Attendance at assemblies in Villard hall has been very small of late. Why not hold them in the library hereafter? In spite of the fact that silence must be maintained it seems to be the liveliest and most crowded place on the campus.

The frosh glee last Saturday evening was a great success. So was business at the Rainbow, Varsity and Peter Pan. Evidently "fu" warnings given out at the dance were not quite so successful.

Some students will work several years in order to make enough money to go to college, and then will congratulate each other when an instructor is too ill to conduct a class. Funny world.

A great many students do not know what it means to graduate from college. Why not hold our graduating exercises before school is out after this and show them?

A writer in the Kansas Industrialist says that he has saved \$91.25 during the past five years on the increased price of shaves. Here is a man who believes that his face is his fortune.

By looking over the house grades and determining the steepest, it's not very hard to tell where most of the literature from the president's office has been sliding.

R. O. T. C. cadets went into ecstasies of delight when an announcement was made that there would be no drill on Wednesday owing to open house and the assembly. This was suddenly quelled when it was further announced that the drill would be made up on Thursday. Some day students will learn that college classes and armies are two different things.

Many mothers have told their sons that they are never too big to be spanked. Some of them never believed it until they came to Oregon and tried to sit at a basketball game with the Order of the "O".

Some fellows' idea of an enjoyable evening is to let the fellow sitting below when at a basketball game sit on their feet all evening.

**EDUCATION MAJORS ORGANIZE LOCAL FRATERNITY**

New Group Will Petition National Later This Year—36 Signs as Charter Members

The Woman's Educational club is the name of a new local educational fraternity formed on the campus last week with 35 members. A constitution has been adopted and officers elected. The officers elected are as follows:

Membership in the club is divided into three classes, the active, associate and honorary members. It is the aim of the club to promote high scholarship and give to the juniors and seniors of the University majoring in education a club which will represent both the scholastic and the social activities. Any woman, to become eligible for membership, must have completed 75 hours of work in the University or some other college. The applicant is required to carry 16 term hours work and must have 50% of her hours above M and the remaining 50% at least M.

The charter members who signed the constitution are as follows:

It is the plan of the Woman's Educational club to try for a national charter later in the year.
