

OREGON DEFEATS AGGIE QUINTET 42-13

HONOR FRATERNITIES AND CLUBS ACTIVE ON UNIVERSITY CAMPUS

57 Kinds of Organizations Prominent in Student Affairs.

SOCIAL SCIENCE WORK CARRIED ON IN STATE

Every Department Has At Least One Society; Others Have Five Clubs.

Nowhere is the gregarious instinct of man more predominant than in the handling together of students, the forming of clubs and societies, diverse in their purposes and activities.

"We are the most live wire organization on the campus" said Dean Bovard when asked what the University Science club was doing.

Good Work Done.

The University Science club is undoubtedly doing a great work for the state as well as for the University.

The University Social Science club is doing similar work but along the line of social science.

Musical Clubs Active.

The activities of the various musical organizations are perhaps more fully realized by the students than are those of any other organizations on the campus.

The orchestra will appear in concert at Cottage Grove on February 18, and it is hoped that they will give a home concert sometime before the spring vacation.

Glee Clubs Appear.

The Men's Glee club appeared in concert in Portland recently and scored an unusual triumph.

Mu Phi Epsilon is also doing active work in promoting better music.

Versatility, Generosity and Spontaneity Characteristics of Paul Althouse Concert

(By Madame Rose E. McGrew.)

With all the versatility, generosity and spontaneity of a still young and truly great artist, Paul Althouse sang at Villard hall Thursday night to a crowded house.

Now it is high time that America should awake to a sense of national pride in its own musicians and honor them, whenever and wherever occasions present themselves.

Bury the phrase of the prophet and his own country and begin to hunt for our own people who give us the hours of wonderful exultation and mentally slap them on the back saying, "Go to it— we're here on the side lines cheering for you!"

Paul Althouse possesses all the good qualities which go to make a great singer. He is not only a man of great natural talent but a man who works incessantly.

POSITIONS SECURED FOR MANY STUDENTS

Bureau Places 88 Per Cent of All Who Would Teach.

Eighty-eight per cent of the students who registered with the school of education appointment bureau during the year 1919-20 were placed in teaching positions according to Professor C. A. Gregory of the education department.

The total number of positions listed by the appointment bureau for the school year 1919-20 was 420. The bureau was able to recommend 277 applicants for these positions.

Seventy-nine earlier graduates of the University were listed with the appointment bureau last year, and a large percentage of these were placed in positions, Dr. Gregory said.

Dr. Gregory urges that all students who wish to secure teaching positions for next year register at once with the appointment bureau.

The fee for enrollment in the appointment bureau is one dollar. Registration blanks may be had at the appointment bureau, on the ground floor of the education building.

The fee for enrollment in the appointment bureau is one dollar. Registration blanks may be had at the appointment bureau, on the ground floor of the education building.

cessantly.

He is not only as great a tenor as the Metropolitan Opera House possesses, he is their best linguist, counting Russian among his accomplishments.

When the courtesy of the Elwyn Concert Bureau in Portland made Mr. Althouse's appearance in Eugene a possibility, the undertaking seemed, at that time, so vast as to be absurd.

Mr. Althouse also showed discrimination in the choice of his accompanist, Rudolph Gruen, whose accompaniments were all that the most fastidious could ask, and whose solo work was, for one so young, masterful to a degree.

Amusing to one "on the inside", was the reaction which came to Mr. Althouse after he had sensed the "peculiar" acoustic quality of our beloved old Villard.

Of the 40 subjects on geography, scenery, and travel, 20 are colored, lending an added interest to the pictures.

Churchill Approves Service.

A paragraph taken from the pamphlet says: "In 1916 the Extension Division started in a modest way this service which has reached such proportions that in 1920 Oregon audiences, aggregating 260,000 Opeole, viewed upon the screen the wealth of illustration it is now possible to furnish.

OREGON HOMECOMING PICKS LIVE FEATURES

The homecoming program as staged by the University of Oregon in the fall of 1920 embodies practically every good feature that is being used by other colleges of the country in similar enterprises.

In the survey, which was started several weeks ago, Miss Fenton has had correspondence with 20 or more schools and colleges in both the east and west, including Harvard, Princeton, Cornell, Michigan Agricultural College, Missouri, Wisconsin, Chicago, Ohio State, Western Reserve and the University of Washington.

Miss Fenton reports that eastern schools have a tendency to offer more prizes than does Oregon, but that their results have not been any better than those on the Oregon campus.

In connection with the survey Miss Fenton has received letters from a number of alumni secretaries, complimenting her on the idea and asking that they be allowed to share in the benefits.

As soon as the survey is completed plans for the next homecoming on the Oregon campus will be started and many new ideas will probably be tried, according to Miss Fenton.

RELIEF MAP RECEIVED.

A copy of a large relief map of the United States recently published by the United States Geographical Survey has been received at the president's office through the efforts of Congressional Representative Willis C. Hawley, of the first district, who writes that only two of the maps were at his disposal and suggests that such a map would be of great value to students in the school of commerce.

STATE OFFERED FREE USE OF 250,000 FEET OF FILM BY U. OF O.

Service Is Arranged So Any Kind of Movies or Slides Can Be Obtained.

260,000 OREGONIANS SERVED BY UNIVERSITY

Enormous Variety in Pictures, Everything From Hats to Bible Stories.

The free educational slides and films, consisting of more than six thousand lantern slides and nearly a quarter of a million feet of moving picture film, which the extension division has to offer to citizens, schools and organizations, now await the public's call and are listed in a 28-page pamphlet recently published.

The films include 28 different topics under geography, scenery, travel, 36 on industry, manufacture, technical, 3 on health sanitation, public safety, two each on drama and University of Oregon activities and 20 films on the war.

One hundred and fifty-four slide sets consist of 40 subjects on geography, scenery, travel, 27 on history, development, 12 on industries, products and a surprising range of other subjects.

Of the 40 subjects on geography, scenery, and travel, 20 are colored, lending an added interest to the pictures. All the other slide subjects have from 2 to 8 sets which are colored.

Churchill Approves Service.

A paragraph taken from the pamphlet says: "In 1916 the Extension Division started in a modest way this service which has reached such proportions that in 1920 Oregon audiences, aggregating 260,000 Opeole, viewed upon the screen the wealth of illustration it is now possible to furnish.

J. A. Churchill, state superintendent of public instruction, says that visual instruction opens the way to a richer, deeper and broader training without the expenditure of any more time and effort than before.

"This year marks the beginning of a new era of service to the non-theatre exhibitors of Oregon," says the pamphlet. "The dramatizations of famous classics listed under the heading, 'A Special Offer of Films' are the kind of material the extension division expects, in the future, to be able to offer in increasing quantities.

TORCH AND SHIELD MAY BE FORCED TO DISBAND

Student Advisory Committee Demands Names of Members Who Put Kick in Punch.

Unless the identity of certain members of Torch and Shield is disclosed to the Student Advisory committee, so that they can be held to answer for recent alleged misdemeanors, that organization will be forced to disband.

This was the action taken Thursday afternoon by the committee in consideration of the charge that Torch and Shield, a sophomore honor society on the campus, improperly conducted a dance about a month ago at the Country Club.

The express charge against the society is that intoxicating liquor was placed in the punch. Because it is believed that not all of the members of the society present were responsible for the action alleged, the committee gave the society a period of two weeks in which to name those men who were responsible for the action charged, so that any defense they may have can be made.

If the names of those connected with the affair are not given at the end of the required time, Torch and Shield, organized on the campus April 14, 1912, will be disbanded.

Pending the action taken by the committee yesterday, Torch and Shield was some time ago deprived of the right to hold social functions of any description.

O. A. C. ROOKS DEFEAT FROSH QUINTET 31-21

Oregon Agricultural College, Corvallis, (Special).—The O. A. C. rooks made it three straight here tonight when they won the first of a two game series from the Oregon frosh 31 to 21.

GAMMA PHI LEADS IN BASKETBALL SERIES

Zeta Rho and Hendricks Tie for Second Place.

Gamma Phi Beta scored her second triumph Thursday afternoon and placed herself in the lead in the doughnut basketball series by defeating Oregon club 2 to 7.

The Gamma Phi team plays together exceedingly well, Margaret Murphy and Helen Nelson, forwards, rarely failing to make a basket after getting their hands on the ball.

A large crowd witnessed the games Thursday afternoon. The Delta Delta Delta-Zeta Rho Epsilon game was the first one played this season at 3 o'clock.

Club Hears Freshman

Remigio Ronquillo Speaks to Members of Spanish Club.

Remigio Ronquillo, a freshman from the Philippine islands, spoke to the members of the Spanish Club in the Y. M. C. A. hut Wednesday evening.

In a brief discussion of the educational system in effect on the Islands, Ronquillo said that there were over 400 schools, three good universities and 12 colleges.

Spanish songs were sung by members of the club preceding a short business session. Members were urged to attend the meetings, and a committee was appointed to collect the dues.

The magazine "Mercurio," subscribed for by the club, will be placed on reserve in the library for use of members. The next meeting of the club will be of a social nature.

Varsity Wins From O. A. C. by Largest Score This Season

Durno, As Usual, Rolls Up Most Points; Converts 8 Out of 9 Fouls.

BEAVER SPURT AT END FAILS TO MATERIALIZE

Trio of Guards Responsible for Lowest Score Made Yet by Visitors.

By a score of 42 to 13, the largest score rolled up by the varsity this season, the Oregon quintet defeated the O. A. C. five in the first of a two game series at the Armory last night.

The work of the Oregon guards, Belar, Chapman and Reinhart, was largely responsible for the low score of the Beavers, which is the lowest made in a conference game so far this season.

As usual, Eddie Durno was high point man, netting 6 field baskets and converting 8 out of 9 fouls for counters; a total of 20 points.

The second game of the series will be played tonight at the Armory. The game will start promptly at 7:30. Awarding of football sweaters to ten members of this year's varsity will be made between halves tonight by Carleton Savage, A. S. U. O. president.

The Aggies took the lead in last night's game, when soon after the first whistle Arthurs secured the ball when Stinson bounced a try off the back board and dropped one through.

Stinson of the Aggies dropped a long throw through the hoop for the two points needed to tie the score. The ball see-sawed back and forth for the next few minutes, and "Hunk" Latham scored his third field basket for Oregon, putting the Lemon-Yellow in the lead again, which the Aggies failed to overtake.

Reinhart brought the crowd to its feet with a beautiful basket after intercepting an O. A. C. pass, and dribbling it into the basket.
