

FROSH TO MEET ROOKS TOMORROW ON HAYWARD

Aggie Babes Reputed to Have Strong Aggregation

FOSTER GIVES HIS LINEUP

Breakey, Peek and Winthers Figured to Win

The frosh and rook track teams will clash on Hayward field tomorrow afternoon, probably at 1:30.

The rooks have a strong aggregation, especially in the field events, where the frosh are the weakest. Breakey of the frosh is hoped to give the rooks a strong race in both the 100 and the 220, while Peek is figured in the point getting squad.

Winthers, the frosh who was doing the mile around 4:40 at the first of the year, has been out of most of the meets on account of a bad ankle, has completely recovered and will be stepping against the rooks Friday. According to all the dope that can be procured, he should easily take first in this event.

Against Coach Coleman's rooks Hank Foster plans to send the following men. However, this lineup may be changed at the last minute:

100-yard—Breakey, Hunt, and Vir-den.
Mile run—Winthers, Alm and Shultz.
220—Breakey, Carruthers, and Vir-den.

High hurdles—Brocker, Hunt, and Vir-den.
440—Paulson, Hardenberg, and Gul-dager.

Low hurdles—Jordan, Hunt, Vir-den.
Half mile—Don Peek, Curry, and either Alm or Shultz.

Pole vault—Paulson, Worthen, and Christmas.
Broad jump—Spear, Vir-den, and Christmas.

High jump—Stiwer, Christmas, and Guldager.
Javelin—Brocker, Alm, and Christ-mas.

Discus—Tergeson, Hill, and Jost.
Shot—Jost, Spear, and Wells.
The relay team has not been made up as yet.

OREGON WINS

run in four times up. Dean, the visitors' second sacker, had to be taken out of the game in the sixth after he was hit with one of Zimmerman's pegs from left center as he was sliding into third. The ball struck him on the back-bone as he slid into third and he had to be carried from the field.

The second game of the series will be played this afternoon at 4 o'clock.

Summary—Two base hits, Rich. Three base hits, Matsumo, Roycroft, Baldwin. Home runs, Rich. Double

plays, Latham to Johnson to Baldwin; Rich to Coffee. Bases on balls, off Sherwood 1, off Baldwin 1. Struck out, by Sherwood 5, by Baldwin 2. Innings pitched, by Sherwood 7 1-3, by Knudsen 2-3. Time of game, 2 hours 5 minutes. Umpire, Lawson.

PROM SATURDAY

(Continued from page one)

ganizations having to contribute sums of money to finance the affair.

Coffee Costs 5 Cents

The charge of five cents will be made for coffee, salad, and ice cream. All the extras will be thrown in with-out additional charge. Guests and fac-ulty will not have to pay anything. The former will be served upon show-ing their week-end tickets. The latter have been canvassed personally by the Oregon Knights. Lenore Cram is in charge of preparations for the lunch-oon. She is ably assisted by several men who are handling collections and by a corps of women who will do the serving.

Attention is called to a change which has been made in the program for Fri-day. It was planned to have the base-ball game at 1:30 and the frosh track meet at 3:30. Because it has been found that the track meet can better be handled within the hour and a half, the order will be reversed with the track meet at 1:30 and the game fol-lowing at 3:30. Guests will be admit-ted to both these contests if they pre-sent their guest cards.

McKinley in Charge of Prom Tickets

Tickets for the Junior Prom are being sold under the direction of Ivan McKinley. "Mac" has placed tickets in the hands of representatives in each organization. They are also being sold at the Co-op for the benefit of those who are not in organizations. "I want especially that all the tickets be sold before the dance starts," announced "Mac." "It is the best way I can think of to avoid the last minute rush at the Armory." Tickets are sold for a dollar. One ticket admits one couple. Guests with their cards will be ad-mitted to the prom.

NEW OFFICERS ELECTED

Spanish Club Chooses for Term; Hubert Schenck Is President

Hubert Schenck was elected presi-dent of the Spanish club at a special meeting called at the Bungalow Tues-day noon. Other officers elected were: vice-president, Helen Hofer; secre-tary, Norma Wilson; treasurer, Le-Laine West; reporter, Freda Goodrich; historian, Felipe Gamboa. The new officers will be installed at the annual banquet of the club, to be held at the Anchorage on Wednesday evening, May 24, at 6 o'clock.

After the banquet, an informal meet-ing and bonfire party will be held up the millrace. All members of the Span-ish club and the members of the faculty instructing in Spanish are invited to attend the banquet.

Retiring officers of the club are: LeLaine West, president; Rita Bidings, vice-president; secretary, Helen Hoe-fer; treasurer, Emily Perry; reporter, Margaret Scott.

TANNER'S ARTICLES USED

Journal of Industrial and Engineering Chemistry to Publish Works

Dr. H. G. Tanner of the department of chemistry is having a series of art-icles printed in the Journal of Indus-trial and Engineering Chemistry, a na-tional magazine devoted to the inter-ests of commercial chemistry.

These articles, of which there will be seven in the finished series, are on the subject of "Potash from Kelp," each article dealing with a special phase of the work. Mr. Tanner was chief chemist of the U. S. experimen-tal kelp-potash plant at Summerland, Cali-fornia, last summer, where he gained a wide knowledge of the processes in-volved in the extraction of potash and other by-products from the sea kelp beds growing in the ocean near there.

He delivered a paper on this subject at the meeting of the Oregon section of

the American Chemical society at the University last term.

Dr. J. W. Turrentine, in charge of the Summerland plant last summer, wrote several of the articles in conjunction with Dr. Tanner.

KIMBALL YOUNG GOES TO CLARK UNIVERSITY

Year's Leave of Absence Granted by Oregon to Psychology Expert; Will Do Research Work

Dr. Kimball Young of the psychology department is being granted a leave of absence from the University of Ore-gon to accept a year's appointment as assistant professor of psychology at Clark university, Worcester, Mass. He will teach social and racial psychology and mental measurements.

In his spare time Dr. Young will visit Harvard, Chicago and Columbia. His principal interest in research will be along the lines of racial and religious psychology.

A thesis written by Dr. Young is being printed by the University Press and will be out next month. The sub-ject of the paper is "An Intelligence Test of Certain Groups of Immigrants of California." The groups consid-ered are the Italians, Spanish and Por-tuguese. A magazine article also writ-ten by Dr. Young will appear in either the July or August number of the Scientific Monthly. The title of this article is "An Intelligence Test of Im-migrants in Relation to the Problem of Immigration and Racial Numbers."

Clark university has been for many years one of the leading schools in the United States in psychology, education and anthropology and the professors in the psychology department consider Dr. Young's appointment to that insti-tution a great honor.

DIPLOMATIC TRAINING

(Continued from page one)

this point. President McKinley, he said, was one day in conversation with a number of his cabinet members and diplomatic officials. "What would you do?" he said whimsically to Mr. Hay, "if one day I should suddenly order dismissed every one of our ambassa-dors and ministers and ask you to build up a new staff the same day? How would you proceed?"

"Easiest thing in the world," replied Mr. Hay. "We have here in this coun-try the greatest possible training school for the diplomatic service. If I

were dismiss all the ambassadors and diplomatic representatives, I could re-place them all with no difficulty what-ever."

"And how would you do it?"
"Well, Mr. President," responded Mr. Hay, as Mr. Barrett quotes him, "for our ambassadors and ministers I would appoint the managing editors of our great metropolitan newspapers. I should select our consuls from the city editors, and our vice-consuls and con-sular representatives from the report-ers on the staffs."

Mr. Barrett spent the afternoon looking over the campus and spoke to the University chamber of commerce at a special meeting. He was enter-tained at dinner at Friendly hall last night. Mr. Barrett declared that the Emerald was one of the best college papers he had seen.

BETTER GRADES

It's a fact, that neatly typed theses, notes, and other papers to be handed in to the professors, will bring higher and better grades, than those same papers would, if not typed. Then, too, typing is so easy and its very neatness tends towards more care-ful work, mistakes show up quicker, and are corrected before handing in. All leading towards better grades.

FORK OVER

Some big steaks for the week-end. Treat your guests well. It is always a good policy to create a friendly feeling—make them feel at home. It adds to your prestige whether you are rushing your guests or not. Everything that you do either builds or knocks you down. A good meal will go a long way and you can't have a good meal without meat.
