

Six Amendments Are Proposed; Are to Be Voted on Next Week

Following are the changes in the constitution of the Associated Students and in the by-laws which were proposed at the regular meeting yesterday morning. They will be voted on by the students at the time of the annual election next Wednesday:

To amend Article X, Section 1 of the constitution of the Associated Students by the addition of the following provision:

"An additional fee of 50 cents per term shall be paid by each student at the time of paying the regular registration fee, which additional fee shall be used to form a music fund to provide guarantees and expenses for artist recitals. This fund shall be expended according to a budget submitted by the music activities committee and approved by the executive council, and under the management of the graduate manager. Students shall be admitted to all such concerts or recitals upon presentation of their student body tickets. Receipts from the sale of other tickets or admissions shall be expended as the executive council may direct."

To amend Article XV, Section 1 of the constitution to read as follows:

"Amendments to this constitution may be proposed in writing at any regular meeting, when they shall be read. Within one week the proposed amendments shall be printed in the Oregon Daily Emerald and voted on by ballot within one week later. A two-thirds (2-3) vote of the ballots cast shall be necessary for the adoption of the amendment, provided, however, that there must be at least three hundred (300) ballots cast."

To amend Article II, Section 3 of the constitution to read:

"The vice-president shall assume the duties of the president in the absence of that officer. He shall be a member of the Executive Council and the Student Council. He shall be general chairman and coordinator of the Activity committees and shall be vice-chairman of each Activity committee with power to call meetings of these committees at his discretion, but shall have no vote."

To amend Article IV of the constitution by inserting a Section 8 to read:

"Tradition Committee. Clause 1. Membership. The membership shall consist of (a) one faculty member who is an alumnus of the University of Oregon, (b) the alumni secretary, (c) one member of the alumni at large, (d) and three students to be appointed at large from the student body. All appointments to be made by the president of the University, the retiring president of the A. S. U. O., and the president-elect of the A. S. U. O."

"Clause 2. Duties. The duties of the committee shall be (a) to inaugurate and perpetuate the best traditions of the University, and (b) to make recommendations concerning their findings to the Student Council."

To amend Article II, Section 3, Paragraph 3 of the by-laws as follows:

"The editor and manager of the Emerald shall each receive as compensation four hundred dollars (\$400) per year, or such part thereof as can be paid out of the earnings of the publication. Thereafter, any additional surplus up to sixteen hundred dollars

(\$1600) shall be divided one-eighth each to the editor and the manager, who shall thereafter receive no further compensation, one-fourth to the improvement of the paper as hereinafter provided, and one-half to the treasury of the Associated Students. Additional surplus beyond sixteen hundred dollars (\$1600) shall be divided half or more to the treasury of the Associated Students and half or less to the improvements of the Emerald as follows: The editor shall annually submit to the Publications committee and the Executive Council a plan for the encouragement and reward of effort and achievement among the staff during the year, and a budget of expenses for this purpose, and all money devoted to this purpose shall be expended only under such a plan and budget as approved by the Executive Council."

To amend Article IV, Section 4, Clause 2 of the by-laws to read:

"The sports for which these awards will be given shall be baseball, basketball, tennis and swimming. The awards for each of these sports shall be the same."

PRE-ENGINEERING MEN TO VIEW POWER PLANT

Technical Students Will Come into Contact with Engineering Project on Picnic This Afternoon

Inspection of the Eugene municipal power plant, an illustrated lecture on the plant and the site before the plant was erected, and a picnic lunch will be the main features of the Technical society picnic this afternoon. The members will start about 2 o'clock and will motor to Waltherville on the McKenzie, about 17 miles above Eugene, where the plant is located.

The Technical society is composed of students interested in engineering. It has about 40 members, most of whom are majoring in the pre-engineering department, although chemistry, geology and other majors who expect to enter engineering work also belong to the club.

The Waltherville plant furnishes all the electric power used in Eugene except that used by the street car lines and the University. It uses about one-third of the normal available water power of the river or about 1200 cubic feet per second.

The idea of the picnic, according to Dr. A. E. Caswell of the physics department, is "to give students real contact with an engineering project and at the same time combine business with pleasure."

Carl A. McClain, superintendent of the city water works, who invited the society to visit the plant, will give the illustrated lecture.

FIRE ALARMS INSTALLED

Nine Boxes Put in Susan Campbell Hall; System Is Electrical

A system of electrically operated fire alarms has been recently installed in each of the three units of the Susan Campbell hall. The system, similar to the one in Friendly hall, is operated by breaking the glass that covers the alarm boxes.

Nine of the alarm boxes are distributed through Susan Campbell hall in such a way as to give one to each floor of the three units. A master switch in the room of the matron operates all the alarms simultaneously. When a glass is broken, a siren is blown in all of the units. The system operates from the lighting circuit of the building. C. R. Betts, the campus electrician, installed the system.

U. OF W. TO SEE EXHIBIT

Rosenberg Drawings Will Be Sent to Seattle; Sketches Made Abroad

The collection of architectural drawings done by Louis C. Rosenberg, formerly of the faculty of the school of architecture and allied arts, which has been on exhibit at the architecture building since April 20, will be sent to the University of Washington today. While the exhibit has been on the cam-

pus the students in the architecture department have availed themselves of the opportunity of photographing and copying a number of the largest of the sketches which will be of use to them in their own work.

Mr. Rosenberg has been studying architecture in Europe for the past two years and plans to return to the United States this summer when he will devote himself to etching in New York. A number of his sketches which he made during his first year abroad are the property of the Massachusetts Institute of Technology, from which he received a traveling scholarship in 1914. Immediately after the close of the war Mr. Rosenberg left with his wife for the continent where he has been occupied in sketching the masterpieces of European architecture.
