben is a graduate of Smith college and has had experience both in the library of Congress and in the New York public library. She is a resident of Washington, D. C., and it was there during his visit that President P. L. Campbell engaged her, through the authorization of the regents, to fill the place left vacant last spring by Miss Margaret C. Upleger.

OFFER WAR ARCHITECTURE

Normal Course Offered for First Time; Will Teach Ship Work.

New courses in the School of Architecture and Art reflect the urgent need of war necessities. Special courses in Architectural Design will be given to solve the problems in war building, especially in the building of hospitals. Architectural History will be adapted to the needs in France and Belgium. A course in ship drafting will be given to supply the big demands in the ship yards of Oregon. This course is especially designed for women where Dean A. H. Lawrence declares they will fill the places of men creditably.

New classes will be given appealing to serious students of Art and those wishing to fit themselves as teachers.

Registration in this new work are very encouraging, according to the school faculty.

Other new courses offered in the School of Architecture and Art are: Elementary Design and Lettering, a laboratory course; a class in representation, both under Miss Rhodes. A class in Color Theory under Professor Schreff; Mechanical Drawing under Prof. Adams.

Art appreciation will be given by Miss Rhodes, Prof. Schreff and Prof. Lawrence. Prof. Schreff will take over Prof. Dorsch's classes in Modeling and Life.

ELEVEN WIN COMMISSIONS

University Men Sent to College and Camps of Country.

Eleven University men were commissioned second lieutenants at the Officers' Training camp at the Presidio this summer. The men, having been recommended from the University battalion for further training, were sent there early in the summer. Since the commissions were awarded the men have been stationed at various colleges and camps to assist in the training.

Only one of the men has been stationed in Eugene. Lieutenant W. E. G. Thacher, professor in the English department, is serving as personnel officer with the University S. A. T. C.

Roswell Dorsch, formerly an instructor in the art department, has been stationed at Reed College since receiving his commission.

The students receiving commissions and the places where they are stationed are: Sprague Carter, North Pacific College of Dentistry, Portland, Oregon; Lloyd Perkins, Washington State College, Pullman, Wash.; Curtis Peterson, S. A. T. C., University of Washington, Seattle; John Finneran, University of Colorado, Boulder, Colorado; Norman Phillips, Camp Taylor, Kentucky; Arnold Koepke, Oregon Agricultural College; Richard Avison, North Pacific College of Dentistry; Dorris Medley and John Matheson.

GLEE CLUB WOMEN MEET

Old Members to Plan Tryouts Wednesday at Four O'Clock.

Old members of the Girls' Glee Club will meet for the first time this year Wednesday at five o'clock in the music hall, according to an announcement made yesterday by Melba Williams, president. Plans for tryouts for places in the club will be made and the number of places to be filled will be determined. It is not known the exact number of old members back on the campus this year, but it is thought that the club will be made to number 24.

Miss Eleanor Lee, new instructor of voice in the school of music, will have charge of the Girls' Glee Club this year. Miss Lee is a graduate of Pomona College, Claremont, California, and has instructed in California. She was also a student in a dramatic school in San Diego, California, and has sung in churches in the suburbs of New York. She has coached with Anton Hoff, formerly accompanist for Schuman Heinck and with Alfred Willard in oratorio and sacred work.

JOINT RECITAL DELIGHTS

Arthur Faguy-Cote and Professor Barron Appear in First of Series

Arthur Faguy-Cote, baritone, professor of voice in the school of music, and Robert L. Barron, the new professor of violin gave a joint recital in Villard hall, Sunday afternoon at four o'clock to a capacity audience.

The program consisted of selections by Handel-David, Dudley Buck, Lemaire, Leoncavallo, Borowski, Wienlawski, Tchaikowski and others. Mrs. Faguy-Cote was at the piano for Mr. Faguy-Cote, and Miss Aurora Potter for Mr. Barron.

This was the first of a series of recitals, which will be given by various members of the school of music. The next one it is expected will be given by Mr. Barron in the Eugene theatre three weeks from last Sunday afternoon. These recitals are given for the benefit of University folk and the people of Eugene and no admission charge will be asked.

CAGEBALL MAKES DEBUT

New Sport May be Played Indoors or Out, by Any Number

Introducing Cageball, ladies and gentlemen, Cageball is a new bidder for the favor of Oregon devotees of athletics.

Cageball is "sponsored" by Graduate Manager Dean H. Walker, of the University, who is enthusiastic over the possibilities of the new sport. The ball and goals are already here; and that, Walker says, is all the equipment needed to play the game.

The new game can be played indoors or outdoors, by any number of players, from one on a side up to hundreds, and any size of field can be used. The ball is a huge affair, 30 inches in diameter, round, of course, and pneumatic. It looks heavy till one sees it in action, when it is recognized to be as light as air.

A cage four feet wide, 20 feet long, and eight inches deep is suspended at each end of the field, and the effort of the players is to get the ball into the net. The sphere can be advanced only by taps with the hand. No kicking or running with the ball is allowed, even if it were feasible to tuck a thirty-inch object under the arm and escape with it.

The game, Manager Walker says, is a dandy for exercise; not too rough; and it's fast, giving opportunity for plenty of action. The least bit of a tap sends the big, light ball yards and yards unless intercepted, and speed is a big asset to a player. Dean Walker is eager to have the fellows investigate for themselves the possibilities of the sport, and a tryout may be had Monday.

KINCAID HOUSE FOR GIRLS

Announcement Made by Mrs. Gerlinger at Hendricks Hall.

Mrs. George T. Gerlinger, a member of the University Board of Regents, is visiting the University campus for the purpose of supervising the furnishing of the Kincaid house for the women of the university who are unable to enter Hendricks hall.

Mrs. Gerlinger spoke to the residents of the hall at house meeting last night, concerning the erection and establishment as the University Hall of Residence for women. She remarked upon the love which the residents of the hall last year felt for it, as well as the love which those who had labored so hard to make it a reality held for it.

Kincaid house on the corner of Fourteenth and Alder streets, will house approximately twenty-five girls, and will be run as rather an annex of Hendricks hall. The girls residing there will board at Hendricks hall. It may be necessary according to Mrs. Gerlinger, to furnish several other houses in this way to accommodate the University women before the end of the year.

It is the purpose of the University to have all University women under direct University supervision.

Girl Law Student Leaves.

Roberta Schuebel, a senior in the University, will leave for her home in Oregon City in a few days to spend the year in her father's law office. Miss Schuebel was planning to enter the law school here for her fourth year of work, but the school is offering none of the advanced courses this year. She expects to go east next year for her law work. She has been prominent in various activities and will be missed on the campus.

From the Military Wrist Watches Just Received

We have just received a large stock of Elgin, Waltham and Swiss Radio dial military wrist watches.

We have them in many styles and at many different prices for those that come early.

Get yours before they are all gone as they are very scarce.

The demand for the military wrist watches is at least 100 times the supply.

If you are not ready to buy at the present time, then have one laid away for you and make a small payment on the same.
