

# ALL MEN GET CHANCE FOR ATHLETIC WORK

## Intramural Sports to be Added to New Curriculum

### STAFF IS COMPLETED

Activities will be Diversified; Classes Small

With the arrival here of L. J. Frank, former coach at Sioux Falls College, the physical education department of the University is completing its program for general school athletics for the coming spring term.

Athletics for everyone is the objective which the department has in mind in the revision of the schedules for physical training next term. Intramural sports of various kinds have been added to the curriculum and with the increase in the training staff, classes will be made smaller so that the students can have the benefit of more individual training and supervision.

Frank, who prior to his work at Sioux Falls was connected with Coe College, in Iowa, and the divisional recreation staff of the army, will take over the coaching of soccer. He is an experienced man in this line of work and will conduct classes in the sport, coach the intramural teams and act as assistant to the varsity coach.

Regular classes in gym work, some of them having an enrollment of 120 at present, will be sub-divided and the men given a chance to do outdoor work. Frank will take over some of the class work which has been supervised by Coach Bohler, as the latter will have his time occupied during the spring term with the coaching of varsity baseball.

Intramural sports this spring will embrace soccer, baseball and track, with possibly the addition of swimming contests if this latter proves feasible. Under the system, men for the more important teams will be picked from their intramural work. "There will be between 80 and 90 men out for freshman baseball," said Dr. John Bovard, dean of the physical education department.

In order to accommodate them, the classes will be sub-divided, and the best men picked by the coach for the freshman team. In the event that a man is unable to continue on the freshman squad, instead of being "benched" he will be returned to class or intramural work.

With the additional coaching staff, Frank Foster will be able to devote all his time to the coaching of track. He will have charge of frosh track and intramural track teams.

Smaller classes and more diversified activities will make it possible to offer a field of interest to every student in the University, according to Dr. Bovard. This will give everyone an opportunity to take some active part in school athletics which affords an excellent incentive for the proper type of physical training.

## SECOND LENTEN ORGAN RECITAL IS TOMORROW

John Stark Evans Will Be Assisted By George Hopkins; Attractive Program Arranged.

The second of the series of Lenten organ recitals by John Stark Evans will be given at the Methodist church tomorrow afternoon at 5 o'clock. Mr. Evans will be assisted by George Hopkins, soloist. A large audience greeted the opening concert last Sunday and the program for tomorrow promises to be just as attractive. From the old familiar melody "Swing Low Sweet Chariot", to the beautiful suite "To My Country" by Scheve a rare treat is promised for the music lover. The complete program is as follows:

- Swing Low Sweet Chariot.....Diton
- Springtime Sketch.....Brewer
- Meditation from Suite in B Minor....
- .....Evans
- Suite "To My Country".....Scheve
- Allegro Maestoso
- Andante Contable
- Lento Doloroso
- Allegro Moderato.

Come Ye Blessed.....Scott  
George Hopkins, Tenor.

## CONSTITUTION WILL BE DRAWN FOR NEW CLUB

Political Science Students Appoint Committees At First Meeting.

At a meeting Thursday evening for the purpose of organizing a political science club made up of students who are interested in problems of state and national government, J. A. Digman, Glenn McGonegal, and Horace Hair were appointed a committee to arrange definite plans and a constitution for the club. The meeting was held in Dr. Gilbert's room in the library.

The club is partly the result of the work of Mr. Hair, who has stated that his plans have the approval of Dr. James D. Barnett, Dean Colin V. Dymant, and Dean F. G. Young.

"There are a number of students I know who are really interested in these plans and are willing to get behind them," said Hair. Membership will include, not only political science students, but any who are interested in the subject and its present day problems. The only requirements planned are that each member take an active part in the meetings according to pre-arranged programs.

The next meeting will be held in Dr. Gilbert's room at 7:30 next Thursday evening at which time the constitution will be approved. At the last meeting an informal discussion of the averred presence of Bolshevism in instructions of higher learning was to have been discussed, but the business occupied all the time.

## FACULTY PLANS SYSTEM

Opening and Closing of School Will Become Automatic.

A system whereby the opening and closing of every term becomes automatic was adopted at the faculty meeting Wednesday afternoon. Hereafter, the fall term will open on the first Saturday and close on the twelfth Friday after September 23 of each year; the winter term will open on the first Monday and close on the twelfth Friday after January 1; spring term will open on the first Monday and close on the eleventh Friday after April 2 on all years except leap years, when it will be after April 1.

This system provides for a vacation of 16 days at Christmas, and one of nine days in spring.

## STANFORD TO HAVE INSTITUTE.

The Carnegie Corporation of New York has decided to establish a food institute at Stanford University for the intensive problems of production, distribution, and consumption of food.

## GIRLS' BASKETBALL TEAM IS PRACTICING

Miss Waterman Coach; Game with O. A. C. March 12

The women's varsity basketball team has been chosen and is practicing daily for the game with the Oregon Agricultural College March 12, at Corvallis. Two members of last year's varsity team, Dorothy McKee and Lucy Vander Sterre, were chosen again this year. O. A. C. was not played last year on account of the fear of a flu epidemic. Miss Emma Waterman is coaching the team.

Although the forwards have not been definitely decided upon, the choice lies between Helen Nelson, forward for the championship Gamma Phi team, Charlotte Howells, forward for Oregon club, and Oletta Pedersen, who has played at California. Selections will probably not be made until next week. Dorothy McKee, varsity player last year, and Emily Perry, guard on the Hendricks hall team, are to play guard, with Eloise Harris, member of the Tri Delt team as substitute. Maud Largent center for Zeta Rho Epsilon and Lucy Vander Sterre who played the same position for Oregon club, have been chosen for jumping and side centers. Sarah Martin, Oregon club, will substitute.

Miss Waterman, the coach, recently refereed a game in which the Oregon Agricultural College defeated the University of Nevada, and says the O. A. C. women have a good team. She predicts a good game next Friday at Corvallis.

## SUMMER TERM BOOSTED

Greater Oregon Club Plans Campaign to Advertise School.

The Greater Oregon Club of the summer section is getting plans under way for the promotion of the summer term of the University. At a recent meeting officers were elected and county representatives for the 36 Oregon counties are now being appointed, according to Earl Kilpatrick, director of the extension division.

E. F. Carleton, superintendent of the Eugene schools, is president of the organization, Professor F. L. Stetson, secretary and the five vice presidents are: E. H. Whitney, district superintendent of the Portland schools, Prentiss Brown, superintendent of Baker City schools, O. N. Bettner, superintendent of McMinnville schools, George A. Briscoe, superintendent of Ashland schools, and R. L. Kirk, superintendent of schools at the Dalles.

## WOMEN AID BUSINESS, J. O. HOLT TELLS GIRLS

Speaker Explains Co-operative Method Used in Handling Fruit and Vegetables.

Women in business, provided that it does not hurt the women, will help business, declared J. O. Holt, secretary and manager of the Eugene Fruit Growers' association, in an address on "Co-operation Among Producers," before a group of girls at the Industrial Forum meeting in the Y. W. C. A. bungalow Thursday evening. Mr. Holt devoted the greater part of his address to explaining the co-operative method used in handling Lane county fruit and vegetable products.

Mr. Holt referred to two women he knew personally who had made a success in the business world and still retained their charm. Business does not need to enter society, he said.

The law of supply and demand does not operate today, said Mr. Holt for the co-operative system is rapidly taking its place. California is honeycombed with co-operative associations, but the Eugene corporation is more complex than any of these for they handle many different products. "I believe that we have paid our growers more than any other association in the northwest," he said.

Mr. Holt contrasted the Eugene section and its methods to the Salem district, where they have no associations. The country around Salem produces three times the amount of fruit that is grown in Lane county, but because of the many canneries working on a competitive basis a great deal of fruit is lost. In Lane county no fruit is lost, declared Mr. Holt.

The Eugene association consists of 1,000 growers, is organized as a corporation and operates on the co-operative plan. The growers bring their fruit to the cannery where it is canned and sold. The farmers can secure their money when the canned goods are sold and at the end of the year the profits are put into the business or a dividend is paid to the members.

Eugene and Lane county products are sold all over the United States and have even had sale in foreign countries. With careful management and the combination of so many growers their products can be marketed in a profitable manner and the sale of their fruit and vegetable crops is insured, said Mr. Holt in conclusion.

**Look Pretty for the Home Folks!**

IT'S easy to look pretty for the home folks if you take advantage of the opportunity of a MINA TAYLOR dress or dress apron.

There's such a charm about these delightful garments with their pretty fabrics and touches of trimming that you can't resist their appeal. And their well-cut shoulders, the "hang" of their skirts, their ample widths and flat, double-stitched seams—all are reasons why you'll like them.

You'll like their sturdy quality, too. And as for comfort, just try them and see how delighted you will be with their roominess and ease.

They're made up in fine ginghams and percales—in most appealing colors and designs—ready in any size from those for misses to sizes designed for the full-formed woman—sizes which will really fit—without a lot of "fixing over."

Choose MINA TAYLORS this summer. The family will enjoy their good looks—and you'll find them the most comfortable thing you ever wore. And because of their moderate cost and their fine wearing qualities, they're the sort of purchase that is a very real economy.
