

SPORTS MUST BE CLEAN

(Continued from page one)

writer of ability who writes with the authority of one who has taken great pains to search out the undesirable elements in college and university life, will no longer have an application anywhere in this country:
 "College athletics badly needs a house-cleaning. The sport and the gambler and the dirty-work artist—both among the alumni and in the community generally—are having too much influence in this business. As for such alumni, they are a legitimate expression of the college's own training in this respect. The college has, and in the future will have, nobody but itself to thank for the existence of such alumni."

ARCHITECT TO VISIT

Ellis F. Lawrence, dean of the school of architecture and allied arts, will be on the campus on Monday when he and W. R. B. Wilcox, a prominent architect of Seattle, will be here for a few hours on their way to San Francisco. From there they will sail for Honolulu, June 7. At noon on Monday a luncheon will be held at the Anchorage for all members of the faculty of the school, with Mr. Lawrence and Mr. Wilcox as honor guests.
