

FINDS UNIVERSITY'S GROWTH PLEASING

Mrs. Ada B. Millican Formerly of Eugene is Guest at Colonial Assembly.

Mrs. Ada B. Millican, of Prineville, representative from central Oregon to the Colonial Assembly, is very pleased at the change in the University in the last few years. Mrs. Millican, who formerly lived in Eugene, has been much interested in the University's growth for many years. She was present at the laying of the corner stone of Villard hall in 1885.

Mrs. Millican was the first woman reporter in Eugene. She worked on the Guard and also on the Register and the Journal, which has been discontinued.

She has made a study of Indians and Indian traditions and legends. For six years from 1899 to 1905, she assisted with the industrial and academic work in Indian schools in Utah, Arizona, Washington and Lower California, making a careful study of Indian life at the same time. She made an interesting and valuable collection of Indian relics while carrying on this work.

Mrs. Millican is also the author of many short stories and articles. Her best known book is "The Heart of Oregon," which tells the story of an Indian tradition.

Mr. and Mrs. Millican came to Eugene after a visit in Portland as delegates from Prineville to the peace conference. They will be here until the end of next week.

CARL G. DONEY TO SPEAK

Returned "Y" Secretary will Talk of War-time France.

Edgar B. VanOsdel, secretary of the campus Y. M. C. A., has secured Dr. Carl G. Doney, president of Willamette University, to speak at the "Y" building on Wednesday evening.

Mr. Doney has recently returned from France, where he was engaged in Y. M. C. A. work, and the message he brings to college men is one of great interest.

Mr. VanOsdel asks that all college men who are able will attend the lecture, assuring them of an evening well spent.

Mr. VanOsdel also wishes to remind the students that Dr. G. Franklin Ream, of New York, is to speak Sunday at the hut.

TOWN WOMEN TO TAKE GYM

Maud Lombard to Conduct Class; Money for Women's Building.

Maud Lombard, a senior in the physical training department, will conduct a class in gymnastics for 20 women of Eugene, beginning Monday evening, March 3. The money earned from a fee of \$3 for 12 lessons will be given to the women's building fund.

Miss Lombard consented to instruct the class upon the request of a number of women, who said that not only would they be benefited by her instruction, but there would be an opportunity to earn some money for the women's building fund, \$500 of which were pledged by the physical education majors to be earned by putting their training into practice.

The class will be made up of a number of women who desire special training with only a small class. Their work will be composed of Swedish exercises similar to the ones taken by the regular classes in gymnasium, marching, and other work to be specially planned for their needs by Miss Mabel Cummings, head of the physical training department.

SPANISH CLUB IS ACTIVE

Plans to have Meetings with Plays, Dances and Games of Spain.

At the meeting of the Spanish Club Thursday evening at the Y. W. C. A. Bungalow, Nelson Clark gave an interesting talk on Peru. He spoke of its customs and institutions and of the opportunities there for ambitious young Americans. Other numbers on the program were a Spanish song by Frances Wiles and a solo by Adelaide Lake.

The club has chosen for its motto, "Se habla español." The program committee, Frances Wiles, chairman, is planning some very interesting meetings, consisting of Spanish plays, dances and games as well as frequent talks on subjects of interest to Spanish students.

At the next meeting, March 13, all members are asked to come prepared to tell a Spanish joke.

Edgar B. Van Osdel was a dinner guest of Sigma Nu on Tuesday evening.

MOVIES SHOWN AT HUT

Exhibiting of Y. Circuit of Films Begins on the Campus.

The promised Y. M. C. A. moving picture shows, for the benefit of the college men, began last night. The entertainment was held in the Y. M. C. A. building, immediately after the game. Six reels were shown, the first picture being "From Two to Six" and the second being a comedy, entitled "Mr. Miller's Economics."

There was a good attendance from the student body and all present were much pleased with the pictures. Edgar B. Van Osdel, the Y. M. C. A. secretary, wishes the men of the college to become interested in these Y. M. C. A. entertainments, and "get the habit" of going to the Y. M. C. A. regularly.

Y. M. C. A. RENOMINATES

Several Men Previously Put Up for Offices Deemed Ineligible.

At a Y. M. C. A. cabinet meeting, held for the purpose of nominating officers for the coming election next Thursday, the following men were nominated for office: President, Elmo Madden and Lyle Bain; vice president, John Gamble, Lindsay McArthur and Richard Thompson; secretary, Alexander G. Brown; treasurer, Warren Gilbert and Wayne Laird. Further nominations can be made by a petition signed by five Y. M. C. A. members, which should be given to Elmo Madden.

The meeting held Thursday evening was deemed necessary because several of the men previously nominated were decided to be ineligible, not being active members.

All men of the University are eligible to be members of the Y. M. C. A. and the only requirement to vote is to sign the pledge cards, which may be obtained at the Y. M. C. A. hut.

Any nominations made by the students will be published in the Emerald before next Thursday.

COSMOPOLITAN MOBS JAM LOCAL STREETS

Large crowds have been seen in Eugene, happy crowds have been heard in Eugene, but seldom if ever has such a large, happy, talkative mob, such as is at present quartered in the city, paraded its streets.

Residents from here, there, and every where are in the city—it is truly a cosmopolitan gathering. Noteworthy is the fact that everybody is evidently happy.

Residents of Creswell, Cottage Grove, Wendling, Marcola, Donna, towns on the McKenzie and various other communities are registered at the hotels and visiting friends.

It is thought that the shows and dances will be jammed to the doors tonight, despite the fact that many of the visitors will return home this evening.

All during the day hundreds of automobiles have paraded the streets, many of which are at the service of 65th boys.

MANY TOWNS GREET 65TH ON WAY HOME

Obviously Eugene is not the only town this side of Portland which feels grateful for the return of the 65th boys of this community.

Citizens of towns, villages and hamlets which dot the Southern Pacific line during the stretch of 123 miles from Portland to Eugene turned out to greet the artillerymen. Hands were shaken, cheers were given, babies were lifted to windows, and the 150 wearers of gold chevrons were made to feel the welcome which the whole state wishes to accord them.

Hundreds of persons were present to greet the boys during their short stay in Salem, and cigars, cigarettes, and things to eat were passed through the windows at many stations along the way.

Karl Kellogg is back smiling as ever. His companions say that he is writing to no less than five French lassies now.

Sergeant Rodney Smith was not in very much evidence on the train as he had a "bad night of it" in Portland last night, according to his khaki clad brothers. Although he did not make the fact known, he is returning as a sergeant. He received his promotion from the rank of private one night at Elvile just before the battalion moved up to Fort de Arzonne to take part in battle.

OREGON MUSICAL TALENT IS PRAISED

Mrs. William E. Wright, Grand Head of Mu Phi, Commends Landsbury's Work.

Mrs. William E. Wright, grand president of Mu Phi Epsilon, the largest national honorary musical fraternity, arrived on the campus Wednesday evening to visit the Oregon chapter. She is being extensively entertained in faculty and musical circles and is a house guest at Hendricks Hall.

"Dr. Landsbury's work is wonderful," said Mrs. Wright yesterday morning. She expressed her pleasure at finding so much musical talent at the University, and declared that it would not be long until western institutions as a whole would compare most favorably with eastern musical colleges and universities.

Mrs. Wright's home at present is in Youngstown, Ohio. This is her second trip to the Pacific coast. Before coming to Eugene she installed a Mu Phi chapter at Washington State College and visited the University of Washington chapter.

The Oregon chapter was installed on March 3, 1911. The organization has 24 active chapters and about 2,300 members, according to Mrs. Wright. Many of the more prominent people in the musical world, Madame Schumann-Heink, Cecil Chaudron, Carrie Jacobs Bond, Ethel Leginski, Jessie L. Gaynor, and Guiomar Novas, the famous Brazilian pianist, were some of the well known artists mentioned by the visitor.

Mrs. Wright has been president of the organization for two years. "It was founded at the Metropolitan School of Music in Cincinnati in November, 1903, for the purpose," said Mrs. Wright, "of developing a higher and broader understanding of the art of music. Its aim is to interest and promote appreciation in advancing the pursuit of the highest and best in music."

The visitor expected to leave last night for San Francisco. From there she will go to the middle west to install a chapter in the University of Nebraska and the Horner Institute in Kansas City.

MOOT COURT NO PASTIME

Students of Law School Learn Actual Interpreting of Statutes.

The hope that the moot court trials are to be a source of amusement has been given up, according to the students of the University law school. They have found that actual practice in interpreting and in practicing law is what Dean Hope wants, not pleasure and a pastime.

The case to be tried Tuesday, March 4, is entitled Fletcher versus The Spring Valley Water company. M. K. Holland will be the attorney for the plaintiff, Kenneth Armstrong for the defendant, and W. R. Decker will act as clerk of the court. The case will be tried before Chief Justice McCroskey.

It seems that the Spring Valley Water company built the Caleveras dam, but due to the existence on an old mining shaft which the company was unable to discover by the exercise of due care, the dam broke. Fletcher's house was carried away in the flood and he is suing for damages.

The case depends entirely on the points of law involved. The next moot court session, March 11, sounds as though it might be more entertaining. The case is a neighborhood suit over a kennel of prize puppies and a Belgian hare.

WOMAN SOLON MAY COME

Mrs. Alexander Thompson of Hood River Wanted for Assembly.

An attempt is being made to bring Mrs. Alexander Thompson, of Hood River, representatives in the state legislature, to the campus for the assembly next Wednesday, according to Karl Onthank, secretary to President Campbell.

Mrs. Thompson was to have been the speaker for assembly last Wednesday, but was unable to come because of the sessions of the legislature. She is representative from Hood River and Wasco counties and is the only woman member of the legislature. Mrs. Thompson is considered a very fine speaker, said Mr. Onthank.

Assembly hour one week from the coming Wednesday will be devoted to a student body meeting, Mr. Onthank said.

Henry Foster was a Tuesday luncheon guest, and George Schigner, Ray Manville and Robert Mann Wednesday dinner guests of Delta Tau Delta.

OREGON ARCHITECT SKETCHES IN FRANCE

Mines Exploding in Evacuated Village Kills Americans, Writes Joe Tominaga.

Joe Tominaga, graduate of the School of Architecture in 1918, now with the 59th Pioneer Infantry, Company L, stationed at Mangelles, France, gets time to do some sketching in the neighboring towns, he writes in a letter just received on the campus.

"About a week ago, I quit 'squads right' and came to this village to do salvage work," he writes. "I don't suppose you will find this place on an ordinary French map, but if you look on a large scale map, you will find it is about 15 miles south of the Belgian border, about 12 miles southwest of the border line of Duches of Luxembourg and 25 miles north of Verdun. We are in an advanced territory which the Germans had long occupied until the armistice was signed. This village is French in architecture, but all signs and posters are written in German."

"Germans, before they were forced to evacuate this territory, set mines all over this territory. Only a few days ago untimely explosion of a mine cost a few of our boys, whom sadly we buried this morning. We have now a German captain (prisoner) who was supposed to know the location of the mines. He told our captain that this village would go to pieces if we connect electric light wires."

Throughout villages in the war zone, one thing which strikes me funny is the fact that we don't see any young women. We see aged women and very young kids, but no women of between ages 16 and 30. They say that Germans took them to 'way back in Germany to do hard work.'

"Germans may be civilized, but they surely did wicked things in this war. In one village I found a few rounds of lead-headed dum-dum bullets, and in another village I also found saw-tooth bayonets. They are surely wicked looking weapons. But funny it may seem, that German prisoners like American boys better than French or British. In the city of Luxembourg when American troops occupied, the citizens showed appreciation and gave a warm welcome. They seem to like us better than French. "Once we did expect to see the statue of Liberty again before the icebergs melt away in the Hudson river, but now there is no such hope."

ANNOUNCEMENT
Arthur Faguy-Cote wishes to announce that tryouts for the men's chorus in the opera "Chimes of Normandy" will be held at 5:30 in his studio in the music building Monday evening. All men students are eligible and are urged to try out.
