

MUCH GRADUATE WORK IN NEXT SUMMER TERM

Many Easterners Expected to Attend Sessions Here

CLASSES IN LINCOLN HIGH City School Equipment to Be Used in Portland

Strong and varied courses, attracting students from all over Oregon and the Northwest, will be offered at the coming summer term of the University, according to a summer term bulletin issued this week by Earl Kilpatrick, general director of the summer session.

Eugene registration will take place Wednesday, June 21, the day after commencement, while those who register for work in Portland must sign up Monday, June 19.

Many of the students attending the summer session will do graduate work. Dr. E. S. Conklin, professor of psychology, has been appointed special adviser to graduate students.

Easterners Come West

Mr. Kilpatrick reports that it is becoming almost a custom for easterners to come west for the summer, spending part of the time in study and part in recreation. He says that the Portland center will have a number of such students this year who will spend the week-days in the metropolis and the week-ends in hiking and side trips of various kinds.

Colin V. Dymont, dean of the school of literature, science and the arts, is director of the campus summer session, while Dr. George Rebec, dean of the graduate school, will have charge of the Portland activities. Eugene sessions will use the campus equipment, while Lincoln high school will be utilized for the University work in the city.

Besides the regular University faculty members who will teach during the summer term at Eugene, are Samuel Bannister Harding, Ph.D., professor of history at the University of Wisconsin, and Orville C. Pratt, superintendent of schools at Spokane, Washington, and formerly head of education at De Pauw university; Ben H. Williams, Ph.D., University of Pennsylvania, and Otis Richardson, University of Idaho. Mrs. Eric W. Allen, wife of Dean Allen of the school of journalism, will instruct in English.

The Portland session faculty will also include a number of well-known scholars. Edward T. Devine, associate editor of the Survey and one of the leading sociologists of the nation, is probably the biggest figure of the group. J. Duncan Spaeth, Ph.D., professor of English literature at Princeton, is also a dynamic leader who has been procured for work.

From Other Colleges Faculty members from other institutions are: Clyde Eagleton, M.A., South Methodist University, Dallas, Texas; Emilio Goggio, Ph.D., Romance languages, University of Toronto; Edward L. Schaub, Ph.D., education, Northwestern University; R. M. Wendley, Ph.D., philosophy, University of Michigan; William H. Boyer, music, Portland public schools; and E. Albert Cook, Ph.D., Pacific University, Forest Grove.

Two main features of the summer session are the Oregon Conference of Social Work, to be held in the central library, Portland, June 19, 20 and 21, and a meeting of Oregon superintendents and principals in Eugene, June 24 and 25. The latter will be under the auspices of the school of education.

MRS. DUNN RETURNS Mrs. F. S. Dunn, wife of Professor Dunn, who is head of the Latin department of the University, has returned from several months spent in Berkeley, California.

Builded Along Lines of Permanency

Merit wins. Twenty years is a long time. A great deal can happen. A mis-step often turns back the hands of achievement. Not infrequently disaster comes to snatch victory from the goal of success.

Day by day and step by step for twenty years the business of this Company has been moulded along lines of permanency thru consistently protecting and serving the people.

It has won a notable victory only because it has merited it—it has reached its twentieth anniversary this April because of the good will of the hundreds of thousands of people it serves well.

When H₂O Isn't Water

"GENTLEMEN" said the Chem. Prof., at the end of the term, "You'll probably remember only one thing of all I've tried to teach you. And that is that Water is H₂O—and then you'll be wrong."

Even shaving soap isn't always shaving soap. A correct shaving preparation like Williams' Shaving Cream must do a lot more than simply make a lather.

—It must be generous with its lather. It must be thick and creamy in cold water or hot.

—It must hold its moisture. Williams' will not "freeze" dry on your face.

—It must soften your beard right down to the very roots.

—It must prepare your face for quick, gentle shaving. Williams' is so pure and wholesome that it actually helps the most tender skin.

Try it—tomorrow before chapel.
