

# HIGH SCORES MARK BASEBALL OPENING

## Thetas And Hendricks Take First Of Series

The first games of the women's doughnut baseball series were played Monday afternoon. Kappa Alpha Theta won from Pi Beta Phi, 29 to 13, both members of League I, while Hendricks hall became the first victors of League II by defeating Zeta Rho Epsilon, 48 to 11. Because of the wet weather the games were played in the indoor and outdoor gymnasium.

The doughnut series is beginning with an unusual amount of interest this spring 14 houses having entered teams, which are divided into two leagues. The champion team of each league will play for the baseball cup, and the game will probably be an event of Field Day. Two games are scheduled for each school night until May 25. The teams playing Monday afternoon, were:

- League I.**
- Pi Beta Phi: Kappa Alpha Theta:  
 E. Lawrence .....p..... C. Cannon  
 E. Coleman .....c..... J. Lewis

 Umpire: Vivian Chandler.

## MEN HAVE NO CHANCE TO ENJOY THIS PARTY

Women Press Agents Begin Boosting April Frolic With Usual Superlatives.

All that is original, all that is snappy, all that is unusual and then some, is the way this year's April frolic committee, with Nancy Fields as general chairman, describes the entertainment for next Saturday.

The men must find other occupation for Saturday night than pigging, it isn't allowed. Neither are they welcome as spectators, in fact, the committee thought it best that the harrowing things that have happened to those of the male sex, who were bold, even bolder and then too bold, in their longing to participate in the April Frolic, should not even be printed. Women will be admitted as spectators for 10 and 25-cents. All who may so desire are urged to come in costume, even though they do not take part in the stunts.

Mysterious practices are being held in all the women's residences and there will be heated competition for the prizes, it is expected.

The stage in the women's building will be used for the stunts this year, which is a great improvement over the facilities of the men's gym which has always been used heretofore.

## OREGON PRODUCTS TO BE BOOSTED BY CLUB

Agricultural College Will Co-operate With Commercial Club During Week's Display.

Oregon Agricultural College, Corvallis, April 26.—To boost Oregon made products, the O. A. C. Commercial club will co-operate with the down town commercial club in staging what will be known as Oregon Products week, May 9 to 14. A. G. Clarke, secretary of the Associated Industries of Oregon, was on the campus to meet with the various committees in charge of arrangements. This week a committee composed of members of the O. A. C. Commercial club will make a survey of Corvallis in an effort to interest the merchants in making the undertaking a success.

It is the plan of the commercial club to have the merchants trim their windows for the event with Oregon made products. Information as to whether the merchants carry such products, the number of manufacturers they represent, and other points will be obtained by means of cards which the merchants will be asked to fill out. The week will terminate with a banquet at the down town commercial club rooms, Saturday night, May 14, according to present plans.

## MEMORIAL TABLET SET IN WOMEN'S BUILDING

Beautiful Stone Bearing Names of the Donors Placed Before East Entrance.

Of softly shaded, polished marble, with lettering of classic simplicity, the memorial tablet for the Woman's building was yesterday placed in the space designed for it directly in front of the east entrance on the wall above the stairway which leads to the Alumni hall.

The marble is of the kind known as Kesota and is of a soft ivory tone which blends with the walls. The tablet bears the names of those who have donated to the building fund. There are about 200 names on the stone, making a total of nearly 4000 letters.

The final decorating is now being done on the Alumni hall and it is expected that it will be finished by the middle of next week. The cornice is being painted a gray stone color, with touches of blue to harmonize with the dull brown woodwork and floors, the cream ceiling and the heavy blue tapestry draperies. The rugs are to be dull brown and the furnishings are upholstered in blue.

With Mrs. George Gerlinger, Mr. Babcock and Mr. Hargrave, of Portland, have been deciding upon a lighting plan. They visited the hall Monday and Tuesday evenings.

## COON TO TEACH AT ASHLAND IN SUMMER

University Instructor Will Direct Music For Six-Weeks Vacation Session of School.

Leland A. Coon, of the University school of music, will go to Ashland again this summer where he will act as director of music in the Ashland summer school. Mr. Coon held this position last year but will do more extensive work this summer than was possible a year ago.

During the six weeks of the term last summer a total of 192 students enrolled in the school and it is expected that a larger number will attend this year. The school, which is sponsored by the Ashland chamber of commerce, offers courses in music, physical education and English and this year will offer normal work along some lines.

At the close of the term last year a chorus of 75 voices presented "The Rose Maiden," under Mr. Coon's direction. This year he plans to do much more extensive chorus work and will also give private lessons in both voice and piano. The school will begin June 20, according to present plans.

## GIRL IS STOCKRAISER

Miss Lucile Cogswell, Oregon Graduate, Is School Teacher, Too.

Lucile Cogswell, a graduate of the University and a member of Delta Gamma, is leading a most interesting life at Alford, teaching school and raising live stock, reports Earl Kilpatrick, who spoke to a community gathering there Saturday on the consolidation of schools.

The school in which Miss Cogswell teaches five days out of the week, is the center of a rich district, and the building itself is a most interesting little structure, having been built by settlers in the year 1865.

This summer Miss Cogswell expects to spend her vacation on an extended automobile trip into the national parks of Oregon and California. She expects to visit Crater Lake early in the season.

## TO USE HONOR SYSTEM.

University of Southern California, Los Angeles, April 26.—The honor system for examinations will be introduced to U. S. C. for the finals this semester, plans for the inauguration having been sanctioned by President George F. Bovard. The system will not be as liberal as that in force at California and other institutions, but it will grant the students increasing freedom from faculty supervision, according to its success.

## MONEY LEFT COLLEGE.

Whitman College, Walla Walla, April 26.—Nine hundred and fifty dollars was added to the endowment fund of Whit-

# Y.M. - Y.W. ADVISORY BOARDS HAVE MEETING

## Rapid Progress On Campus Is Shown By Reports

The council of Christian workers, consisting of the advisory boards of the Y. M. C. A. and Y. W. C. A. and the ministerial association, met at the Bungalow Monday evening. Reports from Hal Donnelly and Miss Tirza Dinsdale were heard on the work of the two organizations for the past year. The reports showed the rapid progress the Christian associations are making on the campus, in enlarging their work to meet the conditions found here.

Several of those present made talks in appreciation of the successful work of the two secretaries, including students from both the Y. M. and Y. W., Dr. Leech and Mr. Case, from the ministerial association, and President Campbell, on the part of the faculty. President Campbell spoke of the remarkable growth of the two associations from small, doubtful, and apologetic beginnings to the present status, and said that this was in keeping with the growth of Christian work in all state universities. He said he hoped for the same progress in the future, and that at some future time he would like to see a large and beautiful building on the campus devoted entirely to religious activities.

The main business for the evening was the discussion of ways of arriving at cooperation with the church in the city. Hal Donnelly, secretary of the Y. M. C. A., outlined the plans of several of the large colleges in the country. Among various questions taken up was the number of student pastors advisable in a college of this size, and their relation to the regular secretarial staff of the organizations. A commission was appointed to look into the various methods and to report at the next meeting of the council, which will be in May.

About 30 were present at the meeting, including Harry Anderson, of Berkeley, California, who told of the scheme of church co-operation followed in the University of California.

## MRS. CLARK TALKS IN PORTLAND.

Mrs. R. C. Clark was in Portland the last of last week to address the Portland Chamber of Commerce at their noon luncheon, and according to the Chamber Bulletin, which arrived on the campus Monday, Mrs. Clark's address was lively and to the point, in fact she won a great deal of praise for her enthusiasm. The subject which took Mrs. Clark to Portland was that of the Oregon Produce Carnival, which proved so successful in Eugene a short while ago, and of which she had charge. It is the hope of those interested that the Oregon Produce Show will become a feature of the community life all over Oregon and that Oregon products will become known through this method. The Kiwanis Club of Eugene is giving a dinner honoring her, and those who were associated with her during the carnival, at the Osburn hotel Saturday.

## PADDOCK IN DRAMA.

University of Southern California, Los Angeles, April 25.—P. I. N. S.—Charles W. Paddock, world's champion in the 100 and 220 yard dashes, will play the leading role in "Sidney Carton," his own dramatization of Dickens' classic, "A Tale of Two Cities," which has been selected for the annual junior class presentation. If the new administration building is finished in time, Paddock's "Sidney Carton" will be the first play to be given in the new university auditorium. With his selection for the title role, Paddock has successfully invaded another field of endeavor. At present Paddock's school activities include track, play-writing, acting, debating, editing "The Trojan," the university student paper, and his studies. His scholarship record is way above average.

man this morning when a check for that amount was received from an eastern friend who had never seen Whitman, the late Anne Dickinson, of Romeo, Mich.

## 23 COMPETITORS FAIL TO MAKE DENT ON BEDE

(Continued from Page 1.)

all in a tangle. A considerable part of the underpinning of the bridge had to be torn out to extricate the horses and the most remarkable feature was that none of the participants so much as received a scratch.

The big news usually comes easy, according to Mr. Bede, and it is the small story that is hardest to get, as a rule. Small personal items were said by him to be one of the most important features of a paper. In Cottage Grove he has worked up a system of having people call up the office when any news item comes to their attention. This plan has worked out very successfully in his town, or rather, city, says Mr. Bede. In regard to the town and city rule, the editor said that it was a standing rule that Cottage Grove should always be referred to as "city" in the columns of the Sentinel.

The newspaper business has undergone a complete change since he first came to Oregon, stated Mr. Bede. The almost universal adoption of scientific cost finding systems and the adoption of businesslike methods has revolutionized the profession, he said. Much of this is due to the activity of the State Editorial Association, whose meeting are now more in the nature of a short course in journalism than anything else, in his opinion.

The fact that the young people of today want an education has been a great factor in the present industrial situation, said Mr. Bede, in conclusion. This has taken a great deal of cheap labor off the market and helped things in general, he thought.

## U. H. S. TO GIVE CONCERT

Mrs. Beck Will Direct Program Planned For Mixed Glee Club.

The mixed glee club of the University high school will give a concert under the direction of Anna Landsbury Beck, head of the public school music department of the University school of music, in the concert auditorium of the high school in two or three weeks. Mrs. Beck's operetta, "King of the Castles," given a short time ago, was the last production of the glee club.

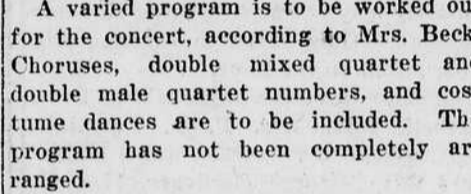

A varied program is to be worked out for the concert, according to Mrs. Beck. Choruses, double mixed quartet and double male quartet numbers, and costume dances are to be included. The program has not been completely arranged.

## COLDS, SORE THROATS NUMEROUS ON CAMPUS

Health Authorities Counsel More Attention to Prevention of These Ailments.

Increased care and attention should be given to the prevention of colds, according to the facts indicated in the University health bulletin sick report. This report shows a large number of colds and sore throats, out of all proportion to the other illnesses which were treated at the Infirmary during March.

One hundred and three women and 62 men have been cared for during this period, for colds or kindred ailments. Probably the bad weather during this month has had something to do with the general condition of health at the University. However, more attention to this matter would relieve the condition considerably, in the opinion of the health authorities. They declare that plenty of rest on the part of the individual student would often serve to prevent a cold.

With spring has come poison oak, and

the sick report shows 31 cases of that irritating trouble, which have come to the Infirmary for attention. Minor injuries on the part of the men also mounts rather high, probably due to the beginning of outdoor athletic work.
