

## FACULTY TO DISCUSS SPECIALIST'S DEGREE

Certificate for Teaching May  
Be Granted by University

NO OPPOSITION EXPECTED

Candidates Must Complete  
Fifth College Year

That a specialist's certificate for teaching which is granted beyond and in addition to the general high school certificate based on four years of study in a higher educational institution, will be granted to certain persons who have received bachelor's degree from the University, is now a probability here, was made known yesterday by a special faculty bulletin. The motion to grant a specialist's degree will be made at a special meeting tomorrow afternoon, by Dean Sheldon and it is not expected that there will be much opposition to it.

The certificate is intended to become a recognition of special knowledge of the subject matter of the fields of which candidates desire to do their teaching, "and other things being equal, those persons having the specialist's certificate will receive preference recommendation for teaching positions in high schools," says the faculty bulletin.

The specialist's certificate as in the case of degrees will be authorized by the faculty and the board of regents, and will be granted by the University. A candidate may at the same time proceed to the master's degree.

The qualifications of the applicants as set forth in the motion to be made at the faculty meeting are as follows:

"Certain persons who have received the bachelor's degree from this University, and who thereafter continue in the University for another full year of residence, will be eligible to receive a Specialist's Certificate, for teaching, subject to the following conditions:

"Candidates for the specialist's certificate must have carried with an average grade of III a minimum of 48 hours of work in a major line of study, prior to the conferring of the bachelor's degree.

"They must have completed with an average grade of III at least two additional courses of graduate status in their major subject, per term, throughout their fifth year of university study.

"They must have completed at least 42 hours of work in their fifth year.

"They must have completed to the satisfaction of the School of Education of the University a minimum of 22 hours of pedagogy.

"The specialist's certificate will be granted only in the major field in which the foregoing requirements have been fulfilled; provided that nothing in these rules is intended to prevent a candidate's attempting to meet the requirements for the specialist's certificate in more fields than one."

## Y. M. C. A. PENSION PLAN ADOPTED ON CAMPUS

Retiring Fund Approved by Insurance  
Men; Secretary Putnam  
Favors Project

The Advisory Board of the University Y. M. C. A. at a recent meeting adopted the National Y. M. C. A. Retiring Fund Project, as applying to the University branch. The so-called retiring fund is organized on much the same plan as the pension service of many of the churches. The completed fund service will be set in motion probably by April 1, 1922.

According to L. P. Putnam, campus secretary, the plan has been in the main organized and largely approved by prominent insurance men of the country. As now arranged, the acceptance of the plan is optional with the secretaries and associations throughout the country, but of those who accept, the secretaries pay between 3 1/2 and 4 per cent of their salary and the association pays the same amount out of its income. If at any time a secretary desires to leave the Y. M. C. A. work, the money which he has invested in the fund is returned with four per cent compound interest. A secretary may retire at the age of 60, if desired, but must do so at the age of 70.

In order to launch this project it has

been necessary for the Y. M. C. A. to raise \$4,000,000 with which to pay the pensions of those secretaries who have or who will soon reach the retirement age. The work of raising the money is being done almost entirely by donation of large gifts by wealthy people. Mr. Putnam said in speaking of the fund, that the need for such an insurance was evident. "The Y. M. C. A. work is a service work," said Mr. Putnam, "and although a man receives enough compensation to raise and educate a family, yet still by the very spirit of the work, it is not a career in which a man can grow rich, or lay aside much to care for his old age. Hence it is only just that we provide for those who are no longer able to administer the work with the minimum efficiency."

W. W. Dillon was the Association delegate who visited the campus and spoke to the University Y. M. C. A. advisory council in the interests of the project.

## ENGINEERS TO CELEBRATE

March 17 Planned as Holiday by Many  
Colleges at California

Berkeley, Cal., Jan. 26.—(P. I. N. S.)—Following the custom of many of the large universities of the United States, the Engineering colleges of the University of California have planned an Engineers' Day for March 17.

They have secured a holiday from 11 o'clock on and special stunts, including an open house in all the colleges, have been planned. The colleges taking part will be: Mechanics, Chemistry, Civil Engineering, and Mining.

## REGENT TO ADDRESS GIRLS

Mrs. G. T. Gerlinger to be Guest of  
Dean Fox; Will Speak on Campus

Mrs. G. T. Gerlinger, member of the board of regents, will be the guest of Dean Elizabeth Fox Wednesday and Thursday of this week, and will address the women of the University, either through the Y. W. C. A., or through the Woman's League.

This will be the first time this year that the women of the University have had the opportunity of hearing Mrs. Gerlinger.

## W. S. C. FIVE BEATS BEARS

University of California, Berkeley, Cal., Jan. 26.—(P. I. N. S.)—The Washington State basketball five defeated the University of California in one of the fastest and hardest-fought games ever witnessed in the Northwest by the close score of 26 to 24 in the second of their two-game series. California won the first of the series, 21 to 15.

## OREGON CHEMISTS WILL MEET HERE FEBRUARY 25

Five Members of American  
Society in University

The University of Oregon has been selected as the place for the next regular meeting of the American Chemical Society, Oregon Section.

The meeting, to be held on the campus Saturday, February 25, will be a gathering of members of this state.

Of the 50 men in this section, five are associated with the University. These are Professor Frederick L. Shinn, Professor H. J. Tanner, Dr. Roger J. Williams, of the department of chemistry; Ford E. Wilson and Percy A. Lasselle, chemistry majors.

In a tentative program announced it has been planned to have a dinner at the Anchorage followed by the meeting at 7:45 in Villard hall.

## Motion Pictures to Aid

Two papers will be read, the first being the "Utilization of Pacific Coast Kelp" by Professor Tanner. Moving pictures of the government kelp beds at Summerland, California, will be shown to illustrate the address. The second paper will be "The Determination of the Acidic Property of Alcohol, and the Consideration of Esters as Acid Anhydrides" by Dr. Williams.

The American Chemical Society has a membership of more than fifteen thousand, and is three times as large as any other organization of chemists in the world. Included among its members are many of the most prominent chemists of America and foreign countries. Chemical knowledge and industry are fostered in every possible way, and its members are given every opportunity to keep abreast of the important advances made in chemical science.

## Three Journals Issued

For this purpose three journals are published. The Journal of the American Chemical Society, in which appear most of the American contributions made to pure chemistry as well as many accounts of the investigations and researches made by foreign scientists; The Journal of Industrial and Engineering Chemistry, which covers the application of chemical science to industrial and engineering uses; and Chemical Abstracts, a semi-monthly journal providing classified abstracts of all articles and reports of scientific chemical interest published throughout the world.

This organization was of immense value to the government during the war through its assistance in organizing the chemical warfare service.

Any one interested in the subject is invited to attend the meeting in Villard Hall.

## HIGH SCHOOL TEAMS PLAY

Eugene Wins From Talent; Loses to Medford; Durmo is Referee

Accompanied by Edwin Durmo, freshman basketball coach, as referee, the Eugene high school basketball squad invaded the southern part of the state last week-end, and engaged in three contests, winning the first from Talent, 23-15, and losing the last two, one to Medford, 20-18, and the other to Ashland, 42-22. Two of Eugene's best men, Kneeland and Cole, became ill during the trip, and were unable to take part in the last two contests.

Hollis Huntington, former athletic star of the University of Oregon, and member of the famous 1916 team that played Pennsylvania at Pasadena, is now athletic coach at Medford.

## OREGON STUDENT IS NAMED

Spencer Carlson, Freshman, Appointed to Naval Academy; Examination Taken During January

Spencer A. Carlson, of Marshfield, a freshman in mathematics, has been notified of his appointment as a midshipman in the naval academy at Annapolis. The appointment was made by Representative Hawley of the First Oregon district. Carlson, who is 18 years old, took the examination for the appointment January 14. An entrance examination also will have to be passed in February before he is admitted to the academy.

Announcement was made yesterday also of the appointment of Samuel P. Collins of Eugene to be a cadet at West Point military academy.

## CHURCH DINNER CANCELLED

The Church Cooperative Committee dinner, which was announced for Tuesday, January 31, has been called off in accordance with the Health Service's recommendation that no social functions take place till the present grippe epidemic is over. The date of the meeting will be announced later according to those in charge.

## "THE FEMINE FLING" COMING

Stanford University, Stanford, Cal., Jan. 30.—(P. I. N. S.)—"The Feminine Fling" will be the title of the next issue of Chaparral, the Hammer and Coffin publication. It will be edited by the Stanford chapter of Theta Sigma Phi, Women's National Journalistic Honor Society, and the women will be given an opportunity to display their humor.
