

R. O. T. C. BAND HAS OPENING REHEARSAL

36 Musicians Transferred from Duty Units.

The R. O. T. C. band, formed by an order issued Wednesday, met for its first rehearsal yesterday morning during the regular drill period of the cadet battalion. Herbert Hacker, who is to direct the new organization, had charge and outlined the work to be done.

In order to form the band 36 men were transferred from the duty companies to the band. Those transferred are:

Cornets—Meryl W. Deming, James L. Pearson, Myer L. Weinstock, Kay A. Leep, Herbert J. Darby, Ivan F. Roberts.

Clarinets—Cecil R. Fargher, Armand Fuchs, Walter L. Palmer, Frank B. Dorman, Linley L. Lutz.

Piccolo—Herbert V. Pate.

Saxophone—Marcus L. Young, Neal Underwood, H. C. Staples, Harold H. Brown.

Tubas—L. Lee Williams, Willis D. Link, Charles R. Hendrie.

Trombones—Herbert Hacker, Walter Wegner, George W. Johnson, John W. Rosenburg, J. Gordon Byrne, Henry E. Durst, Clinton A. Mercer.

Altos—Lyle W. Stewart, Floyd D. Wright, Roderick Belknap, Bertell Ford, Boyd C. Homewood.

Drums—Lynn Cram, Ted Gebauer, George E. York, Fred Buck.

Cymbals—John M. Brddy.

These men were transferred to the band on consideration of their previous experience. It was not thought necessary for them to be tried out. The intention of the department is to add members to the band from time to time as they show themselves fit for that work.

Instruments were issued to the band members immediately after their transfer to that organization. Regular rehearsals will be held from now on three days a week during drill periods.

Herbert Hacker who has been appointed leader of the band directed the R. O. T. C. band last year. He has had much band experience. During the war he played in several naval bands.

CHURCH LIST IS MADE

Presbyterian and Methodist Preferred by Most

Comparatively Small Number of Those Registered Express No Choice, Says Hal Donnelly.

Presbyterian and Methodist denominations lead in the church preference list of University of Oregon students, with Christian a good third.

The list, including yesterday's registration, accounts for 1429 students. Hal B. Donnelly, local secretary of Y. M. C. A., says he failed to get about seventy student cards so his list does not account for the entire membership of the student body.

Mr. Donnelly expressed pleasure at the comparatively small number of students, 291, expressing no church preference. He says this group usually includes fifty per cent of the student body in universities and non-sectarian schools. Thirty-two expressed their preference merely as protestant. The present list does not differentiate between membership and mere preference, so no discrimination can be made. The list as it stands now includes seventeen denominations as follows:

Presbyterian	275
Methodist	238
Christian	153
Episcopal	90
Catholic	88
Baptist	79
Congregational	68
Christian Science	55
Lutheran	20
Unitarian	12
Jewish	8
Church of God	2
Friends	2
Seventh Day Advent	2
Evangelical	1
Universalist	1
Protestant	32
No preference	291

GRADUATE OF '18 VISITS

"Mac" Maurice Stops a Day on Way to California Where Employed.

Charles "Mac" Maurice, a former University student, spent Tuesday on the campus renewing old acquaintances before leaving on a business trip to San Francisco, where he is employed by the General Motors Acceptance Corporation.

While in college "Mac" played on the varsity basketball team. He is a member of To-Ko-Lo and of Phi Delta Theta graduate of the 1918 class who was very prominent in dramatic circles. She is a member of Chi Omega sorority.

RESEARCH CONDUCTED IN LAW DEPARTMENT

Professors Supervise Investigating of Problems; Course Offered Third Year Students.

That the object of the law school is not merely to develop lawyers, but to encourage real scholarship as well, is evidenced by the research work now being conducted by that department. The work is under the supervision of Profs. Larremore, Warner and Dalzell. It is intended primarily for third year students, and consists of certain problems in law.

According to Prof. Dalzell such questions as "Women's Labor Laws and How They Are Evaded," "The Policy of the Courts in Chattel Mortgages, Conditional Sales and Lease Contracts" are some of the problems which are being investigated at the present time. In the former topic the status in Oregon will be dealt with to a great extent.

GREGORY TO GIVE TEST

Examinations in Reading to Be Held in Schools.

Educational Research Head to Submit Monroe Tests for Inland Empire Teachers' Association.

As a member of the committee appointed by the Inland Empire Teachers' Association, Doctor C. A. Gregory, director of the University Bureau of Educational Research, expects soon to begin his work in testing the reading ability of students in the public schools of Oregon.

The Inland Empire Association, composed of teachers from Oregon, Washington, Idaho and Montana, proposes to test the pupils of these states in reading, and to report on the tests at the meeting to be held in Spokane next April. Dr. Gregory is at the head of

the committee for making the tests in Oregon, and hopes to get the work under way and the data compiled in order to be ready for the meeting.

The tests used are those devised by Walter S. Monroe, and tests for both speed and comprehension, in the grades three to twelve inclusive. There are three sets of tests, one for the third fourth and fifth grades, one for the sixth, seventh and eighth grades, and one for the high school.

A few advanced students from the School of Education may be chosen to aid in conducting these tests, according to Dr. Gregory. It is not known yet, Dr. Gregory says, whether a state-wide survey will be made, or whether four or five representative counties will be chosen in which to conduct the tests. The latter is probable, however, owing to lack of time. The work will probably be placed in the hands of the county school superintendents, according to Dr. Gregory, and as few examiners will be used as possible, in order to make the tests uniform.

Buy In Quantities and Save

By contracting for groceries in large quantities we make a substantial saving and believe the average family should practice the same economy in buying. The overhead expense in any business is greater on a small order than it is on a large one.

Wrapping paper costs 15c per pound, twine 70c per pound, paper bags from 3-8c to 1c each. About 60% of the cost of all containers is for labor, therefore the small bag, glass or tin costs nearly as much as the large one.

Some examples of saving when you buy in quantities.

Item—	Small Lots.	Quantity	Saved
Potatoes, 10 lbs	25c	100 lbs. \$2.10	14%
Hard Wheat Flour, 9 lbs.	85c	49 lbs. 3.50	13%
Cane Sugar, 5 lbs.	65c	100 lbs. 12.50	4%
Rolled Oats, 3 1/2-lb. pkg.	40c	10 lbs. .80	27%
Macaroni, 8-oz. pkg.	10c	2 lbs. .25	37%
Cream of Wheat, 1 lb., 12 oz.	30c	9-lb sack .95	38%
		(Farina)	
White Karo Syrup, 2 1/2 lbs.	40c	10 lbs. 1.20	25%

We DO appreciate small orders, and only make the above comparison to show you a saving that can be made.

Talk it over with us when you plan on placing a large order, and allow us to explain where it is economy on many items, and in no case will I advise buying a quantity of any article that may show a decline before your supply is used up.
