

Oregon Daily Emerald

VOLUME XXII.

UNIVERSITY OF OREGON, EUGENE, OREGON, TUESDAY, NOVEMBER 2, 1920.

NO. 25.

SHY'S MEN WITHIN 2 YARDS OF SCORE AGAINST STANFORD

Lemon-Yellow Squad Unable to Pierce Cardinal Line Near Gole Posts.

NO DISCOURAGEMENT AT HOME OVER DEFEAT

Oregon Forwards Strong To End; Steers and 'Spike' Leslie Feature.

SATURDAY'S FOOTBALL SCORES:

Stanford, 10; Oregon, 0.
California, 17; O. A. C., 7.
W. S. C., 31; Montana, 0.
Idaho, 21; Whitman, 7.

Smashing the ball through the Stanford line to the two yard line and then unable to pierce the Stanford defense for the touchdown is the introduction to the story of the fatal third period of Saturday's game at Palo Alto. The Cardinals held Oregon for downs and "Dink" Templeton punted 60 yards out of danger. Oregon fumbled the ball and R. Schauderman, of Stanford recovered running the ball back almost 40 yards. A forward pass and a line smash by the Stanford backs put the ball over for a touchdown and Templeton kicked the goal.

A drop kick just a few moments before the game ended from the 30 yard line by Templeton netted the additional 3 points for the Cardinals. "Dink" Templeton and Oregon's costly fumbles are responsible for the defeat which the lemon-yellow men in the South.

Squad Already at Work.

The team returned from Palo Alto Monday morning and appear to be suffering from no very serious injuries as a result of the game. Coach Huntington put the squad through a good workout last night and is already making preparations for the Homecoming game with the University of Washington to be played here November 13. The squad will take a much needed rest this week and with the next game two weeks away the coaching staff will have ample time to get the eleven into shape for the Sunday-dodgers.

Neither the team nor the coaching staff is discouraged by their defeat in the South. The breaks were with Stanford and from reports of the game play by play, Oregon outplayed the Cardinals throughout the contest. The game was hard fought from the opening whistle to the end and was featured by the punt exchanges between Captain "Bill" Steers of Oregon and "Dink" Templeton of Stanford.

Steers Biggest Gainer.

Bill Steers was the most consistent ground-gainer for the lemon-yellow eleven and tore up the Cardinals' defense for several long runs. Bill Reinhart was injured in the second period of the game and was replaced by Jacobberger, while

(Continued on page three)

JUNIOR WRITES NEW PEPPY RALLY SONG

George Pasto Author of Words; Melody Composed by Evans and Engeldinger.

"Boys, Hold That Line" is the title and keynote of a peppy rally song written by George Pasto, a junior in the pre-medic department of the University, which was tried out before members of the faculty and student body officers recently in Guild hall. Dean Straub, who was present at the initial recital, expressed his approval of the song and advised Mr. Pasto to have it sung in assembly by the glee club as soon as possible.

John Stark Evans and Vincent Engeldinger composed the music for the song. Victor Husband, working with Mr. Engeldinger, will arrange the music for orchestral instrumentation. Arthur Johnson sang the 74-word composition at its first presentation in Guild hall. The song was, especially worded by the writer for mass singing, accompanied by a clapping of hands. Yell leader Claire Keeney expressed his opinion that the song would be very appropriate for a rally song. Nothing but short snappy words have been used by the author, all but six of the 74 words being monosyllabic. The music to the song is full of vim, suitable for a march or one-step.

DYMENT WILL TALK AT FACULTY MEETING

Date in Bulletin Incorrect; November 3 Is Time.

Dean Colin V. Dymont will speak on "The Last Seven Years and the Next Seven Years of the University of Oregon" at the meeting of the faculty colloquium which is to be held Wednesday evening, November 3, in room 37 of the library. There has been some confusion concerning the exact date of the meeting since the faculty bulletin announced it for November 23 and attention is called to the fact that it is to be the night after election instead of three weeks later.

At the last meeting Dean Sheldon gave an interesting history of the faculty and discussed several very important problems facing the present faculty. Dean Dymont will present further problems so this meeting will be essentially a continuation of the last one and it is hoped that the talk of the evening will result in some constructive recommendation or resolutions.

Subsequent topics for colloquium discussion will probably be as follows:

December— "What shall be the sentiment of the faculty with regard to the giving of University credit for such cultural and ethics courses as might be offered by Father O'Hara, Rabbi Wise, Mr. Griffith and other religious leaders?"

January—The Faculty Club.
February— Student Self-Government and the Honor System.

March—What the University can do by way of vocational guidance.

PRINCETON DEBATE WILL SET PRECEDENT FOR LIKE CONTESTS

Forensics Follow Football's Lead In Intersectional Competitions.

DATE AND QUESTION YET TO BE DECIDED

Portland Chosen As Scene of Contests During Christmas Holiday Period.

When the University of Oregon debating team meets the Princeton University team in Portland during the Christmas holidays another form of intersectional contest will have been originated at Oregon. The exact date has not been decided, but Remy Cox, debate manager, is awaiting a reply to his telegram suggesting a date and a question.

Never before in the history of the University have her debate teams clashed with representatives of any of the eastern colleges or universities. Unlike football, debate activities have been limited to institutions of the Pacific coast. And now, following the football's lead, the East and the West are to meet.

If there is any such minimization of western prowess as there formerly was in eastern athletic circles, it is predicted that a greater understanding between the two sections will be the result.

The team representing Princeton is making a tour of the Pacific coast and debates with the University of Washington, the University of Oregon and the University of California have been scheduled.

It is expected that the same question will be used as in the earlier debates of the season, and that the decision will rest on the results of a single contest.

Due to the fact that large numbers of University students will be in Portland for the holidays it is expected that a great deal of interest will be aroused.

EXTENSION DIVISION OFFERS NEW COURSES

Eugene Carpenters Union and Men from Architecture School Join Classes.

Under the leadership of B. W. Siesman, head of the carpenters' union of Portland, forty men from the school of architecture and the carpenters' union of Eugene met in the Architecture building Friday and enrolled for either graphic statics or estimation, the two new courses offered by the extension division of the University.

A year ago the extension division offered to the carpenters' union of Portland the graphic statics course. It met with hearty support.

This year Dean Ellis F. Lawrence and Percy P. Adams, of the school of architecture of the University, decided to find what support the course, and also one in estimation, would receive in this city. Accordingly, Mr. Siesman came from Portland and made a hurried survey among the construction men. The result was the meeting Friday.

The man pay regular extension division fees. They receive grades and credit for their work if they wish. Any one interested in the work, whether engaged in University or municipal construction work or students of the school of architecture may enter the courses. Classes are held Friday evenings, in the Architecture building, under Professor Adams. At present the men are entering the work with enthusiasm and the new courses promise to become as interesting as any in the University.

It has been the desire of Dean Lawrence and Professor Adams to obtain some medium by which the construction men and the students could come in contact with each other, thereby gaining the practical knowledge that is so important in architectural work. The belief this has been found in the two new courses, in which the men all meet together and discuss their work from the viewpoint of both worker and student.

NEW PERIODICAL AT UTAH.
The initial issue of the "Humbug", Utah's spicy budget, is just off the press.

52 PER CENT EARN HALF OR MORE OF COLLEGE EXPENSES

525 Students, One-Third of Registration, Entirely Self-Supporting.

THREE TIMES AS MANY MEN WORK AS WOMEN

400 Out of 900 Boys Furnish All of Funds; One Girl In Five Makes Way.

Nearly 52 per cent of the students at the University of Oregon are earning at least half of their expenses, according to Carlton Spencer, registrar. The number who are entirely self-supporting is 525. This is nearly one-third of the total registration, which is 1,679. In the spring term last year there were only 1,391 on the registration books and of this number 365 made their way alone.

There are about three times as many men working their way through the University as women.

Out of the total registration only 555 are listed as being entirely dependent upon friends or relatives, 449 of these being women. Nearly four times as many men are absolutely without financial assistance as there are men who do nothing toward their living costs.

More Freshmen Among Workers.

By classes the showing is equally as good. The Freshman class leads in the number of student workers, 180 of them being 50 per cent or more self-supporting. The class registration is 526 and out of this group only 200 are dependent.

The Sophomore class has an enrollment of 458 of whom 110 are entirely without financial aid. Of the 110 women number 24. About 30 per cent of the Sophomores are entirely dependent.

Of the Juniors over 50 per cent are independent for at least half their funds. Their enrollment is 315 and 171 are included in the 50 per cent class. Less than 90 earn no money.

One hundred nine of the 216 Seniors make their way. Twenty-six of the 109 are co-eds. There are 69 absolutely dependent, and of this number only 11 are men.

55 Specials Earn All of Way.

Special students number 105, the men having 61 and the women 44. Only 22 of this number do not earn at least part of their way and 55 earn all of their way.

Among the graduate students, numbering 31, all the men are entirely self-supporting and only three of the women are dependent to any extent. Seven of the women are 100 per cent workers, nine others are 50 per cent or more, and two are listed as partially self-supporting who were not included in the above account.

Special law students number 17, two women and 15 men. None of this number is entirely dependent and six of the men are 100 per cent on their own feet.

Ten of the eleven E. B. U. special students are entirely without financial assistance, which is the best percent shown by any class.

More Women Self-Supporting.

Last year one woman out of every nine earned every bit of her way. At present about one out of every five may be included in this classification. Nearly 400 men earn all their way out of 900 registered and 135 women are 100 per cent workers out of 779 registered. Sixty-seven men earn 75 per cent of their expenses and 25 women also do three-fourths the work necessary to get an education. There are 190 men and 55 women who earn approximately 50 per cent of their education fund and in the 25 per cent class there are 147 men and 115 women. Those having no part in the financial end of their schooling number 449 women and 106 men.

EDUCATOR NOT TO SPEAK.

Vaughn McCaughey, superintendent of public instruction in Hawaii, who was to have made an address on the campus this week was suddenly called home on important business and will not be able to come, according to Karl Outhank, secretary to President Campbell.

EAST SHOWS INTEREST IN OREGON 1920 TEAM

Dean D. Walter Morton Sends Clipping From New York Evening Post Praising Shy's Men.

A letter was received recently from D. Walter Morton, former head of the University school of commerce, now with J. C. Penney Co., in New York, by one of the students of the University in which was enclosed a clipping from the New York Evening Post of October 23, comparing the present husky Centre College football team, recently defeated by Harvard, with the Oregon team of 1919. The clipping read in part: "The Centre College offensive has in it no power play with the punch that was found in 'Shy' Huntington's Oregon eleven, nor is the Centre College's line the physical equal of Oregon's. Six in the Harvard line-up faced Oregon, a year ago and they have faced an attack that combined deception with terrific force along the close and the wide slants."

"Oregon enjoys a reputation in the East at the present time such as has never been equaled by any other Western College", Mr. Morton stated in part, "and the East is watching with keen interest the conduct of the Oregon team of 1920."

Mr. Morton is instructing classes in salesmanship for J. C. Penney at the present time and writes that the work is very enjoyable. He sent his regards to all the students of the University.

THEO KARLE DELIGHTS ENTHUSIASTIC HOUSE

Music Lovers Assure Success of Future Concerts.

That the students and faculty of the University and the residents of Eugene possess a keen discrimination of real worth in music and that they recognize in the person of Theo Karle an artist of the first rank, is now a firmly established fact. The initial concert, last Friday evening, of the series being presented by the school of music with the co-operation of the Oregon music council, was in every respect a success far beyond the fondest expectation of even the most sanguine. With such evident wholehearted support on the part of the public the appearance of other recognized artists and music organizations may be fully assured if this same enthusiasm continues.

The program of songs presented by the well known tenor was one suited to satisfy even the super-critical, ranging from the Handel recitative and aria through two Italian selections, two of the Russian school represented by Rachmaninoff, down to the Irish and negro as well as the more purely American folk songs. In each type he was equally well at home. Perhaps the best pianissimo effects were obtained in "The Island" and "Highland Joy", which the artist was obliged to repeat. "Highland Joy", a delightful song by Sticks, exhibited the fortissimo powers of Mr. Karle. For one of the numbers on the program was substituted "My Lagan Love" which is one of the oldest Irish folk songs known to exist. A widely insistent audience was further pleased by the encores "Sing Me a Song", so well received at Mr. Karle's concert last year, "Little Mother of Mine", "Come Away Home", "Macushla", and "I Hear You Calling Me".

Arthur Klein, an assisting artist from the east, won particular favor with his tasteful accompaniments as well as with the group of piano solos which were delivered with pleasing and well balanced effect.

FOUR ADDED TO STAFF

Raeferd Bailly, Doris Parker, Lenore Cram and Howard Bailey are the four new additions to the Emerald staff. Two members of the staff resigned and two openings were created. Renel Moore has been added to the night editor staff.

There are about eighteen other students trying out for positions on the Emerald staff, and new appointments will be announced at an early date. More reporters will be put on from time to time as vacancies open.

HENRYETTA LAWRENCE SUFFERS FRACTURED SKULL IN ACCIDENT

Picnic Party Goes Over Bridge In Car When Blinded By Headlights.

STUDENTS WERE NEAR SPRINGFIELD AT TIME

Girl Will Recover, Doctor's Opinion; Others In Party Only Shaken Up.

Henryetta Lawrence, a freshman from Portland, was seriously injured and Star Norton, Curtiss Phillips, and Morgan Staton were badly shaken up when the car in which they were riding went over the edge of a small bridge near Springfield early Sunday evening. Blinding headlights on an approaching automobile which met them on the bridge are said to have been the cause of the accident.

Dr. E. L. Zimmerman, who was called, said yesterday that Miss Lawrence's skull was fractured but that her condition appeared favorable. She was unconscious for the greater part of Sunday night but yesterday was very much improved. The other members of the party escaped with a shaking up and are none the worse for their experience.

Returning From McKenzie.

The party had been over to the McKenzie river on a picnic and were on their way home to Eugene when the mishap occurred. Phillips was driving the machine, which was an old converted truck, and was running in low as the high gear was broken. A car coming in the opposite direction met them on the bridge and its glaring lights made it impossible to see anything, according to Phillips. The truck was crowded over to one side, and as the bridge was too narrow for two cars to pass it went over the edge.

The fall of the truck was stopped by a stump but the occupants were thrown out on the ground, some ten feet below. It appears that Miss Lawrence must have landed on her head for she was scratched about the face as well as receiving an injured skull.

Other Car Goes On.

The car which carried the bright lights did not stop, according to statements made by some of the occupants of the truck, but other cars were soon on the scene and one of them carried Miss Lawrence and the other members of the party to the Springfield hospital where she was given medical aid.

Marion Lawrence, Henryetta's sister, was summoned from the Kappa Alpha Theta house, where both the girls live, and relatives in Portland were notified of the accident. For a time it was thought that she was in danger but her condition was so much improved yesterday that little fear is entertained for her recovery. She is still being cared for at the Springfield hospital.

All the members of the party live in Portland.

FROSH PYRE IS BURNED

Hallowe'en Pranksters Undo Work for Homecoming Bonfire.

Lumber-ends gathered by the frosh at great labor and more or less expense for their Homecoming bonfire, were touched off by Hallowe'en pranksters Sunday night in a premature blaze. The freshmen will begin rebuilding the pyre tonight.

There will be a meeting of the freshmen men at 7:00 o'clock this evening to make plans for completing the bonfire before Homecoming. They have two racks full of apple boxes to begin the work and expect to start immediately.

PILGRIM DAY URGED.

President Wilson has issued a proclamation in which he requests the observance of the three-hundredth anniversary of the landing of the Pilgrims. At the same time he named three members of the United States Pilgrim Tercentenary Commission. Six members had already been appointed by congress.

Yocom Writes Interestingly on Apparatus of Euplotes Patella

INTRODUCING H. B. YOCUM, in your Ph.D.? Why did you come to Oregon? I went in and by way of beginning the conversation asked him what he taught. He said he taught cytology, and was especially interested in protozoa.

I felt dazed. Then I glanced at the questionnaire I had with forethought prepared and selected question number two.

Ques. Have you written anything?

Ans. "Yes, I wrote a pamphlet on 'The Neuromotor, Apparatus of Euplotes Patella.' Also others."

But I thought I detected a twinkle in the eye of the honorable professor, so in my most journalistic manner I asked: Where is your home?? Where did you finish college? Where did you teach before you came here? Where did you get

your Ph.D.? Why did you come to Oregon?

He gasped twice and when he came up for air the third time we both laughed and felt well acquainted. Then he answered my questions in the order in which they were asked.

"Home, Ohio."

Graduated from Oberlin college. Taught zoology at Wabash, Indiana. Kansas State Agricultural college and Washburne college in Topeka.

Ph.D. from University of California. Came here because I like the West and Western people better than the East. Went to California in the first place because there are special facilities there for studying protozoa. Knew Dr. Board there. Went back to Kansas and taught a year, then had the opportunity to come to Oregon, which I did.

Brief, but to the point. M. L. B.
