

# 'MENTION' DRAWINGS TO BE ON EXHIBIT

### Beaux-Arts Designs Dealing With War Subjects Are Shown.

Drawings, water-colors, reproductions and architectural sketches will be among those on exhibition Wednesday in the Exhibition Room, Second Floor of the School of Architecture. Drawings that were sent east and there received "Honorable and First Mention" from the Beaux-Arts Institute of Design at New York City will be hung for the benefit of those interested and especially for the men of the Third Officers' Training Camp.

"Drawings which will probably appeal most at this time are those complying with the urgent war necessities or in some way connected with the war," said Clayton Baldwin, instructor in the School of Architecture, who is getting the exhibit in shape. Drawings of this nature are an "Over-seas Hospital" and "A Government Shipyard." These drawings are large and with much detail.

#### Americans' Arrival Celebrated

A drawing, "A Memorial Column," commemorating the arrival of American troops in France, is that of Loran J. Ellis. This drawing is one of those that received "Honorable Mention" from the Beaux-Arts Institute. A column, round and topped off with a statue, sits upon a built-up base with two sets of projections from it. On the upper set three projections show in the drawing, the two at the right and left of the column bear drooping figures, representative of the disheartened allied powers before our entrance into the war. In the center with back toward the column and on the same level with the drooping figures, stands Liberty with a peace flag furled carelessly back of her head. On the four lower projections of the base sits a lion, forming a semi-circle around the column. In the background appear typical French buildings. This drawing was recently published in the American Architect.

#### Miss Rhodes' Work Shown

Work of Miss Helen Rhodes, a new instructor in the School of Architecture this year, will be exhibited, consisting of drawings done in the Normal Training Course, a course given to prepare men and women to teach drawing in the grammar and high schools.

A. H. Schreff, professor in the School of Architecture, will have on exhibit paintings from his water-color classes, and also exhibits from his classes in "Theory and Process" and "Design."

Mr. Baldwin will exhibit work done by his pen and pencil class, a course leading up to military sketching.

### GRIDIRON NEWS

(Continued from page one)

O'Rourke, who is the latest candidate for a job as guard, knows football from saup to nuts having spent all of his spare time from the grammar grades up in smearing the opposition all over the field.

#### O'Rourke Spills First Team.

In Saturday's game O'Rourke, although he had only been out three nights for practice, piled the first team up like a log jam. The more the merrier seems to be his motto. Mautz, the 200-pound white hope, takes up considerable space on the line himself and is as easy to pass as a good looking girl selling subscriptions to The Emerald. Dresser and Gilbert and this bird Brown all were right in the field Saturday although Brown must have had an idea that he was on a furlough part of the time. McArthur is looking better every day and if he only knew football a little better he would be a world beater.

"Scotty" Strachan played a game at tackle Saturday that had all the natives guessing. "Scotty" must have fallen in love or something for that boy sure went right after them. He even caught a forward pass which almost makes him a candidate for end. Trowbridge on the other side of the divide played good ball and looks like a fixture but there are Harding and Mysinger to be reckoned with and they are no slouches in this department.

#### Two Good Men at Center.

At center, Callison and Layton are the two best bets at the present writing but no one can tell what the future holds in store. Layton's leg is in pretty good shape and the way that bird covered the field Saturday sure was nice to watch. Sharp who started at center for the second team would as soon be shot at sunrise as remain at that position. Sharp is number four in the front rank of the second squad of the company of guard candidates.

The campus is still buzzing over the work of "Skeet" Manerud at quarter for the second team Saturday. "Skeet" was in every play and although his nose was bleeding and he was bucking a line that weighed twice as much as he to a man he slipped through, went over, or under and made some nice gains. Wagers are being laid around among the most-

## ONTHANK, FORMER EDITOR, URGES VALUE OF EMERALD TO STUDENTS OF OREGON

TO THE EDITOR:

No student can afford not to be an Emerald subscriber. The knowledge of what is going on in the University and the intimate contact with college life

which the Emerald supplies are invaluable. The Emerald needs the students' support, but the student who fails to subscribe suffers the greater loss.

KARL W. ONTHANK.

## BROSIOUS WRITES ABOUT O. T. C. CAMP

### Former Oregon Student Tells of Life in Training at Little Rock.

Estee E. Brosius, a University student in 1916 and a member of A. T. O., has written to Karl Onthank, telling something of the life in the officers' training camp at Camp Pike, Ark., where he has been stationed since he finished the O. T. C. at Eugene this summer.

A few paragraphs from his letter written while he was in the base hospital at Camp Pike, suffering from a minor injury, follow:

"The funny part of it is I have had no treatment except rest and the darned knee is getting O. K. fast. The swelling and pain are all gone and a day or two more should fix me up. So much for this mere incident in a great big wonderful game.

#### Has Plenty of Pep.

"A mchuck full of good health, pep and enthusiasm. The only thing I'm worried about is getting across for the finish next summer. Looks a though there'd be enough Americans over there to put the finishing touches and the rest of us are apt to be just "marking time" till "muster out."

"Presume you would like to know how I like the school, climate, etc. Am more than satisfied with both. Pike is located six miles north and west of Little Rock in a rolling lightly wooded country.

"We have enjoyed almost continuous warm weather and as you know this is the very best kind of training. The pace has been swift but having accustomed myself to worse at times during the past year it hasn't bothered me in the least.

#### Enjoys Camp Life.

"Aside from the Eugene camp this is the only soldiering I've thoroughly enjoyed. The infantry game is surely the only real fighting game in the army. So far we've taken up infantry drill, interior guard duty, signaling, bayonet work, gas, grenades, field service, regulation automatic rifles and the balance of the work will, I presume, be largely an elaboration of the above with a generous dose of trench warfare and target practice."

### BARRACKS READY NOV. 1

#### Two Hundred S. A. T. C. Men to Move to New Quarters.

The new barracks will be completed November 1 and the S. A. T. C. men will begin moving in that day, it was announced yesterday. The building will accommodate 200 men. Company A, now quartered in the men's and women's gymnasiums, the Kappa Sigma and Delta Tau Delta houses will have the barracks as their new home. If the entire company cannot be quartered there, the overflow will be sent to the Delta Tau Delta house. Company B will remain in Friendly hall.

### CALIFORNIA WEARS MASKS

All persons making use of buildings on the campus of the University of California at Berkeley must wear masks of gauze as a precautionary measure in preventing the spread of Spanish Influenza. This order was recently issued by President Benj. Ide Wheeler of the University upon the advice of the state board of health and of the University physicians. Placards announcing that the order is in effect are now posted in all parts of the campus and in the buildings.

ing element of the fans as to "Skeet's" chance to clinch the quarterback job.

#### Another Midegt Doing Well.

"Eddie" Durno, another flyweight backfield artist, is also having his praises sung by the wisecracks of the campus. Both of these boys are surely good and if they had a little more weight they would surely make some one travel. As it is they may pull a surprise and fox some of the heavier candidates. Weight is necessary for most backfield men but it wants to be below the shoulders and not above it.

The game with Multnomah will probably separate the sheep from the goats and "Shy" will probably pick his team to meet the "Aggies" after watching the work of the men Saturday.

## OREGON STUDENTS TO AID WAR FUND

### United Drive November 11-18 Under Auspices of Six Organizations.

"An opportunity to carry on the splendid work of the Y. M. C. A., Y. W. C. A., Salvation Army, Knights of Columbus, Fostick Commission, and Camp Library Association in a material way will come to every student in America at the same time it comes to every other American citizen, November 11 to 18," said Dr. W. E. Vance, general secretary of the local Y. M. C. A., "and every student will do his best when he realizes that every dollar of the \$170,000,000 sought goes to help win the war."

He called attention to what President Wilson said in favor of the Y. W. C. A. work.

#### President Endorses Work

President Wilson wrote the following letter to Mrs. James S. Cushman, chairman of the War Work Council of the Young Women's Christian Association:

My Dear Mrs. Cushman:

May I not express to you the admiration which I in common with the great body of my fellow countrymen have felt for the work of the Young Women's Christian Association? It has responded at this time of need in the most admirable way to the claims upon its patriotic services, and I wish to give myself the pleasure of expressing my appreciation and the high value which I put upon its work.

Sincerely yours,

(Signed) WODROW WILSON.

Miss Tirza Dinsdale, general secretary of the campus Y. W. C. A., quoted statistics to show that war has opened to women a variety of employments hitherto regarded exclusively as men's work. Of the nearly 10,000,000 women in the United States at work today, 1,500,000 are engaged on "war orders." These war supplies are for the direct support of their sons and brothers at the fighting front. In other industries immediately affected by the war, 1,000,000 more women are facing the necessity of "speeding up."

She said that the Y. W. C. A. established club and recreation work for girls so employed. It provides emergency housing for employed girls and women. Hostess houses have been built in or near army and navy camps for women relatives and friends of the army and navy. Sixty-one are in use. Twenty-five others are authorized. Thirteen of these are for colored people.

#### Interprets in Army Camps

The Y. W. C. A. conducts a bureau for foreign-born women providing translation in 18 languages of needed bulletins, interpreters in army camps. It provides and finances social leaders for women under the direction of the war Department commission on Training

Camp Activities. War service centers and room registries are established in cities employing girls in war industries. Bureaus of social morality and volunteer workers are also maintained. A war work bulletin and other educational literature for women in war times are published.

#### Varied Work in France

In France social workers, recreation leaders, physical directors and cafeteria managers are provided by the Y. W. C. A. Foyers and hostess houses are built. In Russia the Y. W. C. A. has established club, cafeteria and educational work in three centers for Russian women.

"This sacrificial work requires courage and money to carry it on," stated Miss Dinsdale. "The courage is evident, the money must come from the people, who will have an opportunity to contribute during the week of the United War Work Campaign, November 11 to 18."

### EMERALD DRIVE

(Continued from page one.)

out the paper without financial reward to themselves. He urged that the other students should support The Emerald by at least subscribing particularly when the support was just now needed to insure the further publication of the paper.

#### Booth to Be Opened.

A bulletin board and Emerald subscription booth will be built tonight in front of the library for use by the campus committee during the campaign. From this headquarters the faculty and students not in any one of the barracks will be covered and the relative successes of the different barracks and committees will be shown on the bulletin that the student body know just how The Emerald is faring in its appeal for life.

Four further appointments to subscription soliciting committees for the "Save The Emerald" campaign were made this morning by Herald White, chairman in charge of the work for the student council. Lee Bartholomew and Lyle McCroskey will work on the campus committee. Rufus Eckerson will assist with the previously appointed town committee.

Marjory Holladay, one of the most loyal Emerald workers in getting subscriptions before the drive was planned, will do further work at Hendricks Hall where she has already built up a "Save The Emerald" list which numbers 50 of The Emerald's present paid circulation list of 200.

#### List of Committees.

The committees:

#### GENERAL CAMPUS COMMITTEE—

- Ella Dews, chairman; Helen Brenton, Don Orput, Ned Fowler, Alexander Brown, Herman Lind, Helen McDonald, Sam Lehman, Nish Chapman, Leith Abbott, Lyle McCroskey, Lee Bartholomew.

#### TOWN—

- Beatrice Wetherbee, Dorothy Dixon, Pauline Porteous, Adah McMurphy, Rufus Eckerson.

#### CAMPUS GYMNASIUM—

- Bill Grout, Nick Carter, Grace Rugg, Kathleen Forester, Gladys Harlike, FRIENDLY HALL; THIRD FLOOR—

- Howard Kelley, Ed Durno,

Dorothy Parsons, Bess Colman.

#### FRIENDLY HALL; SECOND FLOOR—

- Wayne Laird, Bill Dougherty, Marion Coffee, Margaret Phelps. FIRST FLOOR—

- Henry Eickhoff, Don Feenaughty, Marjorie Kay, Bula Smith.

#### WOMAN'S GYMNASIUM—

- Richard Martin, Pinkey Boylen, Hank Foster, Nell Warwick, Virginia Smith.

#### DELTA TAU DELTA—

- Paul Farrington, Jack Dundore, Bernice Spencer, Elvira Thurlow. KAPPA SIGMA—

- Harold Gray,

Stan Atkinson, Dorothy Flegal, Lucille Stanton.

#### SIGMA CHI—

- Abe Rosenberg, Clyde Henniger, Margaret Mansfield, Myrtle Ross.

#### PHI DELTA THETA—

- Joe Trowbridge, Ben Breed, Madeline Slotboom, Reba Macklin.

All the lieutenants of the S. A. T. C. were at yell practice Saturday—and they are just new at Oregon.

## Prosperity VERSUS Efficiency

If you want a thing done promptly, go to a BUSY man, the idle man HAS NO TIME.  
If you want it done well, go to the successful man. A ne'er to do well cannot be expected to accomplish for another something he has never succeeded in doing for himself.

If You Want GLASSES, Come Here.

For our success is the best evidence that we can and will do for you all that skill, brains and pains can accomplish. Yours for Clear and Comfortable sight,
