

Society

The most important of this week's social events was the student body dance at the armory last evening. The affair was perhaps the best attended of the year and everyone danced to good music.

Saturday night members of Gamma Phi Beta were also hostesses to a number of guests at an informal dancing party at the chapter house.

Pi Beta Phi held initiation Saturday for Maybelle Leavitt, Marion Mitchell, Lorna Meissner, Dorothy Donlan and Audrey Collins. After the ceremony the initiates were the guests of honor at a banquet at the chapter house. Out-of-town members who were present were Mrs. John Ables of Springfield and Lee Fortmiller of Albany.

The upperclassmen of Sigma Delta Phi were guests of honor at a Halloween dinner party given by their underclassmen Saturday evening. They were Alice Hamm, Helen Frease, Vera Tobey, Dorothea Boynton, Gladys Diment, Mary Moore and Germany Klemm. The rooms were decorated in corn stalks, autumn leaves and witches.

The underclassmen of Alpha Delta entertained for their upperclassmen with a progressive dinner dance at their chapter house Saturday evening. Autumn leaves, corn stalks, pumpkins, black cats and witches transformed the house into a Halloween grotto. The patrons and patronesses were Mrs. L. C. Perkins and Mr. and Mrs. L. A. Milne. The guests were John Houston, John Langley, Herbert Decker, Guy Armantrout, Wayne Hunt, Russell Meyer, Ray Vester, Warren Kays, Claire Holdridge, Harris Ellsworth, Wilbur Kubli, Ned Twining, Ervin Thomas, W. Branderick, Dan Wood, Linn Fuller and Crecene Ferris.

Fern Holcomb was a dinner guest at the Alpha Delta house Friday evening.

Last Tuesday afternoon members of Sigma Delta Phi were charming hostesses at a tea in honor of their house mother, Miss Sue Badollet. About seven faculty and University women called during the afternoon to meet Miss Badollet. Members of the sorority gave several musical numbers during the afternoon. Miss Badollet, Frances Blurock and Alice Hamm received the callers.

The Halloween effect was carried out in the dance given by members of Gamma Phi Beta at the chapter house last Friday evening. The house was converted into an autumn bower with maple leaves, corn stalks and huge pumpkins. The party included as patrons and patronesses Mrs. Hamilton Weir, Dr. and Mrs. Orville Waller, Dean Fox and Mrs. O. F. Stafford. The guests were Inez Lacey, Helen Day, Gloria Collinson, Dorothy Schmeer, Beatrice Shell, Martha Tinker, and Vivian Hopson of Salem, and Francis Jackson, Robert Stewart, Herald White, Hazeline Schmeer, William Hollenbeck, Clayton Ingall, Warren Kays, Jay Fox, Dudley Day, Hubert Jacobberger, Lay Carlisle, Carl Newbury, Rolland Andre, Herbert Darby, Harris Ellsworth, William Smith, Lawrence Woodworth, Ogden Johnston, John Houston, Kenneth Cockerline, Charles Robertson, Francis Beller, William Bolger, Stacey Hendrix, Crecene Ferris, Eugene Boylen, Lee Bartholomew, Ralph Smith, Kenneth Smith, Wilbur Hostetler, Arthur Rosebraugh, Carl Nelson, George La Roche, Fred Dodson, James King, Jack Newhall, Rex Underwood, Hugh Smith and Arvin Burnett.

GIRLS!!!
Are you planning a new frock or anything new in the way of dressmaking or sewing? If so, call and see me. I am conveniently located and can give you prompt service at reasonable rates.
MRS. MURRAY
Dressmaking and Alterations.

VISITING SCIENTIST ADVISES INCREASED RESEARCH ACTIVITY

Dr. Durand of National Council Inspects Laboratories, Suggests Changes

More time for research work at the disposal of professors of scientific subjects is the thing most needed by the various departments of science at the University of Oregon, said Dr. W. F. Durand, representative of the National Research Council at Washington, D. C., and professor of mechanical engineering of Leland Stanford Jr. university, who visited the University campus yesterday. Time could be supplied, he suggested, by adding assistant professors in these subjects to work of lesser importance.

The spirit of alert interest which he found at Oregon Doctor Durand characterized as especially commendable. A number of good problems are being worked out here and others are planned for future work, he said. While on the campus Doctor Durand visited all scientific laboratories and held conferences with President Campbell and professors of scientific subjects. He met in session with the committee appointed by the science faculty, composed of Dr. Edmund S. Conklin, chairman; Dr. Warren Smith, Dr. W. E. Milne, Prof. E. H. McAllister and Dr. C. H. Edmondson. All members of the science faculty met with Dr. Durand last night at dinner at the Hotel Osburn.

Council to Lend Support
Dr. Durand stated the purpose of his visit was that of getting into friendly contact with scientific work at Oregon and by this means emphasizing the purposes, ideals and ideas of the National Research Council. When asked of what help the council might be to the University of Oregon, Dr. Durand answered that he present work of the council is that of gathering data which will be assembled in Washington during 1920, meanwhile giving comfort and imparting enthusiasm to the universities and colleges of the United States. Following 1920, the council will serve as a storehouse of information for the purpose of advising and assisting in scientific work, said Dr. Durand.

The University is the first institution visited by Dr. Durand, who is to cover the Pacific coast region, including California, Oregon, Washington, Idaho, Utah, Nevada and Arizona. He went directly to O. A. C. from the University.

FOR RENT—A three room furnished house on East 14th, near the University. Suitable for students who desire to do light housekeeping. Call 1013-R.
