In four of the fastest games played so far in the Doughnut series, Sigma Alpha Epsilon won from Sigma Chi 34 to 14, Oregon Club No. 2, by a last minute spurt beat Phi Sigma Pi 29 to 23. The strong Kappa Sigma team showered Chi Psi under a 35 to 3 score, and Friendly Hall won a close battle from Bachelorlon 12 to 11.

The S. A. E. team retained its reputation by winning an easy game from Sigma Chi. The game at the end of the first half stood 23 to 3, but the Sigma Chi team speeded up in the second half, making the final count 34 to 14. Palmer starred for Sigma Chi, while Crandell and Moores showed the best stuff for the S. A. E. quintet.

The Phi Sigma Pi team led in the game with the Oregon Club No. 2 till the final minute of play, but baskets by Veatch and McCallum nosed them out, the final count being 29 to 23. Meyers and McCallum shone for the winners, while Young played good ball for the losers.

The experience and team work of the Kappa Sigma team proved too much for Chi Psi, who were snowed under, the final count being 35 to 3. Roelley for the winners was easily the star of the game. Thomas, who threw the one Chi Psi basket proved most effective for the losers.

Friendly hall came out with a one point lead in the game with Bachelorlon. The game was fast and full of fight from the start, with the dormitory men always holding a slight lead. Martinson and Saucier played good ball for Friendly hall, while Clark stood out for the Bachelorlon team.

WOMEN ART STUDENTS TO HAVE DISPLAY ROOM

Department Will Show Work Done by Girls

In the effort to create more interest among the women students in the art department of the University the instructors in the department are planning a display room which shall be set aside for the exhibition of the work of their efforts and it is hoped that this will awaken a special interest in the department courses that are offered.

Such subjects as dress design and home decoration include much that is of value to every girl. The name of the former explains it; the latter includes a study of silver, and pottery, with reference to design and history of each, furniture, studied as to periods, rugs, textiles, and house plans. Part of the time is spent in visiting some homes in the town to examine samples of various articles studied in class. These courses are open only to upperclass women, while the technical study of design and the crafts of basketry and weaving are for the students in the lower division.

The work of the department is in charge of Miss Mamie Kerns, who instructs the class in home decoration, and Miss Victoria Avakian, instructor in dress design. Miss Kerns is a new member of the University faculty this year. She was formerly instructor in Seattle high schools and in the summer session at the University of Washington.

A. S. U. O. DANCE SUCCESS

Homecoming Hop to be Next Big Student Body Affair

The second student body dance of the year attracted 775 couples to the Woman's building, Friday night, according to Art Campbell, chairman of the student dance committee.

The proximity to the first dance was due to the fact that there was no other date available this term for a Student Body dance. So many other affairs, such as house dances and the sophomore dance are to be held, that this dance had to be Friday or not at all. The next one will probably take place on the first Friday of next term.

Since the student body is allowed eight dances a year, including the Homecoming dance, five dances are anticipated during the next two terms.
