

7469 NEW BOOKS ADDED TO UNIVERSITY LIBRARY

Total of 185,400 Volumes Issued During Past Year
APPROPRIATION IS ASKED
Many Works Required For Research Material

Seven thousand four hundred sixty nine volumes, totalling an expenditure of \$4,576.71, have been added to the University library during the past year, according to the report of M. H. Douglass, librarian, which was recently submitted to President Campbell. This brings the total number of accessioned books in the library to 106,649. This number is exclusive of the Penton Memorial collection of law books, a large number of other unaccessioned books, and all books that have come into the library since the first of the year.

According to the report 185,404 books were issued by the library in the year 1921. Of this number 134,255 volumes were issued from the reserve department to be used for class assignments; 46,887 were issued by the circulation department for home use, and 3,989 books were checked from the circulation desk in the form of "temps" that were returned to the desk after being read in the library.

36 Per Cent Increase Seen
These figures represent a 36 per cent increase over the total number of books issued during the year 1920, a 72 per cent increase over 1919 and 160 per cent more than the total for 1918.

In 1921 \$7,527.78 was requisitioned by the administrative office for the library. This sum does not include the salaries paid the regularly appointed librarians and their assistants, but it includes student assistants, periodicals, binding, research material, law books, supplies, equipment and postage.

Mr. Douglas shows in the report that this sum does not compare favorably with the amounts issued in former years. In 1920 the library was allowed \$12,091.39, in 1919 \$10,070.84 and in 1918 \$12,623.23 was requisitioned to defray library expenses. He points out the fact that since the board of regents in 1909 voted to expend \$10,000 annually for books, periodicals and binding, there have been very few years when an amount even nearing that total has been allowed. He further states that since the time this amount was granted there has been an increase of 270 per cent in student enrollment, an increase of 70 per cent in the number of courses offered and an increase of 579 per cent in the state appropriations to the University, but no increase in the appropriations for books, binding and periodicals.

Appropriation is Sought
In view of these facts Mr. Douglass asks the board of regents for an appropriation of \$30,000 for the year 1922, in order that there might be a substantial increase in the library staff, and a great increase of material for research work as well as a much larger number of books and periodicals. He places great emphasis on books for research work, saying that the increasing work being done by faculty members and graduate students necessitates the library procuring a great deal of material. No real provision has yet been made for supplying these needs.

The practice of assigning class reading in reserve books during the past year has greatly increased the number of students for whom reserve books must be provided. This is another great drain on the library funds and another reason for the addition budget asked by Mr. Douglass.

Memorial is Mentioned
Further in the report is mentioned the contributions made the Pauline Potter Homer Memorial collection during the past year. This memorial is a selection of exceptionally fine and beautiful books. Many other books were donated to the library by faculty, students and townspeople.

Another interesting item in the report is the progress made during the past year in developing of exchange relations with other institutions. The establishment of the University's research series of publications has given the library something to offer in exchange for publications of other universities. Among those entering into exchange relations are a number of European universities.

An illustrated lecture "Phallic and Solar Religions" for the men of the faculty Wednesday evening, Jan. 18, Room 107, Oregon hall, Frederick S. Dunn, auspices of department of Psychology.

CLASSIFIED ADS

Minimum charge 1 time 25c, 2 times 45c, 3 times 65c. Must be limited to 3 lines, over this limit, 5c per line. Phone 981, or leave copy with Business Office of Oregon Daily Emerald. Payment in advance. Office hours 1 to 4 p. m.

WANTED—Housework of any sort: cooking, cleaning, washing or ironing. Can do some students' laundry at home. Charges reasonable. Mrs. Larson, 60 East 11th St. 69-119-5

WANTED—Someone with beginner's knowledge of shorthand to join private class. See Rachel Husband, geology department, Ad building. 73-118-2

LOST—Silver oversharpened Name Jean V. Perry engraved on it. Finder phone 107. 74-118

VIBRATION IS TOPIC OF SCIENCE CLUB MEETING

Dr. Milne Tells Results of Research; Members Take Part in Discussion of Hydraulic Exertion

Vibration is an important factor in many machines in music and in scientific instruments such as the torsion balance, and in hydraulic engineering, according to Dr. W. E. Milne, professor of mathematics, who delivered a paper on the subject of "Damped Oscillations" before the Science club last night in Deady hall.

Dr. Milne revealed the results of recent research in damped hydraulic oscillation in the forms of mathematical formulae. The formulae of un hindered oscillations such as those in pendulums and musical instruments have all been previously promulgated mathematically but Dr. Milne's work is on a phase of vibrations hitherto given little investigation.

In water turbines it is common to find a surge tube directly above the turbine to accommodate the surplus inertia and under certain conditions the pressure exerted in this surge tube is expended in the form of oscillations, according to Dr. Milne. To formulate equations concerning the various forces in such hydraulic turbines and their manner of exertion formed the basis of Dr. Milne's investigations.

The meeting was attended by a large number of faculty members of the science and mathematics departments who engaged in a discussion on the results of the research after the address.

ored and venerable organization plans to put on an informal, dateless, dance at Whitman next month.

FRATERNITIES STAND HIGH IN SCHOLARSHIP AT O. A. C.

Oregon Agricultural College, Corvallis, Jan. 17.—(P. I. N. S.)—That O. A. C. is one of the four colleges and universities among 50 of the leading institutions in the United States whose fraternity scholastic average was higher than the general average, was shown by Herbert W. Congdon of New York, general secretary of Delta Upsilon, to an audience of fraternity men in the women's gymnasium Thursday night. Mr. Congdon was here to take part in the installation of Gamma Tau Beta as the 47th chapter of Delta Upsilon. The work of the O. A. C. interfraternity council has been copied in a number of other colleges, he said.

staff for the last 31 years, died of pneumonia last night. In respect of his memory, all Friday and Saturday classes are cancelled and the two basketball games which were to have been played with Davis Farm Friday and Saturday night, have been called off.

HISTORIC TREE IS DESIGN FOR SENIOR TABLE AT O. A. C.

Oregon Agricultural College, Corvallis, Jan. 17.—(P. I. N. S.)—The famous old "trysting tree" of the campus—the place where countless young men and women of years past held their secret meetings to discuss affairs of the heart—is to be immortalized. It has been selected as a design for the traditional senior table top, to be installed at a local restaurant.

SCARLET FEVER AT WHITMAN DRIVES BETAS FROM HOME

Whitman College, Walla Walla, Wash., Jan. 17.—(P. I. N. S.)—"And they wander broadcast, like unto lost sheep." College life has taken on a new angle for some 20 or more men at Whitman college. A sudden and quite unlooked for case of scarlet fever breaking out in the Beta Theta Pi house here has caused its being quarantined, resulting in the members being minus house and home for the next few weeks, while the lone occupant and nurse will dwell in royal sovereignty.

BEARS TO PLAY ST. IGNATIUS AS OPENING GAME OF YEAR

University of California, Berkeley, Cal., Jan. 17.—(P. I. N. S.)—Calif-

ornia will officially open the 1922 basketball season of the bay region tonight when the Bear quintet meets the fast St. Ignatius team in San Francisco. The game will undoubtedly be stiff for such an early season affair. St. Ignatius has one of the fastest and smoothest working scoring machines in the bay district and is comprised of a group of former college men and athletic club stars.

NEVADA GRIDSTERS MAKE HIGH GRADES IN STUDIES

Reno, Nevada, Jan. 17.—(P. I. N. S.)—Though they missed, due to trips to other colleges, nearly two weeks of actual school work, the football varsity men averaged 2.75 in their studies last semester.

Invest Direct To Obtain a Good Return From Vital Properties That You Can See

DO NOT LET National Thrift week pass without giving thought to one of the best home investments that you can make.

This is an investment in your city's growth through the extensions of its public utility facilities.

JANUARY 17TH is the birthday of the pioneer of the electrical industry in the United States—Benjamin Franklin.

Franklin, master of thrift and sound investment, if he were alive today would tell you to invest in public utility securities.

A Safe and Satisfactory Investment
Ten Year Gold Notes
Mountain States Power Company
Paying the investor 8 per cent a Year in 2 Cash Dividends

Anyone who can save a few dollars a month can become a part owner of this Company and share in its dividend disbursements—the wages paid to capital.

OUR PARTIAL PAYMENT PLAN for investing is simple, convenient and profitable, paying you 6 per cent interest from the first installment—the full dividend rate when installments are completed.

Real public ownership of this Company is being realized by the investment of citizens in our Gold Notes.

This and the other companies receiving the services of the Byllesby Engineering and Management Corporation now have upwards of 30,000 home investors.

We shall be glad to add your name to the list.
