

CHI PSI, SIGMA CHI, AND OREGON CLUB NO. 2 WIN

Games Are Between Squads Low in Percentage

TEAM PLAY NOT SPEEDY

Three Fast Contests on Monday Schedule

The three games of the doughnut series, played last night were between teams in the second division of the league, but notwithstanding this fact they were close and interesting. The gym was cold which may account for the general slowness of the playing. Sigma Chi won from Beta Theta Pi 19 to 12, Oregon Club No. 2 trounced Sigma Nu 11 to 7 and Chi Psi beat Phi Sigma Pi 14 to 10 in five minutes overtime.

The contest between Beta Theta Pi and Sigma Chi was close with Sigma Chi maintaining a slight lead throughout. Phillips for the losers put a couple of sensational long shots through the basket. Byler and Burton showed the best stuff for Sigma Chi.

The Oregon Club No. 2-Sigma Nu game was slow, with both sides missing many easy shots. Meyers and Veatch for the winners proved the most efficient scorers, while Campbell for Sigma Nu handled the ball well. The score was very low, the game ending 11 to 7.

The game between Chi Psi and Phi Sigma Pi ended in a 10 to 10 tie at the end of the 30 minutes playing time, but in three minutes overtime Chi Psi snapped out of their lethargy and dropped in two baskets. Oliver and Gant starred for Chi Psi, while Young played practically the whole game for Phi Sigma Pi.

Three games scheduled for Monday afternoon, all of which are between strong teams and will probably be the best games scheduled on the same day during the series. The first, to be played at 4 o'clock, is between the A. T. O.'s and S. A. E.'s who stand third and fourth in the league. The second at 4:40 is between Kappa Sigma and Delta Tau Delta, and the third at 5:15 is between the two Oregon clubs.

Y. W. BUNGALOW TO HAVE ADDITION TO MAIN ROOM

Building to be Extended North; New Part to Have Glass Doors and Fireplace

Plans for enlarging the Y. W. Bungalow are under discussion by the Y. W. advisory board as the Bungalow, as it stands now, is far too small to serve adequately the many needs to which it is put.

The association owns 20 feet of ground directly north of the present site and it is planned, as soon as a way is found to raise the necessary funds, to enlarge the main room, building out on this ground so that the new addition could be shut off from the main room with large doors, thus permitting the extra room to be used for committee meetings and rest rooms. The plans include another fireplace in the new addition.

Over 600 girls are enrolled in Y. W. C. A. this year and more are taking an active interest in the work than in past years. Regular Y. W. meetings are held in the Bungalow every other Thursday and lack of space makes it impossible for all the members to attend.

The Y. W. C. A. is not the only organization that is served by the Bungalow for the French, Spanish and Oregon Clubs and the Student Volunteer band hold their meetings there.

OREGON MAN WINS AT TECH

Eyler Brown Captures Scholarship Valued at \$300

Eyler Brown, '16, of Eugene has recently been awarded a scholarship at the Massachusetts Institute of Technology where he is a fifth year student. The award was given for the best problem of a soldier's home, which consisted of 19 buildings, submitted in

a competitive contest among the fifth year students. As the students in this class all have exceptional ability the achievement of Mr. Brown is regarded as especially noteworthy. The scholarship amounts to \$300. Mr. Brown expects to be graduated from the institute this year.

Last year Walter Church, '16, won the highest possible award for his work. Oregon students have a uniform record of high scholarship at Massachusetts Tech.

MRS. THACHER AND UNDERWOOD DELIGHT

(Continued from page one)

fect tonal beauty which was never sacrificed for any stage effects as is so often the case with mediocre violinists. Mr. Underwood's tone and tremendous technique were combined in both the "Preludium" which embodied certain reminiscences of Bach and in "La Gitana" by Kreisler. Great credit is due to the violinist who can play such technical works as these, with such feeling and interpretation.

The "Chanson Meditation" by Cottenet was full of gorgeous melodic effects. One wished to forget the performer, to close ones eyes, to be transported to a different world.

Particularly interesting in the second group were the two movements of the Mendelsohn Concerto. Characteristically delightful things, though, could be said of each of the other numbers. A fitting final encore was the Kreisler "Songs My Mother Taught Me" which left the emotional impression suggested by the title.

"DOUGHBOY" GIVEN FOCH

Miniature of Fairbanks' Statue is Presented to Allies' Leader

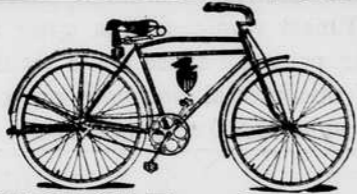

Marshall Foch was presented with a miniature replica of Avar Fairbanks' "Doughboy of the Great War," last night in the Portland armory.

Fairbanks is instructor in modeling in the school of art. His "Doughboy" has been designed by the Idaho legislature as the official memorial for that state.

The presentation was made by Julius Meier, exposition chairman, in behalf of the state of Oregon.

The statue stands 13 to 14 inches high and is of bronze.

REX

Soiled, muddy shoes? That's where you lose, appearances will tell.

Here in this chair I'll put a glare upon them something swell.

I'll also fix those yellow kicks and make them black as night;

No acids used, no shoes abused, with black I treat you white!

Each pair I shine is right in line with patent-leathers, pard!

Selected stock that none can knock, so keep this little card—

It points the way to the only kinds:

They are the **Right-way Real.**

OREGON CLUB SMOKER TONIGHT

There will be a big smoker given at the Y. M. C. A. Hut on Saturday night to those in charge there will be plenty to eat, drink and smokes will be also furnished. A number of good, fast boxing bouts will be on the card and a number of other events during the evening. According to those that are instrumental in putting this on this will be a good chance for all men not connected with a living organization on the campus to get together and get acquainted.

"Follow the Trail"

DEAN STRAUB followed the trail the other day. We caught him looking in the window at the peanut brittle. It was selling at our special price of two bits a pound so we charged off the quarter and gave him a box. He said it was the best he had ever tasted.

Now we aren't trying to sell you peanut brittle, because, frankly, we don't like the stuff ourselves—what we started to say is that the good Doctor liked the brittle so much that he told us both we belonged to the "best freshman class that ever entered the University."

Get Rid of That COLD

And Put Your Self in Good Physical Condition

Like any man out in the business world you must make every minute count if you are to get ahead. In order to do this you must be efficient and in order to be efficient you must be in the best of bodily condition.

That is necessary if you are going to be successful in your studies and in the coming exams.

So, we repeat, get rid of that cold.

Our methods of treating colds and throat troubles is different and is more quickly effective than the old system.

Get into good condition by taking our treatments.
