

INFIRMARY TREATS 7,584 CASES IN THREE MONTHS

Careful Watch Kept of Student Health, Says Dr. Bovard

With a total of 7,584 treatments given during January, February and March of 1922, the University health service in the three months of the winter term took care of 78 per cent as many cases as were treated in the entire year preceding January 1, 1922. This enormous increase, according to Dr. John F. Bovard, director of the health service, is not due to the impairment of health conditions on the campus, but to the daily growing number of those who report at the slightest warning of cold, sore throat, eye trouble or minor injuries, so that infection may be ward off.

The winter term was heavy also on account of the season but now, with spring on its way, la grippe, pleurisy, bronchitis, and tonsillitis are making way for a smaller number of poison oak cases—resulting from spring hikes and picnics—and for minor injuries received in spring sports.

During the epidemic the health service was working under pressure to take care of the cases that came up and it was through its vigilance and the cooperation of the students and those in charge of the different houses that a much more serious situation was avoided. In January, 1,496 treatments were given, including patients at the dispensary, in the infirmary, and 202 house calls by nurses and doctors.

Thirty-seven operative cases were cared for at the infirmary, the University health service's hospital. These included tonsilectomies, operations for hernia, appendicitis, and nasal disorders. Patients ill with la grippe in the infirmary numbered 97, miscellaneous 52, making a total of 186 patients, 789 patient days, or slightly more than half of what were taken care of in the school year preceding.

DOUGLASS INVITED EAST

Education Professor Asked to Teach at Wisconsin Summer Session

Prof. H. R. Douglass of the school of education has received an appointment to teach classes in education at the University of Wisconsin this summer. His acceptance depends on the obtaining of an instructor to take his place in the summer school here, and it is not probable that such a substitution will be made, as Mr. Douglass is scheduled to teach a course in educational tests and measurements. Such a course is a new development in education and there is a great demand for it. At present there are only a few instructors on the Pacific coast who give the course and it is difficult to obtain any one from the east for a six weeks' appointment.

Prof. C. A. Gregory of the school of education will have classes in education at the University of Montana this summer. Dr. B. W. DeBusk will teach in the University of California, while Prof. F. L. Stetson will handle the extension division work at Portland. Dr. H. D. Sheldon, dean, will remain on the campus for the Oregon summer session.

TO WELCOME GUESTS

Corvallis: Four members S. B. and faculty advisers.

CAMPUS Y. M. STARTS AFTER \$50 LOAN FUND

Committee Appointed to Attempt to Reach Goal; First Contribution Made by Nebraska Woman

An instance of student service on the campus, started in a small way, is the boys' loan fund of the University Y. M. C. A. which is now being raised by a student committee appointed for that purpose. The goal of the committee is a \$50 fund. Previously the limit of the fund was \$6.

A few years ago, when Mrs. C. R. Donnelly, now the Hut mother of the campus "Y," was in Arizona, engaged in mission work, she met a woman of some small means who, while staying in the south to regain her health, became interested in Mother Donnelly's work.

Last fall, when the woman had regained her health and returned to her home in Nebraska, Mrs. Donnelly, who had maintained a continuous correspondence with her, wrote to her friend describing something of her work in the University Y. M. C. A. on this campus.

In the return letter from her friend, Mrs. Donnelly found a check for \$6, which the woman wished Mrs. Donnelly to give or loan to someone's boy who might be in need of it. As Mrs. Donnelly knew no particular boy who was in need of money at that time, she laid the sum by, and later loaned it out in small sums to boys who were in sore straits for means to pay their "lab" fees. The entire sum is "out" in various hands most of the time, and as the work has continued, the need for a larger sum has arisen. It is expected that the \$50 fund will be raised by the end of the month.

"As this is a fine chance to show student's humanity to student," said L. P. Putnam, "Y" secretary, "I hope that the sum will be largely raised by student contributions at the 'Y' hut office."

LIBRARY SOLICITS DATA

Material on Pacific Northwest Wanted in Oregon Collection

Material regarding the state of Oregon and the Pacific Northwest is being solicited by the University library for its special Oregon collection which occupies a room of its own in the Library building. The library wishes to build up this collection, which now contains about 950 volumes, including books of Oregon history, description and travel, Oregon documents, books by Oregon authors, and reports and publications of various Oregon societies and organizations. The library's collection of Oregon newspapers now numbers about 1450 volumes.

Additions along this line of material will be gladly received by the library as well as gifts of back volumes of many medical, law, scientific, literary, technical and sociological periodicals which are still needed to complete the files in the library. Many useful gifts of this nature are received every year.

CO-EDS ORDER OF "O"

(Continued from page one)

student body functions were billed. It is said that a misunderstanding has arisen over the proposed program for this week-end and as a result an attempt was made to stage a dance down town on Friday, the same evening that "College Night" will be held on the campus.

Immediate awarding of sweaters and emblems at the close of each athletic season, rather than on an official traditional award day, is the desire of the Order of the "O." In the past the presentation of letters to the deserving athletes has often been delayed for some time.

"All the letter men want their awards as soon as possible," said George King, football letterman, at the council meeting. "The men would like to be rewarded at the end of each sport season. They are willing to help out in staging one big award day, by turning in their sweaters and receiving them again at an official presentation."

The sentiment of King prevails in the rank of the Order of the "O." At a recent meeting the topic was discussed and all members were in favor of immediate awarding of sweaters.

CLASSES TO SERVE MEALS

Home Economics Girls Have Charge of Ordering, Serving and Preparing

The food preparation and food problem classes of the home economics department have started a series of daily meals which they are serving to invited guests and regular boarders.

The girls have full charge of the ordering, preparation and serving of the food and must keep a detailed account of the food values and the time and money spent in preparation. All varieties of meals, from a simple buffet lunch to a formal dinner, are included in the series.

ART SALE NOW BEING HELD

Money Will Be Used to Buy Case for Gift to School

Proceeds from the sale of Easter cards and other articles made by students in the normal arts department of the school of architecture and allied arts will be given to purchase a case

for part of the art collection recently given the University by Mrs. Murray Warner of Eugene as a foundation for a University museum. Members of the Normal Arts club, under the direction of Miss Kerns and Miss Avakian, have made a number of cards, neckties, lamp shades, woven rugs and various other useful articles which are now on sale at the studio.

Orders will be taken for any articles similar to those displayed, by members of the club at the close of the sale tonight, and by representatives of the club in each woman's living organization on the campus during the rest of the week.

CANDY SALE TO BE HELD

Y. W. C. A. girls will sell home-made candy at the performances of "The Shady Lady" to be given in Guild hall Thursday and Friday evenings of this week. The proceeds from the sale will be added to the fund being raised to send the local delegate to the national convention of the association this month. Grace Tigard and Lela West are in charge. Candy will be sold in 10-cent bags.
