THE UNIVERSITY AND THE CITY.

There are very few college communities in the country that hold the same feeling toward the student as shown in Eugene. This fact is not generally appreciated by the average student but the condition exists as a fact. In every phase of the college life the people of Eugene are present to aid and are even glad time after time to furnish the necessary capital to see needed projects worked out to their completion.

We may boast that the college makes the community but there is another side. The community helps make the college. Whether it is to build new buildings, to put the millage bill over, to see the best student publications are carried on, in fact no matter what the call is the ready response is heard. It is only natural for this reason that the people of Eugene feel that they should receive the support of the students. Let us give our undivided support to the business men and the people as a whole in order to make this one of the best college communities in the country. Let there be a friendly spirit of mutual co-operation and good will.

Baiting the referee may be a popular high school pastime, but it is not a recognized sport at Oregon. Oregon has always been synonymous with sportsmanship, and treating the referee in a basketball game fairly is not only good sportsmanship but a duty on the part of the entertaining students. Win or lose, be good sportsmen and good fighters.

WASHINGTON CLUB INITIATES TWENTY

Members To Co-operate With University in Bringing Students From Northern State.

At a meeting of the Washington Club Wednesday night, twenty "pledges" were put through the rites of initiation, and are now full fledged members. This addition expands the membership of the club to about fifty. The new members are: Geo. W. McIntyre, Elmer Lewis, Wayne Meek, Lloyd F. LaLonde, Dale J. Benjamin, Norman A. Hayes, Geo. E. Hoisey, Lee W. Weber, Lawrence Wel-

ler, Kenneth Jones, Lydia Beardemphl, Gertrude Williams, Dan Welch, LeLaine West, Janet West, Virginia West, Mildred Mumby, G. Barton Sherk, W. Huber Rambo, Charles Fish.

A dance was planned and is to be given on the 22nd of this month, Washington's birthday—at Eagles' Hall. It will be very informal and the main purpose of the dance is to enable all the members to "get acquainted." As each member will invite an outsider, about 50 couples are expected. More complete plans are being formulated.

to school here. Each member was urged in turn in the name of the high school from which he came, and a list of the seniors there now, so that special literature may be sent them. This is thought to be a very good plan as more complete information can be given on this subject by students from Washington, than from any other source.

An athletic committee was appointed with Lee Weber as chairman. This committee is to work out plans regarding putting teams in doughnut leagues, meets, etc.

The subject of pins was brought up, and resulted in the choice of a moderate

priced pin of the design previously offered. Practically all these present pins are in their order.

CADETS MAKE RECORD

Automatic Rifle Assembled in One Minute by Newhall.

Only one minute was required to dismount an automatic rifle in a contest between Jack Newhall, Charles Robertson and Ivan Roberts, held in the military laboratory yesterday afternoon. The time was made by Jack Newhall. Dismounting and assembling the gun was done most rapidly by Charles Robertson; time, two minutes and fifty-one seconds.

After the contest had ended Jack Newhall determined to try his hand at dismounting the piece once more and this time accomplished the feat in thirty-two seconds.
