NUMBER 77

APRIL 14-15 DATES FOR CONFERENCES OF PREPPERS HERE

Student Council and Faculty Will Discuss Details of Student Meetings

Y. M.-Y. W. REPRESENTED

Movies of Campus Scenes and Athletic Contests Will Be Part of Program

April 14 and 15 were the dates set for the conferences of high school student body presidents, editors of high school publications and representative girls from the girls' league organizations at a meeting of the committee from the student council and faculty representatives on Saturday. The entire proposed plan was outlined and met with the hearty approval of all present, although there is much to be accomplished yet by the students and the faculty in order to work out all the details to make the conferences a success, according to those who have been instrumental in working out the plan.

Lyle Bartholomew outlined the advantages possible for the high school executive officers to receive from such a conference, comparing it in scope to the Pacific Association of Student Body Presidents now existent among the colleges and universities of the Pacific Coast. "Although the problems which confront the presidents of the high school student bodies will not be nearly as complicated as those of the college student executives," he said, "they still have many questions which they can bring up and discuss in a conference of this nature which will be to their mutual advantage."

Preppers Like Idea

President Bartholomew stated that he had already been in communication with a number of the student officers in various high schools in the state and that they were anxious to carry out the idea.

Alfred Powers, representing the school of journalism, outlined the plan for the editors' conference and declared that work had already begun on this conference and that the success of last year's meeting of the high school editors assured another highly beneficial session this year. It is the plan to bring the associate editors of the high school publications to the campus as well as the editors in order that the points and suggestions on how they may better their publications, which they will get in such a conference, may be carried back into their work the following year.

Plans for Women Are Made

Ella Rawlings and Dean Fox outlined a tentative program for entertaining the girls who will meet and it is possible that the plan of the women's league in the universities and colleges may be carried into the high schools. It is hoped that this can be accomplished. In many high schools in the state there is at present a girls' league and the conference will be of special benefit to representatives from these organizations.

Dean Fox also raised the point of having a joint conference of the Y. M. C. A. and Y. W. C. A. representatives from the high schools here at the same time and the plan is now being considered by the committee from the student council.

Invitations Out Soon

As a result of the conference with the heads of departments of the University it was decided by the committee to request letters from President Campbell to be sent to the high school superintendents throughout the state outlining the plans and programs of the conferences. Letters of invitation will also be issued by the Student Council to the various officers and representatives at once.

As a result of the discussion Saturday

FACULTY FOREGOES DANCE

Ban Put on Affairs Until Present Epidemic Shows Abatement

Students who have complained loudly and long over the recent ban placed on college dances may be interested in knowing that they are not the only people who are foregoing the terpsichorean pastime.

"In accordance with the spirit of the ruling of the Health Service, it seems best to postpone the meeting of the faculty dancing class until the epidemic has abated." So reads the faculty bulletin, published Monday. Faculty members will be notified of the date of the next meeting.

LIFE SAVING METHODS SHOWN IN WOMAN'S POOL

Red Cross Man Demonstrates How to Rescue Drowning Man; Girls Give Aquatic Program

Collister Wheeler, of Portland, who has charge of the Red Cross life saving work, was on the campus Saturday and in the afternoon gave a demonstration of life saving and water first aid methods in the women's swimming pool. The part of the demonstration most interesting to those who plan to spend their afternoons and evenings on the millrace was his work with the canoe which he had in the pool. He demonstrated the proper method of righting a canoe, bailing out the water and getting in again.

Mr. Wheeler with the aid of John Palmer also showed how to break the hold of a drowning person, tow them to shore and what to do until the doctor arrives. He gave the audience and the students who have passed the Red Cross life saving test many pointers of rescue work which are not included in the test.

After the demonstration a number of the girls from the physical education department and Miss Eva Shultz, a swimmer from O. A. C., gave a short program of swimming and diving.

COON QUILTS AS GLEE COACH

JOHN STARK EVANS TO SUCCEED SUCCESSFUL DIRECTOR

Excellent Music Promised at Girls' Concert March 4; New Stunt Is Feature

Owing to the pressure of other work, Professor Leland A. Coon has resigned as director of the University of Oregon Women's Glee club. The organization has been very successful under the direction of Mr. Coon and the news of his resignation was received with a great deal of surprise and regret.

Fortunately Professor John Stark Evans, who has been the efficient director of the Men's Glee club for some time, has consented to act as director of the women's organization. Mr. Evans has charge of the University vesper choir as well as the Men's Glee club and has proven himself a most able leader, so that it is indeed fortunate for the Women's Glee club as well as for the University that he has consented to undertake this new work.

The home concert of the Women's Glee club will be given in the Women's building on March 4. The girls are working very hard and some excellent music is promised. There are many whisperings of a new and mysterious stunt that is being evolved for this concert and further developments are being watched with a great deal of interest.

CAMERON SPEAKS TO CLUB

Economics Professor Tells Kiwanis of Municipal Ownership

Prof. M. K. Cameron of the economics department of the University spoke before the Kiwanis club members at their weekly luncheon, held in the Hotel Osburn at 12:15 Monday afternoon.

In his talk, which was on "Conditions Determining the Success of Municipal Ownership," Mr. Cameron stated that on the size and wealth of the city; on the intelligence of the voters, and on the honesty and efficiency of the city's past government, as well as on the characteristics of the utilities desired for ownership, depended the advisability of municipal ownership.

In conclusion he stated that all cities should have the power of ownership to use as a club on private companies.

DOSCH'S WORK EXHIBITED

Statues Shown in Portland; Sculptor Formerly Instructor Here

An exhibition of the works of Roswell Holt Dosch has been recently held in Portland. Roswell Dosch was a gifted young sculptor who established the department of modeling and free-hand drawing at the University, and also did special work in Portland in the University extension work. He studied in Paris, at the Sorbonne, under the famous sculptor Rodin and his great pupil, Bourdelle.

Mr. Dosch was chosen by Bourdelle from a class of 150 students to be one of four private pupils. It was after his return to America that he accepted the position at the University. The war cut short his career and prevented his return to Europe. He died in 1918 of pneumonia at his home in Portland.

Weather Forecast BY RADIO

SAN FRANCISCO, Feb. 6.—North Pacific coast, Tuesday, rain or snow, fresh to strong northwesterly gale.

UNIVERSITY GIVEN PRAISE BY AUTHOR ON FIRST TRIP HERE

Mrs. Ellis Meredith Visiting in Eugene; Warner Gift Said Valuable

CAPITAL HELD WONDERFUL

Proceedings of Disarmament Conference Watched in Washington, D. C.

Mrs. Ellis Meredith, prominent author, journalist, and pioneer suffragist, who is visiting Mrs. Murray Warner at 668 13th avenue east, was enthusiastic in her praise of the University, in so far as she has been able to view it since arriving several days ago.

"You have a good site, wonderful trees, a fine Administration building, and a Woman's building that must make every woman who sees it wish she were a girl, and an Oregon girl. Dean Fox is charming and to know Mrs. Campbell is a kind of a benediction. We have so many Colorado memories in common that we do not meet as strangers, but almost like old friends."

Mrs. Warner as Good Fairy

"And then in Mrs. Warner the good fairy who comes in late with some special gift, all the more acceptable because so unexpected. I greatly doubt whether any museum in this country ever started with a collection of such value and such a uniform standard of excellence. I have forgotten the name of the Japanese statesman who said: 'In the fourteenth century we had wonderful art—pottery that remains unexcelled—paintings and sculpture and literature—were we then barbarians?' I think Mrs. Warner feels that if the nations are ever to get together there must be a far better mutual understanding, and anything which contributes to that goes just that far toward the establishment of lasting peace."

Conferees Are Seen

"To anyone who is interested in politics, especially in the larger sense," continued Mrs. Meredith, "Washington has been the most wonderful place in the world this winter. Even if one could not get more than a glimpse of the delegates to the disarmament conference going into their meeting place, and in spite of the fact that they all seemed uncommonly able to keep their own counsel, there were various opportunities to both see and hear some of the real lions.

"The Society of Friends rented a large house near the Army and Navy

GLEE CLUB WILL APPEAR IN HEILIG FEBRUARY 15

Singers to Hold Preliminary Concert at Noon Luncheon Given by University Club

Plans are progressing rapidly for the Men's Glee club concert, which is to be given at the Heilig in Portland Wednesday, February 15. Indications, according to Art Rudd, manager, point to the most successful glee club concert ever held in Portland.

As a preliminary to the affair in the evening, the club will sing at the University club luncheon Wednesday noon. Cards have been sent to all members, and a large attendance is expected.

The concert will receive a great deal of publicity in the Portland papers, and cards, printed in green ink, have been sent to over 800 Oregon alumni and ex-students.

The members of the glee club will leave here Wednesday morning and will return the next day in time for classes. Manager Rudd returned yesterday from a trip to southern Oregon and northern California, where arrangements were made for an extensive glee club trip, to be taken later in the year.

DR. EATON WILL NOT COME

Dr. E. L. Eaton, of the University of Wisconsin, will not come to the campus this year to deliver a series of addresses as was originally planned. Efforts are being made, however, to bring him out here early next fall.

GOOD WEATHER AIDS STUDENTS' HEALTH; BAN MAY BE LIFTED

Colds and Grip on Decrease; No Cases Serious; May Permit Dances

INFIRMARY NOW EMPTYING

Fewer Ill in Houses; Help Is Appreciated; Students Thanked for Cars

The change to good weather seems to have brought with it a let-up in the epidemic of colds, grip, and coughs, which has been menacing the campus during the past two weeks. "The situation is clearing up very satisfactorily," said Dean John Bovard, yesterday afternoon. "The number of new cases is very small, and it seems as though the crest of the wave has passed. No definite statement can be made at this time, however."

Committee Meets Today

The University Health Committee meets this afternoon at 3:00 o'clock in Dean Bovard's office, at which time the situation will be discussed and investigated from all angles, and it is probable that a decision will be reached concerning the time when the ban on dances and various social affairs will be lifted. Organizations which have scheduled parties for this week-end are anxious to know the decision of the committee.

The ban has resulted in the postponement of many affairs during the past two week-ends. This will throw a large number of dances into a comparatively short period of time. However, the ban has been a great factor in putting a check to the rapidly spreading epidemic of bad health, and the University Health Service is highly appreciative of the cooperation which the students have shown in this particular.

Infirmary Not Crowded

There are not as many outside cases of sickness now as there were during last week, and the infirmary is no longer full, according to information given out by Dean Bovard's office today. Comparative figures will be available in a day or two.

JUNIORS DEFEAT SOPHS IN GIRLS' BASKETBALL

Senior Team Leads in Interclass Games, Victors in Yesterday's Contest Bank Second

The junior girls' basketball team defeated the sophomore team yesterday afternoon by one point. The score was 20 to 19. This victory places the juniors second in the series with the seniors still leading.

The game was hard fought throughout and marked by the close guarding of both teams.

The first half ended 9 to 15 in favor of the sophomores but with the beginning of the second half Marjorie Flagel, junior jumping center, succeeded in keeping the ball at their end of the floor most of the time. Helen Glanz, sophomore forward, played an exceptional game, making all but two of the points for her team.

The lineup was:

Juniors (20)	Sophomores (19)
C. Howells, 10.....F.....Helen Glanz, 17	H. McCormick, 10.....F.....Betty Pride, 2
Marjorie Flagel, J.C.....Ina Proctor	Wilma Chattin, R.C.....Helen King
Pearl Lewis, G.....Dorothy McKee	Dorcas Conklin, G.....Bernice Corporan

Referee: Miss Waterman.

KUYKENDALL LAID TO REST

Former Oregon Student Died in France; Member of 91st Division

The funeral of John Eberle Kuykendall, former Oregon student, and son of Dr. Wm. Kuykendall of Eugene, was held last Sunday at 2 o'clock from the Methodist church.

His body was just recently shipped to the United States from France, where he died from pneumonia shortly after the armistice was signed. He was in the service and was director of ambulances for the 91st division.

Y. W. DISCUSSES NATIONAL CONVENTION AT MEETING

Bungalow to Be Renovated for Coming of Northwest Secretary, Feb. 14; Budget Is Short

At the regular meeting of the Y. W. C. A. last Thursday, Glyde Scheubel, undergraduate representative, who recently returned from the convention of Oregon undergraduate Y. W. C. A. representatives at McMinnville, reported that the main business of the convention was the discussion of the national convention to be held April 20 to 27 at Hot Springs, Arkansas. Elsie Lawrence, chairman of the finance committee, said that they are \$560 short in the budget and that unless it is covered no representative can be sent to the convention. Miss Damon, the field secretary of the Girl Reserves for the Pacific Coast, told of the work being done by the younger girls. The Bungalow can have about \$300 worth of new furnishings, according to Glenn Frank, chairman of the Bungalow committee, because \$50 was realized on the chrysanthemum sale, Homecoming, and \$270 on the recent rummage sale. It is planned to have the furnishings ready when Alice Brown, northwest student secretary, is here February 14.

\$10,000 NOW IN LOAN FUND

NINETY STUDENTS NOW MAKING USE OF MONEY

Part Being Reserved for Seniors During Spring Vacation; Only \$50 Lost in Past 10 Years

The present amount of the University's student loan fund has reached the \$10,000 mark, according to Dean Straub, chairman of the student loan fund committee. About \$9,000 of this is now loaned out to nearly 90 students, the remaining \$1,000 being reserved for seniors who, during the spring term, may find themselves short of the funds necessary to carry them on until graduation.

Small additions to the fund have been made from time to time. The largest contribution was received from Max Handman, who graduated from the University in 1909 and who is now teaching in the University of Texas. He borrowed \$100 from the fund while in college and when paying up his debt sent a \$1,000 Liberty Bond for the fund.

As a rule, freshmen are not given the benefits of the loan fund. Under unusual circumstances they may borrow \$50 for three months. Sophomores may apply for a loan of \$100, juniors as high as \$150 and seniors up to \$200 but no one student is allowed more than \$300.

"The discouraging feature of the loan fund," Dean Straub says, "is the lack of appreciation on the part of the borrowers to return loans when due. It is discouraging to have to write a student a half dozen times and finally end up by receiving an unkind letter from the borrower. Students do not seem to realize that others are needing the money just as they need it. By actual observation I have found that less than 50 per cent of the loans are returned of their own accord by borrowers."

In spite of this, Dean Straub says that in the last 10 years only \$50 has been lost to the fund.

ALBERT E. ROBERTS WILL ADDRESS NEXT ASSEMBLY

Senior Secretary of Y. M. C. A. to Tell of Experiences; Well Known as Association Leader

Albert E. Roberts, who for the last 18 years has been Senior Secretary for county work of the international committee of the Y. M. C. A., will address the students at the regular assembly next Thursday at Villard. His topic has not been announced but it is expected that he will recount some of his experiences as senior secretary of the association during the last two decades.

Mr. Roberts was a member of the government commission to study rural life in European countries, and in that capacity visited sixteen foreign lands. He is a member of the National Country Life association of which Secretary of Agriculture Wallace is chairman. He has been intimately identified with other societies devoted to the improvement of country life. He has been famous as an outstanding speaker and a man of pleasing and forceful personality.

The Interstate Y. M. C. A. Association News says of him: "He is one of the most eloquent speakers in our movement. Under his leadership the county work has been standardized and has gained recognition as one of the great departments of Association endeavor."

Mr. L. P. Putnam, secretary of the campus Y. M. C. A., knows Mr. Roberts personally and describes him as one of the most dynamic speakers that he has ever heard. He assures the student body that he is a speaker of the calibre of John B. Mott, and that few addresses which have been heard by students this year can rival the one which will be given by Mr. Roberts.

WASHINGTON FIVE MAINTAINS LEAD IN COAST CONFERENCE

Idaho Has Perfect Percentage; Deciding Games on Feb. 15, 16

OREGON IS STILL IN CELLAR

Class Shown in Aggie Game; Rockhey Varsity Star, Gill for O. A. C.

Coast Conference Basketball Standings

	W.	L.	P.C.
Washington	10	0	1000
Idaho	4	0	1000
Oregon Aggies	4	2	.667
Stanford	2	3	.400
California	2	3	.400
Washington State	1	5	.166
Oregon	0	10	.000

While Oregon was dropping a two-game series to the Oregon Aggies last week-end the University of Washington Vikings were strengthening their lead on the Pacific Coast conference by cleaning up on the Pullman Cougars in two contests, 37-28 and 40-10.

The Sun Dodgers have now won ten and lost nothing, while the Lemon-Yellow, now decorating the extreme bottom of the list, has lost ten without a single win. Washington has yet two series to play. At Seattle they will take on the Oregon Aggies in a two-game tilt, then they will journey to Moscow to tangle with the Vandals on the 15th and 16th of this month. This will be the deciding series, as Idaho has won four without a loss in the Pacific Coast conference and is tied with Washington for the top.

Washington Men Stars

The dope all points to Washington however, as they have a wonderful team, every man a point getter, while Idaho's strength is in a great pair of guards and a clever center, the forwards being rather mediocre when closely guarded. Saturday night the Idaho quintet lost their first collegiate game when they dropped a fast game to the University of Montana five, 26-22, at Missoula.

Even should the Oregon Aggies be able to overcome the Sun Dodgers in their series at Seattle, the Vikings have won too many games and the Ags will not be able to boost their percentage high enough to draw the flag.

O. A. C. Wins Game

The closing game of the series between Oregon and O. A. C. played in the Armory last Saturday night, resulted in a 35-18 victory for the collegians. The game started fast with neither team showing superiority in the first minutes of play. With the initial period half gone "Slats" Gill opened up for the visitors and Gill opened three difficult shots in succession, gave his team a substantial lead which remained unthreatened throughout the contest.

Aside from the opening minutes of the game the Aggies showed superior ability in passing and shooting and kept the ball in the vicinity of their own basket during the major portion of the set-to. Hjelte, the collegians' lanky center, closely guarded, was able to get but three baskets, one in the first half and two in the second.

"Slats" Gill, Captain Stinson's lanky running mate at forward, was the individual star of the game, securing six field goals, practically all from difficult angles. Gill was also high scorer man with twelve points to his credit, and Stinson, captain of the invading quintet, was runner up with 11.

Hadden Rockhey played a nice game at forward for the Lemon-Yellow, the little fellow showing more class at the position than he has evinced thus far this season. Zimmerman and Latham kept Hjelte from running up a score as he did on the preceding night. Rockhey was high point man for the varsity with seven points to his credit and Andre runner up with three.

(Continued on page four)

NEGLECTANCE DUE TO "FLU"

Sickness Prevents Students Paying Lab Fees; Five Reinstated

Though funds are short and "flu" holds sway, five unwise students of the 26 who were suspended from class upon non-payment of lab fees, were lucky enough to have their petitions for reinstatement granted.

Their experience proves the old saying that "a stitch in time saves nine," and perhaps there has been a lesson learned, the additional fee and the red tape of petitioning being responsible. Who knows?

However, it was reported that a few of the suspensions were due to illness and "flu" germs, and not to negligence.
