THE BOYS COMING BACK

Our boys are coming back, many are already here and more are on their way or have signified their intentions of returning for the second term. With the old men back, Oregon's traditions of the past will have their old place and the University will return to a pre-war basis.

All of which is reason for great rejoicing on the part of the older students. New students will learn what Oregon Spirit really is and come to understand and respect the hoary traditions of the past.

We are glad to welcome back to the campus the men who left to go into military training camps.

Their going made prominent the importance of and necessity of their influence in college affairs. The places they filled are vacant until they return again. And so their coming will be doubly heralded and welcomed.

Their going but proved the highest of ideals of democracy and patriotism which Oregon has always held high and so their returning will bring back again this same fine spirit.

And we will show them that "Hello Lane" still winds across the campus and that an Oregon student knows how to give a real handshake.

SWIMMING CLASSES WILL BE ARRANGED

The University athletic heads have planned a swimming schedule that will include every man in the University that cannot swim. The object is to have every man, who does not know how to swim, report to beginners classes, at regular periods. It has not yet been decided who will instruct these classes but "Bill" Hayward may have charge. Swimming was scheduled to start some time ago but as it was impossible to arrange hours the matter was dropped. After the holidays the new schedule will be put in force. No intercollegiate meets can be arranged because of the expense which the student body cannot afford, but interclass swims are to be staged and a champion team picked. The swimming material in school, at present, is very promising. "Billy" Morrison is a swimmer of considerable reputation and has had varsity experience. "Billy" is a short distance swimmer and will probably be a shining light. "Jeff" Harbke, who holds several records at Multnomah Athletic club will appear in swimming circles next semester. Harbke swims anything over one hundred yards. There are also several new men who are showing up well. Stan Emery looks promising in short distances, while Mason, another new man, shows up in good form in the tank. These men will be given the opportunity to prove their worth in the inter-class meets, to be held next term.

FRANK LAYMAN NEW COMMERCE TEACHER

Frank B. Layman, a member of the Pacific financing corporation of Portland, will be a new instructor in the School of Commerce next term, announced D. Walter Morton, dean of the school this morning.

Mr. Layman graduated from Gettysburg University with a bachelor's degree in 1904, in 1907 he received his master's degree at Harvard. He also received a degree of bachelor of Liberal Arts at the University of Oregon in 1912.

Mr. Layman has been since 1914 Pacific coast manager of the Aluminum Cooking Utensil company.

From 1911 until 1914 he was salesman for the northwest in the same company. He has had six years teaching experience three of which were in a normal school. He will teach corporation finance, a course on how to finance a business and investments.

H. F. Boyce, secretary of the Northwest Overseas company, will teach foreign trade and transportation. Second Lieutenant C. C. Jeremiah, who had charge of the ordnance courses last year will not be able to return to the Uni-

versity this year. According to Dean Morton, Lieutenant Jeremiah will not be able to secure his discharge immediately. Dean Morton has not been able to get in touch with either First Lieutenant Allen C. Hopkins or Sergeant Harold Young, who the school were anxious for the return of soon. "Owing to this setback a complete announcement of courses cannot be given," said Dean Morton.

SOCCER SEASON FINISHED

Soccer activities have definitely ended, and although the season has not been entirely successful, it has developed several men who will prove valuable next year. Coach Riley has done his best to arrange a game with O. A. C. but was unable to do so. Oregon had a soccer team this year that would have shown O. A. C. a real game. Some of the new players who were developed this year in the inter-company game are Sam Lehman, who made a fine showing in his first season and Jiggs Leslie. "Bill" Vance, Y. M. C. A. director, helped greatly in coaching the team. Many of this year's inter-company soccer teams are expected to return to the University next year, which makes the varsity soccer prospects bright.

ALPHA PHI announces the pledging of Laurel Canning of Monmouth, Austrid Mork, of Portland.

FRATERNITIES NOT TO EAT IN FRIENDLY

The fraternities, except one, voted against the suggestion of Dr. J. F. Bovard, president of the inter-fraternity council, at Friendly hall, at the meeting held Wednesday evening in Villard Hall. The proposition of having a committee composed of three faculty members inspect the houses at certain times during each semester, was also voted against. Dr. Bovard undertook this task.

The matter brought up of most interest to the fraternities, was the question of compensation the University would give for wear and tear on the houses used as barracks by the University for O. T. C. and S. A. T. C. men, and what rent would be paid. A committee composed of "Bill" Morrison, "Nick" Carter, and "Jerry" Backstrand, was appointed to confer with President Campbell and arrange for the settlement of this matter.

Conserve Your Eyesight

No one can estimate the extent to which we must rely upon our eyesight to win. It is imperative, then, that our eyes be as nearly 100 per cent useful as possible. This is an important consideration, regardless of the nature of the work you are performing for your country. Whatever your occupation, if you need glasses for near and far vision, you need

KRYPTOK GLASSES
THE INVISIBLE BIFOCALS

which are nationally accepted as the perfect invisible, two-vision glasses. You can depend upon KRYPTOKS (pronounced Crip-tokks) to conserve your eyesight and to render every eyeglass comfort and convenience. Their two powers are so joined as to leave no seam nor hump; consequently they have the appearance of being ordinary single-vision glasses.
