The Fijis have finally lost a game of basketball, the A. T. O. team winning by a score of 18 to 15. The losing of this game means that the doughnut basketball league will not be discontinued for many of the other teams now have a chance to come out in the lead. Brocker scored the most points for the winners while the floor work and basket shooting of Schaeffer for the losers was very noticeable.

Another close game was played between the Kappa Sigs and Oregon Club No. 2, the Kappa Sigs finally winning by a score of 18 to 13. Rockney played a good game for the winners and most of the points were credited to him while Meyers of the Oregon Club starred on the floor and in basket shooting.

Games to be played today:  
Chi Psi vs. Phi Delta Theta at 4 o'clock.  
Sigma Chi vs. Delta Tau Delta at 5 o'clock.

### BUILDING MAY BE MODEL

#### Plan of Women's Gym May be Copied in Eastern University

A picture of the woman's building of the University, and a statement of the contents, is asked for in a letter from the president of the University of Missouri, which has been received by Missouri P. L. Campbell. The University of Missouri is in possession of funds with which to build a modern woman's building. The building on the Oregon campus has been highly recommended as a model by Dr. Howe of Wellesley college, who says in a letter to the president of the University of Missouri, "The woman's building at the University of Oregon is one of the finest if not the finest building of the kind in the country."

### OFFER MADE BEZDEK

(Continued from page one)

football coach, to the executive committee until the early part of next week, may mean that Hugo Bezdek will return to Eugene.

"During his stay in Portland, it is known that Bezdek was made an offer to return to Oregon and the great mentor declared that he would not make any decision at this time. He, however, expressed a desire to get back to his "home" state, as he was getting a bit weary of the keen competition of Eastern football circles.

"The university alumni committee, which conferred with Bezdek, has not made public the offer made Bezdek, but with a coach of his prestige and caliber, the Oregon athletic council could well afford to pay him that amount, for he alone would attract hundreds of fans to all contests.

"A university that is successful in athletics is the one which draws the students. This has been proven. Take California for instance. The Bears are grabbing off all the big stars in California scholastic circles because of its prestige, because of the success of the

football team during the past two seasons in the coast conference.

"Old Man Mars was responsible for Bezdek's failure to return to the University, but fate took him away from Oregon, but there is every indication that his heart, which has a warm spot in it for the Eugene campus, may bring him back.

"Bez has gained all the glory he wants. He has feathered his nest, so to speak, and is now anxious to settle down in Oregon. Mrs. Bezdek, he says, also wants to return to Oregon."

### YELL COMPOSED BY '85-ER

#### "On, On, On, Oregon" Suggested by Dan Bass of Seattle for Football

From Dan W. Bass, who was graduated from 1885, and still is full of Oregon spirit, comes a suggestion for a new one-line yell to be given when the team is within a few yards of the enemy's goal line. It is "On, On, On, Oregon." At that time in a on, on, on yell is disturbing; the situation is too tense for more than one line. Mr. Bass believes that his yell has a lot of volume for its length and is full of the stimulus needed at that point in the game.

Mr. Bass gave a copy of his yell to Dean Dymment and a party of Oregon men he overheard talking on the Southern Pacific train not long ago. He told them that for years he had been looking for an Oregon man, to whom he might pass on the yell he thought of a long time ago. At present Mr. Bass is manager of the Frye hotel in Seattle.

### 5 NATIONS REPRESENTED

A cosmopolitan club might well have been formed by a group of persons who dined at Hendricks hall Sunday evening, for Turkey, Armenia, India, England and the United States were represented as the birthplaces of those at the tables. And while one of the guests, Miss Margaret Reid, cannot claim any of the foreign lands as her birthplace, she has the distinction of having spent the past two years in relief work in India. Mrs. John Leader calls India her native land; Ann Karagozian was born in Armenia; the parents of Miss Evelyn Underwood, a freshman living in the hall, were in Turkey at the time of her birth; and Miss Josephine Evans, also a freshman, made her entrance into the world in London. Miss Talbot, head resident, Miss Ella Rawlings, and Miriam Dubivar are all Americans, though even in this each represents a different state—Michigan, Arkansas, and Oregon respectively.

### HUMOROUS MAGAZINE MAKES FIRST APPEARANCE AT W. S. C.

Washington State College, Dec. 7.—(P. I. N. S.)—The first issue of the Cougar's Paw appeared on the campus last week. This is a magazine devoted to humorous stories, jokes, cartoons and the like. This is the first literary production of its kind to appear on this campus and was well received by the students.

### NOTED CHRISTIAN WORKER ASKED TO VISIT CAMPUS

#### Suzanne Bidgrain, of France, May Come Next Month

Effort is being made by Dean Elizabeth Fox to get Suzanne Bidgrain, secretary of the World Student Christian Federation and formerly general secretary of the French student movement, to come to the campus January 22. Miss Bidgrain, formerly from Paris, is touring the United States and Canada addressing college students in interest of the world federation of students which plans to do for the students in all of the Christian colleges in the world what the Y. W. C. A. and Y. M. do for the students on American campuses.

Dean Fox met Miss Bidgrain in Chicago in 1910, as this is her second trip to the United States. They were also closely associated while in Europe when for a month they visited French universities together. Dean Fox is particularly eager to get Miss Bidgrain to come to the Oregon campus and if it is possible for her to come she will address the University students at vespers January 22. Dean Fox could not speak too highly of Miss Bidgrain and she said "Suzanne Bidgrain is perfectly wonderful and I do hope that we can get her to come to our campus." A telegram was sent last night urging her to come, but a reply has not yet been received.

Miss Bidgrain is an extremely well educated woman as not only has she studied in France and Germany, but she holds a degree from Glasgow. She has addressed students in all parts of Europe and if she comes to Eugene it will be only a short stop on her way from Vancouver, B. C. to San Francisco from where she will sail to the East.

### FELLOWSHIP IS OFFERED

#### Wellesley College Association Makes Fund Available for Graduate Study

The Wellesley college alumni association is offering for 1922-23, the Susan H. Hallowell fellowship, which is available for graduate study, in candidacy for the M. A. degree at Wellesley. This fellowship of \$350 is in honor of Wellesley's first professor of botany, and is open to any college graduate of good standing. Preference is given to aspirants who have rendered service or demonstrated their powers along this line.

Aspirants should submit their applications before March 1, to Laura Dwight, alumnae general secretary, Wellesley college, Wellesley, Mass.

### PROGRESSIVE SHOE SHOP

### PILAR INCLINE CITY OF BAHIA, BRAZIL

BAHIA is divided into an Upper and a Lower City. One section is on the top of a cliff—the other extends between the foot of the cliff and the waterfront.

Four Otis Electric Elevators in two large vertical towers and the Otis Incline Railway pictured here, carry the people and freight up and down the cliff. The Incline Railway is built at an angle of 40 degrees; there are two cars working alternately, each with a capacity of 20 people and 1500 pounds freight and the trip is made in 90 seconds.

Otis engineering has successfully linked these two parts of Bahia. This achievement, big as it is, is but one significant detail of the world-wide service given by Otis.

Most of the famous structures of the world are equipped with Otis Elevators.

## "a thick, juicy steak---

Cut from the loin of a choice steer beef right at the point where the tenderloin is thickest—broiled over live coals or under the flame of a gas range so that the outside is quickly seared over to retain the natural juices of the meat, and the inside a delicate pink—salted and sprinkled with dabs of butter—served on a hot platter with sprigs of parsley.

A generous cut of the meat, with a baked potato bread and butter, a salad, perhaps and coffee— well, there's a meal for a man, my son—a meal for man."
