Society Brand Clothes

The indoor social season opens. The day of the soft collared shirt, canvas shoes sweater and khaki trousers has passed

The suits illustrated above are fall models of Society Brand Clothes. On the left is the Buckwood, a two-button double-breasted model and on the right a three-button sack—the Lonsdale.

How about your wardrobe?

Have you kept pace with the style changes for fall?

Remember coats are fuller, with short vents and lower, less-restricted waist lines.

Hats — infinite in variety — tend toward the narrow rolling brim.

The new shirtings show small patterns on fields of white or are of small checks.

Better cast up in your mind what you need and pay a visit to our store.
