

EUTAXIANS TO MEET TONIGHT IN BUNGALOW

Literary Society to Outline Year's Work; Meeting Nights May Be Changed, Says President.

The Eutaxian Literary society, which is the only active literary society in the University, will hold a meeting today in the Y. W. C. A. bungalow for the purpose of making plans for the ensuing year's work.

Miss Helen Carson, president of the society stated that the regular meeting nights would probably be changed to the first and third instead of the second and fourth Tuesdays of each month as formerly, because the Y. W. C. A. bungalow, where the meetings will be held, has already been engaged on those evenings for the use of the French club.

Any woman is admitted to membership in this society who is found eligible by a committee of investigation consisting of three members of the organization. The society takes up the study of present day events, contemporary writers and other similar topics. One of the most interesting features of last year's work was a discussion of the presidential candidates, their ideas and ideals.

Records in the historical department of the University library show this society to have been organized in October, 1883. Five amendments have been made to the original constitution and four to the by-laws. In 1886 the Eutaxian and Laurean societies, the latter a similar organization for men, were incorporated but later separate organizations were again maintained.

FROSH FEEL AT HOME SINCE DANCE SATURDAY

Get-Acquainted Party Banishes Blues and Gives Babes Oregon Spirit of Friendliness.

The Freshmen now feel very much at home since the "get acquainted" party of Saturday night. Everything came off on schedule through the efforts of the class president, Claire Wallace, who kept the ball rolling, and Dean John Straub and Dean Elizabeth Fox.

The program was opened by a greeting from President Campbell, impressing the students with their responsibilities without burdening them. Talks were given by Dean Fox and Dean Straub.

The audience was then entertained with an interpretive dance by Mildred LeCompte. A massive circle was formed of the women present, and the regular introduction proceedings were then in order. Dancing filled the program for the remainder of the evening.

TWO DELEGATES TO BE SENT TO CONFERENCE

Y. M. C. A. Party in Charge of Hal Donnelly and Roy Veatch Will Leave Friday for Roseburg.

Two delegates to the Older Boys Conference at Roseburg will be chosen today by the Y. M. C. A. executive cabinet. Several other students of the University and the local high school are planning to attend.

The boys, in charge of Hal Donnelly and Roy Veach, will leave Friday afternoon and return early Monday morning. They expect to receive some interesting instruction and a royal good time while on the trip.

One of the big features of the conference will be Mrs. Jean Morris Ellis, vocational adviser, of nation-wide repute. Mrs. Ellis was engaged in government work during the war, and since then has been connected with the Y. M. C. A. She has attended several boys conferences in the last two years, and all who have had the privilege of an interview with her agree that she is wonderful.

CASWELL WILL LECTURE

Science Club to Hear Paper on Theory of Time, Space and Gravitation.

Dr. A. E. Caswell, professor of physics will read an illustrated paper this evening, on Einstein's Theory of Time, Space and Gravitation, before the members of the Science club and their guests. The meeting will open at eight o'clock, in room 24, of Deady hall. Graduate students and teaching fellows are especially invited, as well as anyone else who is interested in science. These meetings occur on the third Tuesday evening of each month.
