

WOMAN MANAGES BOYS' TRACK MEET

Miss Margaret Crim, 1917, in Charge of County School Athletic Contest

Miss Margaret Crim, a graduate of the women's physical training department of the University in 1918 planned and managed the first county track meet ever participated in by the schools from all three districts of Umatilla county in Pendleton, according to word received by Miss Mabel Cummings, head of the department here. Miss Crim is head of physical education in the Pendleton schools, where she took the place of Miss Louise Bailey, also a graduate of the University physical training department.

In the account of the meet printed in the Daily East Oregonian of Pendleton, the names of James Johns and Martin Nelson, former Oregon men, appeared. Johns acted as starter and Nelson as referee.

Besides managing the meet, which was a success financially as well as from an athletic standpoint, Miss Crim has established it as an annual affair. Almost 200 children from over Umatilla county participated in the meet. The Pendleton entries won the Commercial club silver cup in the grade school section of the meet, according to the account in the Pendleton paper.

Member of 1917 Class Fought in France With 363rd Infantry

Aside from an attack of measles which sent him to the hospital, Westerfield received no wounds in the service.

While in France he saw very few old Oregon men. However, while in Paris sightseeing, he saw Wallace Eakin with DeWitt Gilbert. Eakin was there on a pass and Westerfield was trying to catch a train for his pass was almost up too, so that the three only saw each other for about five minutes. Westerfield ate Christmas dinner with Melvin Solve of the 361st.

J. E. NAIL SENDS PAPERS

Emerald Receives French Publications From Former Students

A copy each of The Stars and Stripes The Viola and La Petite Gironde have just been received at the Emerald office from J. E. Nail, ex '19, who is in Bordeaux, France, attending the University of Bordeaux. Nail is a second lieutenant in the ordnance department. He is a member of Alpha Tau Omega fraternity. He majored in chemistry and did some work in journalism while at Oregon.

In a letter to The Emerald he says: "Here are some samples for your history collection. You are of course familiar with the Stars and Stripes, the official newspaper of the A. E. F. The Viola is a weekly published by the American students, about 300 in number, at the University of Bordeaux. Some of the characteristic side issues of American college life have made their appearance. Athletics, glee clubs and publications are among the activities. The third sample copy shows you how we get our daily news served up to us here in Bordeaux. The Petite Gironde issues this special edition daily, with the leading stories in English on the front page, and with the less important items and announcements in French on the back.

"There is a serious paper shortage in Europe and each publication is limited in its supply in accordance with its circulation. Even the leading dailies of Paris are very meager specimens now. One very noticeable thing about all French publications is the scarcity of advertising matter.

"Sometime, along in the next generation I expect to get out of the army and come back."
