

4-DAY FURLOUGHS GIVEN

S. A. T. C. Men to Have Extra Time at Thanksgiving.

Furloughs will be granted men of the S. A. T. C. for a period covering Thursday morning, November 28, to Monday morning, December 2, Colonel W. H. C. Bowen, commanding officer, announced yesterday. Colonel Bowen's first ruling on vacation was that the men would have only Thanksgiving day for vacation. All furloughs must be approved both by Colonel Bowen and A. R. Tiffany, registrar.

The women of the University had al-

ready been granted the Thanksgiving vacation of Thursday to Monday morning, by action of the faculty.

TO COMPLETE INDUCTION

Men who had started their induction prior to midnight, November 10-11, and were present at S. A. T. C. units prior to that date and hour are in the service and their final induction will be completed at once, stated Colonel Bowen, commanding officer, this morning on receipt of telegraphic orders from S. A. T. C. headquarters. There has been considerable delay and discussion about men who signed their first papers before November 11, but whose induction

was halted through failure of the draft boards to act.

NAVY UNIT GETS FIRST PAY

Money Comes to "Gobs" Before S. A. T. C.—Service Began Oct. 1.

The University unit of the navy is singing with new emphasis today that line: Sat-ur-day Pay Day! It is because they had their first pay day today and in this matter have beaten the men enrolled in the S. A. T. C. army units. The men were paid from the first of October regardless of the time of their formal induction. Each "gob" now has \$48.

1912 GRADUATE HONORED

J. Earl Jones Elected Representative in Montana Legislature.

J. Earl Jones of Lambert, Montana, a graduate from the University in 1912, has been elected representative in the Montana legislature from Richland county, Montana, with almost a two to one majority over his opponent, according to a letter received from him by Karl Onthank, secretary to President Campbell. Mr. Jones writes that although Richland county met with quite serious

draught this year, he succeeded in raising 7250 bushels of wheat besides considerable other grains. Next year he will have 900 acres in crops.

CLASS ENROLLMENT GROWS

Registration in the correspondence courses offered by the University extension division has greatly increased during the past month. As many as eight applications were received by the department one day. This increase is probably due to the fact that several new courses have recently been added to the correspondence list. Most of the enrollments were in education, mathematics, and history.

DON LARWOOD IN FRANCE

Karl Onthank, secretary to President Campbell, has just received a letter from Don Larwood who is now in France with the third army corps. The letter in part is as follows:

"I have been moving around a good deal during the last three weeks and just now am quartered in a half-ruined house in a village which was vacated by the Germans less than two weeks ago. The place shows the effects of it too, as it has been pretty badly damaged by shell fire.

# Save

## Grocery

"Sure — we'll be glad to have your trade. Phone your order any time and we'll deliver promptly."

# Telephone!

Yes, not only time, but steps and money and worry and waiting — save everything that is of value to you by using the telephone to do your shopping.

The merchants whose ads are on this page have installed telephones for your convenience, and the fact that they have their advertisements on this page means that they are inviting you to use the telephone with which to buy goods from them. And it means further that they are prepared to take care of such purchases promptly and satisfactorily.

They want your business or they wouldn't ask for it. If they think enough of it to ask for it, they think enough of it to handle it so that you will be satisfied and buy again.
