WELCOME.

Welcome, old grads. Welcome home. Every student of the University voices his welcome to you, graduates and former students, and hopes that this week-end will be one that you will remember for years to come. We hope that the same old spirit of democracy, the same old fighting spirit which backed teams in your day, and the other sterling traditions which you left with us are here now, and here in a greater degree than ever before.

You will find many changes, and the campus as you knew it may be quite different now. But the development we have made during the past few years has been the outgrowth of measures which you started for the growth of your University when you were at Oregon. And the work you started, striving always for a greater Oregon, will keep on and on, as long as the same old spirit you kept up remains alive.

Today the Oregon varsity eleven goes into a game the under-dog, as you remember Oregon has done in the past. The same old fighting spirit that has helped Oregon to come out on top before, will play an important part in the game today. Oregon may not win, but win or lose, the students and the players will hold fast to the slogan, "You can't beat Oregon fight." Oregon has always fought to win, but it has fought fair, and never has been a bad loser. And it never will as long as the good old Oregon spirit is alive.

And you visitors from Washington and other schools. Every student in the University welcomes you, and as long as you are here you will be treated as our guests. Welcome to Oregon for the greatest Homecoming in our history.

THETA SIGMA PHI TO MEET AT LUNCHEON

Alumni and Members to Gather Upstairs in Men's Gymnasium at Noon Saturday.

Theta Sigma Phi alumni and members will have a meeting at the campus luncheon Saturday. It will be held up stairs in the northwest corner of the men's gymnasium at 12 o'clock. The purpose of the meeting is to renew old acquaintances and make new ones.

Directories giving a complete list of active and alumni members have been received from the national headquarters, and these will be on hand ready for distributing to the alumni. Letters from several alumni of Theta Sigma Phi have been received that the Homecoming graduates will be glad to know about. The local chapter wishes to get better acquainted with the members who have been away from the campus for several years and wishes to give them a special invitation to be present.

The meeting will be very informal and if anyone has guests who are not members of Theta Sigma Phi, the guests will be welcome also.

When You Learn to DANCE

You should choose a school with an established reputation, thereby assuring yourself of results.

With professional dancing instructors capable of teaching everything from the first steps to advanced technique; with a system that makes you dance like everybody else—not teaching unnecessary steps and dances which you will never use; where your lessons are private, in which you receive the personal touch and enthusiasm of the teacher—one private lesson is worth more than six class lessons.

In short, a school whose system contains the combined features of the leading dancing academies of the Pacific Coast. A trial will convince you. Learn from teachers who love their work.

If you are not accustomed to wearing good goggles you'll be agreeably surprised at the comfort derived from a pair properly fitted.

NOT ALL KINDS OF COLORED GLASSES ARE GOOD GOGGLES

They must be not only sun and dust proof, but also of the particular color or shade required by your particular case.

We will be glad to give you sound advice on this point, and it won't make your goggles cost you a bit more. That's just a part of our service.
