You Look Shabby

If you are wearing badly fitted glasses

YOUR GLASSES

Are the most conspicuous part of your attire. People when talking to you, look directly at your eyes.

Will your glasses stand this searching scrutiny, or are they like "a smudge upon the canvas," spoiling an otherwise pleasing picture? Besides spoiling the looks, ill-fitting glasses injure the eyes.

JOYFUL GLASSES

Our glasses are optically and mechanically perfect—a joy either to look at or through.

THAT STUDENT DANCE WILL BE LIVELY HOP

Patrons, Patronesses, Fiddlers and Drummers, Dates and Programs to Help.

Plans for the student body dance next Friday night in the armory are progressing toward making it the liveliest, most successful social event of the year. Here are some of the features you can count on being there just as sure as you will be there yourself, along with the rest of the student body:

Hendershott, with a crew of fiddlers and drummers, will undertake to keep time with your feet; and they'll do it too. This music is guaranteed by the committee to keep anyone from sitting still.

A floor committee will be on the job to see that every one dances.

Members of the student committee in charge are Nich Chapman, chairman, Ella Dews and Jack Dundore. The faculty committee is composed of Dean Louise Ehrmann, Miss Mary Perkins, Colonel W. H. C. Bowen, and Lieutenant W. F. G. Thacher.

Dancing will begin at 8:30. This is a fact. It is not yet known just what time military officials will order the men home, so the dance will start promptly in order not to miss any of the fun.

Patrons and patronesses will be: President and Mrs. P. L. Campbell, Dean Ehrmann, Dean and Mrs. John Straub, Colonel and Mrs. Bowen, Colonel and Mrs. Leader.

Dates will be in order, the committee announced today. Also there will be programs.

The very meager sum of 35 cents (this includes war tax and everything) will be charged to cover expenses. It will be worth more than that just to mingle with the happy crowd. Be there.

BASKETBALL HIT BY SHOTS IN ARM

Inoculation Delays Practice; S. A. T. C. Men to Have Rival Teams.

Basketball practice was to start this week, according to schedule, but has been postponed because of the inoculations given the S. A. T. C. men yesterday.

Practice will start soon, however, and though it is not definite, there will be classification of teams by weight. The men will be divided, those weighing more than 140 pounds and those under that mark and teams will be picked from each platoon in this manner. Practice will be held in the daytime so as to not interfere with study hours.

Company B will have a team coached by Francis Jacobberger, who played basketball last year on the freshman team.

The Gobs expect to have a pretty fast team, with "St" Starr, who also played on the freshman team last year, and "Jiggs" Leslie who is in charge of Gob basketball.

Company A however, with Nish Chapman, "Billy" Morrison, Ned Fowler and Johnny Gamble all veterans, is confident of defeating any S. A. T. C. basketball team that may develop.

NO OPENINGS IN AVIATION

The eight men recommended last week by Colonel W. H. C. Bowen, commanding officer, who were to have reported to San Francisco soon for medical examination, will not be called. Colonel Bowen said this morning. "Examination of the S. A. T. C. applicants for air service will be discontinued," reads a message to Colonel Bowen from Captain Alfred M. Tozzer, president of the air service examining board in San Francisco. "Under present orders, the men may not be examined," it states.

The men who were recommended for this service by Colonel Bowen were Joe Trowbridge, William Morrison, Sergius Gaulke, Francis Jacobberger, Jack Dundore, Adolph Adams, Richard Lyans, and George Major Doust.

LIBRARY GETS BIBLIOGRAPHIES.

Two bibliographies have been received by the library from the division of bibliography of the library of congress. These include lists of references on American immigration including Americanization effects of the European war and references on a League of Nations. Not all the material listed in the bibliographies is in the library but some of the references are there. Anyone desiring to use the bibliographies may apply to Miss Bien, reference librarian.

S. A. T. C. Men Merely Bow to Girls Now; "There's a Reason"

S. A. T. C. men are merely bowing when they meet girls on the campus today. They are not touching their hats. There is a reason. Yesterday, they were "shot" in one arm. Worse than that, they were vaccinated in the other arm. Today, they are not using either any more than is necessary.

Last night many students were worried over one question. How, oh how, could they salute the officers when they passed? This was finally solved by one of the lieutenants.

"If you can't salute, he said to one man, "wave your hand at the officer anyhow. He will know what you mean."

The typhoid serum used was of a new variety, which makes only one "shot" necessary if it is effective. Estimates of the number of germs injected, varied among the students. The numbers ranged all the way from two million to three and a half billion. However, as one freshman put it, there were enough there to make the arm "powerful sore."

For a time following the operations, the air around the campus looked as though it were filled with windmills. Someone said that keeping the arms going would reduce the pain later, and many tried the experiment. The vaccinations have not yet begun to pain, but the men are assured that they will begin before long. Boxing matches are not being scheduled for the week.

Members of the regular football squad, were excused from the "shots" until after the season.

BAND WILL GIVE DANCE

Woman's Organization Making Plans for Double Program.

The woman's band is planning a dance and a concert to be given soon. All members are practicing diligently and the new girls are progressing splendidly. Practice is held every Wednesday evening at 7:30.

There are still eight or ten pieces lacking, but Mr. Perfect hopes to have them before long, according to information received from Evelyn Smith, president of the organization.

CONN'S "GERM LIFE" NEEDED

The library can make use of several copies of Conn's Germ Life. Any student having second-hand copies to sell should see Mr. Douglass at the library. These books are to be used by some of Professor A. R. Sweetser's classes and the books are needed for the reserve shelf.
