**PLAN RECREATION FOR SOLDIER BOYS**

**Eugene Asked to Organize for Campaign to Raise Funds to Promote Morale of Men.**

A letter to F. M. Wilkins from J. N. Willys, chairman of the War Department and Navy Department Commission on Training Camp Activities, plans for a campaign to raise funds to provide recreation for the boys who are in training for overseas duty. The letter states:

"Experience at the camps already established has clearly shown the vital necessity for wholesome environment—for healthy social contact in the adjoining communities. This contact during the next few months is going to be the determining influence in making the spirit of the new American army. To the soldiers it will reflect the attitude of the entire nation toward them.

"The novelty of camp life wears off quickly. The routine of drill and instruction soon palls unless there is relaxation and a change of scene in the communities near by. It palls on these men who are fighting our battles exactly as it would on you and if you were in their places.

"The plan is to furnish the enlisted men hospitality in local social circles, to promote amusement in public places, to supply buildings, swimming pools, etc., and to prevent the exploitation of the boys by commercialized attractions of an undesirable sort.

A communication from President Wilson also commends the plan and the work that has been done. He says: "The spirit with which our soldiers leave America, and their efficiency on the battle fronts of Europe, will be vitally affected by the character of the environment surrounding our military training camps. I understand that your association finds it necessary to raise funds to carry on your work and I earnestly hope that you will be successful in your endeavor."

An organization will probably be formed in Eugene to carry on this work. **WAR ONE**

**WEATHER FINE FOR "SING"**

**O. T. C. Composers Renew Efforts on Masterpieces.**

The songs for the O. T. C. camp fire Friday evening have risen 190 per cent in popularity today because of the fine weather. For a time yesterday it was thought that plans for Friday evening would have to be delayed on account of the heavy rains, but since then, composers are again busy with their songs.

**VACCINE PREPARED IN MAYO CLINIC TO BE USED ON PLAGUE**

**Chicago Prepares to Manufacture Influenza Preventive on Large Scale; Disease Still Spreads.**

Chicago, Oct. 17.—Vaccine originated by Dr. E. C. Rosenow of the Mayo clinic, Rochester, Minn., will be used in a campaign against Spanish influenza.

Dr. Rosenow told the Chicago influenza emergency commission of his experiments with the vaccine, with which he has treated 20,000 persons. The commission at once named a committee of physicians to take charge of the manufacture and use of all vaccines and serum in Chicago, including the Rosenow vaccine. Another committee was named to raise funds for its manufacture and distribution.

Five days will be required to begin the manufacture of the vaccine here, it was stated. Meantime, Dr. Rosenow will provide a supply sufficient for 100,000 doses from his laboratories at Rochester.

The vaccine is designed to provide immunity from the disease, though Dr. Rosenow is unwilling to make specific claims as to its value. He believes it aided greatly to suppress the spread of influenza at Rochester.

Sacramento, Cal., Oct. 17.—More than 4,000 new influenza cases had been reported to the state health board before noon today and the figures were expected to reach nearly 5,000 before night. The epidemic has not yet reached its peak, and may not reach it for some days. The state total of cases to date is more than 25,000.

Deaths today from influenza and pneumonia, and from complications of the two were 49. Deaths to date from these causes have been 317.

The army, navy, shipping board, Red Cross and bay district health offices were to meet in San Francisco today to plan a campaign against the disease to prevent its interference with war work. Los Angeles city reported 734 new cases of influenza today and San Francisco 642.
