Dean Robbins Is Off for Gardiner

Dean E. C. Robbins of the school of business administration will leave today for Gardiner, Oregon, where he will deliver the commencement address before the Gardiner high school Friday night. Saturday he will go to Reedsport where he will speak before the parent-teachers' association of that town. He will return to Eugene Sunday.

BISHOP SUMNER TO TALK

(Continued from page one)

said he had been very pleased to notice its passage.

MUSIC CULTURAL
"One thing that a university stands for," he said, "is culture. True culture takes in beautiful music and students should learn to enjoy and understand it. Everything done on the campus ramifies to all parts of the state. Each student goes out and becomes a nucleus of culture outside."

"I saw the canoe fete the other night and I want to say that it was a tremendous improvement over the one eight years ago," the Bishop said. He also expressed himself as well pleased with the way the students handled themselves at the Junior Prom Saturday night. "The fact that the old objectionable dancing has been done away with on the initiative of the students themselves speaks well for the community of the University."

ALPHA TAU AND FRIENDLY VICTORS IN SEMI-FINALS

The doughnut league rounded into the finals yesterday afternoon when the Alpha Tau Omega ash wielders landed on Marc Latham's twisters and took the Phi Delt into camp by a score of 13 to 5. In Monday's game, Friendly hall sprung a surprise and beat the strong Oregon club team 8 to 7 in a free hitting contest that was called in the fifth inning on account of darkness.

Walt Hempy, who did slab duty for the A. T. O.'s, was also hit quite freely but he kept the hits scattered, while his team-mates banged the apple to all corners of the lot. The most damage was done when Gene Wright, for the Phi Delt, leaned on one of Hempy's fast ones for a trip around the bags. Bill Short, A. T. O. center fielder, duplicated his performance when he poled one of Latham's benders out of the lot.

It looked like a pitchers' battle until the fourth inning, when the A. T. O.'s got their war clubs into action and when the smoke cleared away they had rolled up seven runs. After this time, they were never in danger.

Batteries: Phi Delt, Latham and Murphy; Alpha Tau, Hempy and Blakeley.

Summary:

	R.	H.	E.
A. T. O.	13	10	4
Phi Delt	5	6	6

In the Friendly Hall-Oregon Club contest, the dorm men started out with a clutter and piled up five runs in their half of the first, getting a lead which the club men were unable to overcome. The game had to be called at the end of the fifth frame on account of darkness.

In the last of the fifth, with the score tied, two down and nobody on base, Dutch Henry, of the Hall crew, struck out but went to first when the club catcher dropped the ball. He then proceeded to pifer second and third and came in with the winning run on a lusty bingle by the next Friendly batsman.

Judge, for Friendly hall, pitched a good game, letting the club batters down with six scattered hits, errors accounting for most of the runs.

Batteries: Oregon Club, Leonard and Anthony; Friendly, Judge and Olson.

Summary:

	R.	H.	E.
Friendly Hall	8	9	4
Oregon Club	7	6	5

How do they get that way?

ASK the man with the big income his "secret of success," and you will generally find that it is some copy-book maxim known to everybody.

"Be sure you are right, then go ahead."

"If anything is in your way, go over it."

"Learn something about everything and everything about something."

Trite! Anybody could give you as good advice. It simply means that success is not a problem of discovering some obscure short-cut. The path is plain enough, but only alertness, energy and self-discipline will push you along it.

All this holds a special force for you because what you do at college will influence what you do afterwards. If you start right, the chances are you will finish right.

You can begin now to earn your place in the high-salaried class. Each honest day's work in laboratory and lecture hall will bring you nearer. It will help you to master the fundamentals of your profession—so that later on you may handle problems more easily and make decisions more quickly and surely.

Then and only then, in proportion as you clear your mind of detail, can you give time and energy to those larger questions of policy in engineering, selling, management and finance which fix the executive's market value.

FORK OVER

Some big steaks for the week-end. Treat your guests well. It is always a good policy to create a friendly feeling—make them feel at home. It adds to your prestige whether you are rushing your guests or not. Everything that you do either builds or knocks you down. A good meal will go a long way and you can't have a good meal without meat.
