

RESEARCH WORK AIDED BY UNIVERSITY FUNDS

Seventeen Projects Assisted; Three Now Complete

Approximately \$2108.66 of the \$5000 allotted by the board of regents for research work has been expended, according to the annual report of the research committees, issued by Dr. E. L. Packard.

The seventeen pieces of research granted financial support are The Thermo-Electric Properties of Metals; A Survey of County Archives in Connection With Problems of Northwest History; A Study of a Paralyzed Subject with Special Reference to Sound Localization; Attention Value of Headlines; Geography Tests; A Study of the Office of Public Defender; Tables of Oscillatory Motion; The Trigonidae from the Pacific Coast of North America; A Miocene Cetacean from Newport, Oregon; Catalogue of the State Archives of Oregon Relating to Education; A High School Survey of Oregon; Factors Governing the Growth and Differentiation of Tissue Elements; A Study of Workmen's Compensation Laws of Oregon; Standardization of Group Tests; Voluntary Control; The Nature or Classification of Organic Non-Electrolytes and Correlation of Organic Esters and Inorganic Anhydrides. Three of these have been completed, two of them published and several others are nearing completion.

In regard to the delays in many sections of the work Dr. Packard says, "Various factors have conspired to prevent complete use of funds allowed the committee. Owing to the resignation of Professor Larremore and the ill health of Professor Warner, \$650 reverted to the committee unused. Other projects have been retarded because of the lateness of the assignment last spring; because of unforeseen demands on the researcher's time; and because of suggestions from the administration that research expenses be deferred if possible until 1922."

The men who are actively engaged in research work are: Dr. A. E. Caswell; R. C. Clark; Dr. H. R. Crossland; Dean C. V. Dymont; Dr. C. A. Gregory; Dr. W. E. Milne; Dr. E. L. Packard; Dr. H. D. Sheldon; Professor F. L. Stetson; Dr. H. B. Torrey; Dr. R. H. Wheeler; Dr. R. J. Williams and J. L. Whitman.

RIFLE SHOOT TO BE HELD WITH DREXEL INSTITUTE

New Winchester Guns Assure Better Results, Says Lieut. Knowles; Ten Men on Team

The University of Oregon R. O. T. C. rifle team will hold a competitive telegraphic rifle shoot, during the week ending February 2, with the Drexel Military Institute, Philadelphia, Pennsylvania.

The firing will be done with the new Winchester rifles, eight of which were secured by the Reserve Corps for firing on the range. Lieutenant Knowles, coach, hopes for better luck with the new rifles in the coming meet than was experienced with the old-style guns used in the shoots with California and O. A. C.

As an instance of the accuracy of the new rifles Lieutenant Knowles cited the case of James A. Meek, a member of the team, who shot 42 consecutive bulls-eyes out of fifty possible shots, or as registered in the point system, 210 shots out of a possible 250. Each bulls-eye counts five points.

In the meet with Drexel Institute, ten men will fire, but the five highest scores only will count. The ten men composing the team are: W. H. Durham, E. F. Sloan, J. A. Meek, G. T. Gant, C. L. Heider, H. Bonebrake, E. Biggar, T. N. Page, A. M. Wilhelm, Don Zimmerman; and the four selected as alternates are: P. Lasselle, H. L. Green, J. W. Homewood, and V. E. Bullock.

GLASS CASE PRESENTED

Sculpture Club Makes Gift to Hold Art Collection

At a meeting of the Sculpture club this afternoon the members voted to give the first glass case needed to hold the art collection just given to the University by Mrs. Murray Warner of Eugene. A number of cases will be needed before the collection can be placed in the Woman's building and the Sculpture club is the first organization to offer one. The students plan to make the money to buy the case in a number of novel ways, one of which will be by making smocks for art students and offering them for sale soon.

In making this gift the Sculpture students wish to express their appreciation of Mrs. Warner's gift which will be of especial benefit to students in the school of architecture and allied arts. It is hoped that their gifts will encourage similar ones from other organizations on the campus.

JUNIOR CLASS TO MEET

An important meeting of the junior class is called for 4 o'clock Friday afternoon in Villard hall, to discuss the junior week-end question which has caused so much discussion on the campus recently. It is hoped by the officers of the class that some conclusion will be reached as to which features, if any, of the annual festivities shall be abolished and to what extent the week-end shall be continued as a campus tradition. All members of the junior class are urged to be on hand.

DOUGHNUT HANDBALL TOURNAMENT BEGINS

Sixteen Houses Enter in Competition; Teams Divided Into 2 Groups; Eddie Durno is Coach

The doughnut handball tournament, one of the new activities for intramural competition, is now being conducted every afternoon under the direction of Eddie Durno, of the physical education department.

Sixteen teams are entered in the competition and these have been divided into two groups. Group A consists of S. A. E., Beta Theta Pi, Kappa Sigma, Sigma Nu, Friendly Hall, Chi Psi, Pi Gamma Delta, and Oregon club No. 1. In Group B are Phi Sigma Pi, Phi Delta Theta, A. T. O., Delta Tau Delta, Kappa Theta Chi, Bachelorlon, and Oregon Club No. 2. Each of these organizations have men representing them both in the singles and the doubles.

The singles elimination contests began last Wednesday and the results up to yesterday afternoon were as follows: S. A. E. defeated Beta, Oregon Club No. 1 was victorious over Friendly hall, A. T. O. triumphed over Bachelorlon, and Kappa Theta Chi defeated Phi Sigma Pi. Winners of the first round will meet each other in round robin series to determine the champion of the doughnut league. As soon as the singles are completed the doubles will be played.

According to H. A. Scott, head of the physical education department, games should not be scheduled during the hours of 11:30 to 12:30 a. m. and 5:15 to 6:00 p. m. as these hours are reserved for the faculty.

FEWER STATE-AID MEN REGISTERED THIS TERM

211 Sign Up as Against 230 Last Quarter; 41 of Total are Seniors; Juniors Have 85 Enrolled

The opening of the winter term reveals an approximate decrease of 19 men who are receiving state aid. Last term there were about 230 state-aid men on the campus, there being but 211 registered this term. Of this 211, 41 are seniors, 85 juniors, 31 are sophomores and 19 are freshmen. Seventeen are registered as special students, and 18 as graduates. Of the 280 undergraduates registered, the school of business administration claims more than any other school.

Three state-aid men have registered in the university for the first time this term, and only the return of many state-aid men of former years prevented this term's enrollment from falling lower than it did. As the new term on the medical campus at Portland does not open until February, statistics are not yet available as to the number of state-aid men in the medical school. Approximately 48 were registered in the school at the opening of the fall term.

There are practically no state-aid men now registered in the extension division at Portland, because most of the men found it more profitable to take advantages offered in the new bonus law, by the soldier's bonus and loan fund, rather than take less money and attend school where they were able to attend only part time.

BOOK CLUB TO ENTERTAIN

Silver Tea to be Given Saturday; Proceeds to Form Loan Fund

The Monday Book club of Eugene is giving a silver tea next Saturday from which money is to be set aside as a loan fund for college women. The organization of the Federated Clubs of Oregon is behind this movement which will extend loans to college women without interest.

The silver tea will be held in the Alumni room of the Women's Building next Saturday, January the 21st from 2:30 to 5 P. M. and it is the hope of the Club that a large number will be present at the tea. Several musical numbers are to be provided by members of the school of music.

The committee in charge of the tea is composed of Mrs. A. L. Ingalls, Mrs. A. G. Barker, and Mrs. J. B. Bell.

SEED BROUGHT FROM ATHENS

W. E. Rambo, former Oregon minister, recently associated with the Near East Relief, in a visit just made to the campus, brought with him some cypress seeds that he picked up in the modern stadium at Athens, the place where the first Olympic games were held. Mr. Rambo brought the seeds to the campus with the idea that they could be planted here, the climate on the Pacific coast not being dissimilar to that of parts of Greece. Cypress trees are rare in this part of the country and would be of interest for that reason as well as for their historic value.

BILL JOHNSON GOES HOME

Due to unexpected business affairs, Bill Johnson, president of the sophomore class, left for his home in Portland yesterday to be gone for the rest of the semester. His withdrawal from school came as a surprise to the campus. He expects to return to school next term.

AGGIE FINANCE STRONG

This year's football season has been the biggest financial one that the Oregon Aggies have ever had, according to the report given the board of control by J. J. Richardson, general manager of student affairs at college.

OREGON CLUB LEADS IN DOUGHNUT DEBATE

Zeta Rho Second in Race For Zeta Kappa Psi Cup

Standing of Teams in Women's Doughnut Debate:
Oregon Club 6 Points
Zeta Rho 5 Points
Hendricks Hall 4 Points
Susan Campbell 1 Point

The above score is the result of the preliminary debates of the Women's doughnut series, held Tuesday, one point being counted for the vote of each judge and one additional for victory. The question debated was: Resolved, that the principle of the open shop should be adopted by American Industries.

The Zeta Rho affirmative, upheld by Florence Furuset and Pauline Tompkins, lost to Hendricks Hall negative, which was upheld by Mildred Crain and Helen Purdum, 1-2. Zeta Rho negative represented by Elsie Hildebrand and Edna Largent, won from the Susan Campbell team, composed of Irene Kendall and Irene Rydman, 3-0. Hendricks Hall affirmative upheld by Katherine Kressman and Esther Stricker lost to Oregon Club negative, represented by Genevieve Jewell and Blanch Ross, 1-2.

The Oregon Club affirmative team, composed of May Fenno and Adelaide White won from Susan Campbell negative, represented by Marie Millingren and Frances Simpson, 2-1.

The Zeta Kappa Psi cup offered to the victorious team in the final debate of the series is to be held for one year only and during this week it will be on exhibition in the library.

The teams will meet with Professor Thorpe in room 5 of the Commerce building just preceding the debates to be held Thursday evening at 7:15. After these debates two teams will be eliminated and those remaining will participate in the final debate which will probably be held next Tuesday afternoon.

TERM ENROLLMENT 1904

(Continued from page one)

were 202 new students from high schools outside of Oregon. Washington sent 63, the largest number. California has 44 entered here, and Idaho is next with 15. Eleven students come to the University from schools outside the United States or from territorial possessions. Of the 830 new undergraduates accounted for, 150 had college work before coming to this University.

150 With Previous Training

A grand total of 150 students, 81 women and 69 men, have come here from other universities and colleges. From the University of Washington there were last term 26 new students. From O. A. C. there were 19 recruits, and 15 from the University of California. Willamette University sent 14, and Reed College 6.

Into the graduate school there were admitted 21 new students at the beginning of the year. There are representatives from European institutions as well as students from colleges of the Orient. The Far Eastern University at Vladivostok and the Peking University each have a student entered. Another student hails from Marseilles. The only school from which there came more than one student is Columbia University, New York, which has two representatives. Of the total of 21 there are eight women and thirteen men. These together with the 830 others make a grand total of 851 new students entering at the fall term 1921.

The medical school in Portland reports that their total enrollment for the fall term 1921 was 154. This is an increase of 22 over their registration there last year. They have 138 men and 16 women. During the fall term of the present year the graduate school had a total enrollment of 64 students, 36 men and 28 women. In the Portland extension there were 42 students working toward graduate degrees, 18 men and 24 women. In Eugene there were 11 graduate students majoring in education. This was the greatest number in any one department. The school of business administration had 7, rhetoric 6, psychology 5, and chemistry 4.

In respect to the amount of instruction given in the University the department of romance languages ranks first. Following in the order of number of term hours credit given are business administration, rhetoric and American literature, hygiene and physical education, economics, and English literature. Next in order are education, chemistry, zoology, history, architecture and applied arts, psychology, music, mathematics, German, law, political science, military science, journalism, botany, physics, geology, drama and speech arts, sociology, philosophy, household arts, Greek, Latin, and mechanics and astronomy.

In respect to the number of students who have chosen advisors from the departments, they rank as follows: business administration 425, pre-medics 147, English literature 148, journalism 142, law 113, architecture and allied arts 109, education 106, physical education 104, music 85, romance languages 72, rhetoric 64, economics 62, pre-engineering 56, history 51, drama and speech arts 41, chemistry 37, botany 32, mathematics 32, geology 32, zoology 24, sociology 22, psychology 22, household arts 14, Latin 9, German 6, physics 6.

BEST MUSIC

(Continued from page one)

Mrs. W. M. Case, Marion Linn, Mrs. A. C. Dixon, Eloise McPherson, and Mrs. C. Whitten. "Shoogy-Shoo," a melodious Irish swing by Mayhew, said to be ideally arranged for a double quartet, and "O' Mammy-Coon," a typically southern selection, will be given.

And Some Chopin
Dorothy Dickey, pianist, will play "Scherzo B Flat minor, one of the favorites of Chopin, at this time. Miss Dickey has proven very popular as a pianist of merit, and is particularly known for her interpretation of classical compositions.

Mu Phi Epsilon, national women's musical fraternity, was installed on the University campus in 1913, and is composed at present of the following active members:

Lora Teschner, Alberta Potter, Margaret Phelps, Beulah Clark, Imogene Letcher, Esther Wilson, Annabel Denn, Dorothy Dickey, Helen Harper, Florence Garrett, Mildred Smith, Marion Linn, Eloise McPherson, Mildred Hall, Bernice Altstock, Leona Gregory, Madame McGrew, Mrs. Thacher, Miss Beck, Mrs. Douglas, and Mildred Brown.

Everybody to be There
Karl Onthank, secretary to the president, in speaking of the assembly said, "I feel that it is unnecessary to urge the attendance of the students at this assembly, as the talents and reputation of the members of the Mu Phi Epsilon is well known about the campus. The concert is sure to be highly appreciated by all who attend." Secretary Onthank urges that the students arrive early at assemblies, in order that the whole hour may be used for the program.

Sketching and Painting

In the work of the artist there is a decided difference between mere sketching and the final oil painting.

Like wise there is a great difference between snapping a camera at a posed subject and making a photo-portrait. The art of posing, development, retouch and printing all enter in. Because of our attention to these particulars we are able to turn out a superior photo-portrait.
