

NEXT YEAR'S PROSPECTS BRIGHT FOR BASKETBALL

Season Closes with Varsity
at Conference Bottom;
Hunk Latham Absent

STRONG COMPETITION FOR
NEXT SQUAD EXPECTED

Only Two Lettermen Out for
1922 Team; Remainder
Green Material

Although the Oregon basketball quintet finished at the bottom of both conferences and won but two conference games during the entire season, prospects for next year look bright.

"Hunk" Latham, all-northwest center, in his first year on the varsity, will be back in a suit fighting for the tip off. Hunk made the Hawaii trip last year and was unable to play. Hal Chapman, who also made the Hawaii trip and who has all the earmarks of being as great a player as his brother, the famous Nish Chapman, will be back in the game. Only two men are lost from this year's squad, both of them three year lettermen, Marc Latham and Franz Beller, but it looks as though this year's letter men will have a hard time making the five with Latham and Chapman in competition and with some clever players coming up from the freshmen in Spear, Alm, King, Crandall and Poulson.

After the conclusion of the doughnut season, Coach Bohler faced the necessity of building a team from green material around a nucleus of two letter men, Beller and Latham. During the Christmas vacation the squad went on a barnstorming trip which was strictly for experience and little attempt was made to win games. On the tour the varsity lost to the Columbia club of Astoria, to the McMinnville American Legion team, won two from the Chemawa Indians, and defeated the North Pacific Dental college.

After the season opened, the Lemon Yellow experienced a series of defeats which started in Portland shortly after the opening of the winter term when the Multnomah athletes took the varsity down the line 40-33. Then came 19 defeats at home and abroad before the varsity found the win column. Then the Lemon Yellow succeeded in annexing a two-game series from the Nevada Sagebrushers on the local floor, and followed it up with two victories over Willamette. The season closed in Salem with the varsity dropping two to the Willamette Bears which gave them last place in the Northwest Conference as well as the Pacific Coast.

Throughout the season Oregon showed a marked weakness in shooting fouls, and the varsity tossers were able to convert but 81 points out of a total of 202 attempts. This inability to make free throws count for points was undoubtedly one of the great factors in the long string of severe defeats as in many of these contests a high percentage of converted fouls would have resulted in victories or close scores. The varsity tossers secured 175 field goals during the conference season.

SPORT FIELD

(Continued from page one)

this afternoon. Despite the lack of courts, this sport has proved more popular than usual this term, according to Miss Waterman, who has been coaching this sport. One of the fea-

tures of Field Day was the class matches, both singles and doubles, which were won by the juniors. This is the first year that interclass doubles have been played.

Pool Often Used

"The increase in interest shown in swimming this year has been greater than in any other sport," said Miss Winslow, swimming coach. "This is due to our wonderful new pool and convenient dressing rooms and showers." Doughnut swimming was attempted on the campus for the first time and proved to be a success. Six houses were entered with 44 girls taking part. Kappa Alpha Theta captured the championship in this sport. Class swimming and the Cummings cup were won by the sophomores. The meet with O. A. C. in the new men's tank at Corvallis, April 29, resulted in an overwhelming victory for Oregon. The final score was 48 to 20.

Basketball occupied the greater part of the fall term. In the doughnut series in which 11 houses entered teams, Hendricks hall again won first place and took the Laraway cup from Gamma Phi Beta. The class series was marked by the fact that the seniors proved their ability along athletic lines and won the Hayward cup. The varsity squad was chosen from the class teams and defeated the O. A. C. team here on March 4 by a score of 25 to 19.

Juniors Win Meet

The indoor track meet which was held in connection with the annual gymnastic demonstration on March 17, was won by the juniors. Volley ball, archery and canoeing were features of the ninth annual Field Day which was conducted by the association May 27. This was the first time that the girls have played volleyball and the first series was won by the juniors. The archery meet was won by the freshmen and the sophomores added another victory to their list when they won the canoe races.

One of the last duties of the president of the association was to present the trophies and some 70 letters to those who had been fortunate enough to play on winning teams at the close of Field Day. Thursday the present officers turned their work over to the newly elected force.

TWO WRITE ON GEOLOGY

Dr. W. D. Smith and Hubert Schenck
Have Articles in Journal

Two Oregon men, Dr. Warren D. Smith, head of the geology department of the University, now on a leave of absence in the Philippine Islands, and Hubert Schenck, who is doing post-graduate work on the campus, have articles on geology in a number of the Philippine Journal of Science recently received by the librarian. The article by Smith deals with the geologic reconnaissance of the Pidatan oil field of Cotabato province, Mindanao.

Schenck, who spent one year in the Islands in the employ of the Philippine Bureau of Science, has an illustrated article describing the drainage control by jointing in the Angat district of the Bulacan province. Both of these stories are in Vol 20, No. 1, of the Philippine Journal of Science, which can be found in section 7 of the library reading room.

ENGAGEMENT IS ANNOUNCED

Announcement of the engagement of Rhetta Templeton and Mac McLean, both of Eugene, was made Friday night at the dinner hour at the Zeta Rho Epsilon and Sigma Nu houses. Miss Templeton, a graduate of the University last year, is the daughter of Rev. and Mrs. J. C. Templeton. McLean, a junior in the University and a member of Sigma Nu fraternity, is the son of Mr. and Mrs. George N. McLean.

MISS BURNETT ON VACATION

Miss Eita Burnett, secretary at the school of education, is on a leave of absence for several months. At present she is in Portland but will spend the majority of the time at Belknap Springs. Mrs. Lela E. Adams, secretary to L. H. Johnson, is taking her place for the remainder of this month.

STIFF COMPETITION ON DIAMOND MET BY FROSH

Fewer Games Won than Lost;
Rooks Take Four; Play
Is Inconsistent

The freshman baseball team this year, though it seemed as good as the average team that wears the University frosh colors, ran into stiffer competition than usual and came out with less victories than defeats. The team played in streaks, and sometimes put up a good brand of ball, while on other occasions they sluffed badly and made more errors than hits.

Four games were played with Columbia university of Portland early in the season, the result being two wins for each team, for they split even in both places as Columbia captured the first here and dropped the second, while the frosh lost the first in Portland and took the second. These four games were close throughout and were never decided till the final man was out. Hicks, the Columbia pitcher, seemed untiring as he pitched both games here and parts of both of those in Portland.

The four contests with the rooks turned out a clean sweep for them. The first one was the closest of the four, and they succeeded in grabbing it off by a three-run lead. Newbill, the rook twirler, who made possible the winning of two of the games, was in college here at the first of the year, but after a term's work dropped out and went to the Aggie school where he proved to be one of their best pitchers.

Cook was the man who played the most consistent ball throughout the season and will make a good bid for the varsity next year. He is a good catcher, and in the last games was shifted to third where he showed up well. He has a strong arm and pegs across the diamond with accuracy and ease. King, Burton, and Orr are others who will put up a hard fight for varsity positions next year. King is a fielder of remarkable ability when it comes to running half way across the field and spearing a wide one. He is also a good hard hitter for a little man. Chappy filled in another place in the last rook game as in that contest he caught, and was quite a success, according to Coach "Shy" Huntington.

The other men on the team were Sullivan at second, Branaman and Brooks, pitchers, Haynes and Harding, fielders, and Troutman at third. All these men are good ball players and will make some of the varsity men work for their places next year.

NEW SYSTEM TO MAKE TEACHERS MORE EFFICIENT

"The aim of the school of education is to train the educational leaders of the state," said Dean Sheldon, head of the school, in an interview yesterday about the activities of that department of the University. "And that this aim has been accomplished is proved by the fact that more than half of the leading superintendents of the state have received their training here."

There are about 350 graduates of the University now serving as high school teachers in Oregon, according to Dean Sheldon, and about 60 more in Idaho and Washington.

"The aim of the school of education is accomplished through advanced courses of school administration and psychology, and especially through the summer school sessions," said Dean Sheldon. "The fundamental thing in preparing for teaching in any field, however, is to thoroughly know the subject matter, and to have an enthusiasm for it. This new plan of norms, which the faculty adopted at its last meeting, will insure, after 1924, that everyone going from the University to teach will be absolutely competent from the scholarship side."

The norms plan is a great improve-

ment over the present plan, according to the Dean. The present plan requires of the prospective teacher only 22 hours of strictly educational studies, and not infrequently allows the teaching of a study by one who has had no instruction in that study. The norms plan requires that in order to teach a certain study, the prospective teacher must have received instruction in that and certain other studies, which will make him eminently capable of teaching the study.

In order that the adoption of the new plan may cause no confusion, it will not apply to the present juniors and seniors who have planned their courses to fit the old plan, but only to the freshmen and sophomores.

"The University of Oregon gives an opportunity, through the University high school, to see some of the very best work in the state," continued the Dean. "Oregon is the only state on the coast which has this advantage, although it is found in a number of eastern universities like Wisconsin, Illinois, Missouri and Chicago."

WORK IN NORMAL ARTS WINS VISITOR'S PRAISE

Miss Esther Wuest Emphasizes Variety
of Training and Strength in
Fundamentals

While abroad recently, a survey of the difference in the art of Europe and this country, as to subject matter and educational training, was made by Miss Esther M. Wuest, supervisor of the public schools of Portland, who acted on the jury which judged the normal arts section of the exhibit Monday. The art of Germany, Italy and France was especially included in the consideration of the subject.

In commenting on the work here, Miss Wuest stated that she was impressed by the variety of the work in the normal arts department, and the fact that fundamental principles are being established.

Since the emphasis and application of beauty in every day life make for a greater and broader appreciation of art, Miss Wuest considers the work in

crafts an especially excellent line. In her work in Portland Miss Wuest comes in contact with thousands of children as her supervision includes both the elementary grades and high schools.

MORE ENTER FOR HIKING

Hendricks Hall, Delta Zetas and Town
Girls in Competition

Various entries, hitherto unrecorded, have been placed on the score cards for the women's hiking contest, and a list of the ten per cent highest total individual scores up until Wednesday are posted as follows: Dorcas Conklin, 50 miles; Emily Veazie, 40 miles; Stella Haglund, 36 miles; Harriet Veazie, 27 miles. The Delta Zetas, Hendricks hall, and the town girls are now represented on the lists.

For the benefit of those hiking, a diagram of the vicinity, with a drawn circle using Eugene as a radius, is posted so that distances may be estimated by radius lines from Eugene.

Laraway's Gifts in Jewelry for Graduation Add to the Charm of Giving

Now that college days for the class of 1922 are about over and friends will separate to take up their different vocations, you will want to give your friends and classmates a lasting gift that will be appreciated. Our large assortment of jewelry offers many opportunities to choose an appropriate gift.

SETH LARAWAY

Diamond Merchant and Jeweler

Our Pride

Will not let us try to "get by" on inferior products. We are continually striving to create ice creams that are not only "just as good" as the others but are really a good deal better. It is this passion for originality and quality that lead us to put out the

College Bars

those delicious chocolate coated ice cream bars that made thousands of friends at ball games, track meets, teas, dances and fountains this spring. Everybody has liked them because they are so refreshing and good. "College Products" can always be depended upon.

To Students

With the close of the school year so near at hand we wish to express our appreciation for your business during the past months and we earnestly hope that you will have a splendidly prosperous and happy vacation.

Eugene Fruit Growers Assn.

"The Home of College Ice Cream"

There are many so-called arch-supporting shoes but only one ARCH-O-PEDIC—the shoe with the ribbed shank of hardened steel. The sole of the ARCH-O-PEDIC shoe always looks like the illustration. This is your guarantee.

ARCH-O-PEDIC boots and Oxfords are made only in Cincinnati by the Krippendorf-Dittman Company, and sold in this locality at this store.
