

### Y. M. GIVES OUT \$5000 IN JOBS FIRST MONTH

Figure Excludes Pay of Work Held by Last Year Men

### HOUSES SHOW GENEROSITY

Filling Odd Positions is Only Problem of Bureau

With men placed in permanent jobs for the fall term which will bring them \$4300, plus approximately \$800 worth of odd jobs issued up to the present time, the total amount of work provided for University men by the campus Y. M. C. A. has passed the \$5000 mark in the first month of the college year. These amounts were figured for the present term only, and as many jobs will last for the entire year. The total business done will exceed the amount stated.

**Last Year's Jobs Hold Over**  
Hut Mother Donnelly, in giving the above figures, said that they do not nearly represent the amount of work made possible for students this term through the "Y". Many jobs obtained by men last year have continued for the present term, and these were not figured in. Among these are included men who make their way by working in fraternity houses. There are also a number of men who have been placed in positions down town during the preceding year and last summer whose wages were not added to the list, although these jobs are still being filled.

It is impossible to figure in all the money received by men from odd jobs, as one often leads to several others. This is true in such work as putting in wood, working on lawns, and such jobs. Men will be sent out for a few hours, and from that job will pick up considerable other work, which is not reported to the "Y."

**Work in Houses**  
One of the most important sources of work has been the various sorority and fraternity houses. A variety of other permanent jobs have been given out. These include places in confectionery stores, shoe stores, department stores, groceries, insurance companies, cleaning pressing establishments, janitor jobs, bakeries, book-stores, restaurants, etc.

Reports of more jobs are constantly coming in, and are promptly filled by "Y" employment seekers. On the waiting list at present there are nineteen men with clerking experience, seven dry goods clerks, one shoe store clerk, two drug clerks, one decorator, twenty-four janitors, one photographer, four garage men, one bookkeeper, three newspaper men, and thirty men for general work. The most difficult problem has been finding men to fill odd jobs.

### GEM STATERS HELD BY FIGHTING VARSITY TO TIE GAME 7-7

line, but Idaho smashed through before he could kick.

In the third quarter, Captain Mart Howard, Oregon's brilliant left end, was injured and removed from the game. Moward's right knee was badly wrenched, but it is expected that he will be able to play in the game against California. This is the first time in four years of football at the University that Mart has ever been seriously hurt.

### Few Injuries Suffered

In the early portion of the first quarter "Tiny" Shields, the varsity's husky fullback, was injured and taken from the lineup. Shields was knocked unconscious, but will be back in the harness against the Golden Bear. Oregon was indeed fortunate to get through such a hard game with few injuries, and with the entire crippled squad progressing nicely should be able to place the strongest team in the field against California that has yet represented the varsity this season.

"Dutch" Gram, playing his first big game with the varsity, made a great showing and looks like a comer. Ward Johnson at quarter played excellent ball and the entire backfield showed a marked improvement over last week's showing. To "Spike" Leslie however comes the praise for turning an Oregon defeat into a tie score and an almost victory. "Spike" Leslie and Neil Morfitt, for it was Neil Morfitt that received that great pass, and dodging through the arms thrust out to stop him, converted it into a touchdown.

### Irving is Star

For Idaho, Irving was the outstanding star and alone made more yards from scrimmage than the whole Oregon team. Irving made 136 yards from scrimmage while the Oregon backs made 125. Irving not only starred at running the ball, but also did all the Idaho kicking and passing.

### OREGON CLUB MEN MEET

versity.

The Dean laid special stress on the ability to be a good mixer. "The fellow that gets along in the world after he gets out of school is the fellow that can mix, and I want you to remember that" he said.

He assured the students that the mental training that they get in the University will always stay with them, and added that the social training would also. He said that his experiences were that the people that were able to mix while in school were always greater successes than those who did not go in for any sort of sport or recreation, and told of several cases along this line in emphasizing his plea that the students of the Oregon club get into the social life of the University.

President Emerald Sloan announced that the club was to enter a team in Doughnut basketball, and urged all men to be out at a practice to be held at 8 o'clock Thursday evening.

### "YOUR MONEY'S WORTH OR YOUR MONEY BACK"

—Twelve years ago when we opened our first little store we established the policy of selling reliable merchandise at popular prices, and adopted the slogan of "your money's Worth or Your Money Back." The fact that we have always adhered strictly to that old-fashioned policy accounts partly for our rapid growth.
