

FIRST TRACK MEET SET FOR APRIL 26

Multnomah to Precede Contest With O. A. C.; Hayward Not Sanguine

"We cannot hope to beat O. A. C. in track just on our reputation," said Bill Hayward, speaking of Oregon's chances to down the Aggies this year. "O. A. C. is having the advantage of an enclosed armory in which to work during the present bad weather," he continued. "We must overcome that advantage by hard work on the part of the men out, and continued support of the students for track."

"Multnomah comes to Eugene a week from today with an aggregation of stars. This will mean that the Varsity will have a real team to run against, and will be a very good experience for them. We may be able to get a line on the probable outcome of the meet with O. A. C. from the Multnomah meet, but that will not give us any idea of the Aggies' strength."

How the Team Looks
"Bill's" Varsity team, as it looks today, is something like this:

In the 100 he will have Mulkey, Foster, Schwering, Hollenbeck and Hargreaves. Foster, of course, leads the field, but there are several other good men among them, whom "Bill" thinks may prove good running mates for Foster.

For the 220, "Bill" has lined up Foster, Anderson and Feenaughty. All three of these are capable of bringing home points for Oregon if they work themselves to their full capacity.

Margason, Anderson and Feenaughty are the 440 men "Bill" has to depend on. In the 880, Jamieson, Feenaughty and Armantrout are the likely runners. None of these men have performed up to what they are capable of, thinks "Bill," and he looks for a great improvement, as the weather becomes warmer and the track dryer.

Belding, Parr and Bain are the distance men on whom Oregon will stake her hopes this year. None of them have shown much improvement lately, but they probably will as soon as the track dries up.

In the hurdles, Hayward will have Hollenbeck and Bradson for the high, and Schwering, Foster, and Hargreaves additional for the low hurdles.

Dow Wilson Missing
Dow Wilson, who showed up so well in the hurdles in the Columbia meet, has not been out since then and may not turn out any more this year. Bill Hayward hates the idea of losing Wilson, but believes that if he has to do without him, he can get along somehow.

For pole-vaulters, Bill will have Hargreaves, Chapman, and Starr. Mulkey, Foster, and Estes are broad-jumpers, and Brandon, Estes, and Hargreaves high-jumpers. Bill believes that these men will improve later in the season, and may show up well in the Multnomah meet.

For the weight events, Starr, Dresser and Runquist will heave the shot for Oregon; Starr and Brandon, the discs, and Mulkey, Brandon and Foster the javelin.

Hayward's relay team, which in former years has always been a big factor in winning meets for Oregon, will be picked from Margason, Jamieson, Feenaughty, Brandon, Foster, and Schwering.

This is practically the team which will line up against Multnomah in the dual meet with that club which will be staged here Saturday, April, 26.

Doughnut League Games to be Only Five Innings; "O" Men Barred

The Inter-fraternity Athletic Council met in the office of "Shy" Huntington Thursday evening and discussed matters relating to spring athletics. It was decided to have the doughnut baseball league an elimination contest with the first games being played next Saturday. The schedule of the first round of baseball will be published in the next issue of the Emerald.

The games will be five innings only and will be staged at 6:30. This will fit in with the varsity practice and with the daylight saving scheme, and it will not be hard to stage the games at this hour.

It was decided at the meeting that all letter men, regardless of the sport in which they won their "O," should be barred from doughnut baseball. All of the campus organizations were represented at the Thursday meeting excepting the Kappa Sigs and the Fijis.

The Civic League of Portland devotes one session a year to the interests of the University and the announcement for this meeting reads: "To render an account of our stewardship of the University during the war and to tell of the new changes that have come to the school on the heels of the war."

The program for the luncheon includes four speakers from the University, President Campbell on "The University as Affected by the War;" Mrs. Mable Holmes Parsons on "A Square Deal for Oregon's Young Women;" Dr. Kenneth A. J. MacKenzie of the school of medicine, on "The New Tasks and New Goals set before the Medical School;" and Dr. George Rebec on "New Departures in the University Work in Portland."

American Committee for Devastated France Wants Money

A drive for funds for the American committee for devastated France, in which several University girls are assisting is being put on down town this afternoon, under the direction of Mrs. P. L. Campbell. Booths are stationed on the streets and bonds are being sold from them.

This fund is for the purpose of rebuilding the homes in the devastated part of France, known as no man's land. New homes will be built as well as old ones restored and an agriculturist will be employed by the committee to help these people to reclaim the land for agricultural purposes, to show them the best way to farm it. The fund also provides for some livestock such as pigs, a few chickens or a horse, with which to plow.

In addition to the home building the fund cares for orphans found in that part of France without homes and they are to be cared for in institutions.

The bonds sold are "for shares in the rehabilitated homes of France," and the dividends are to be payable in everlasting affection and gratitude. The slogan of the committee is "to change no man's land into some man's home."

The American committee is under the direction of Myron T. Herrick, American ambassador to France for the two years preceding the war.
