A Successful Season

Members of the frosh football team, which closed its season Saturday as far as games are concerned, have earned the right to feel that they have been successful. Although they have not won all of their games they have done well. Give the men credit for going out and working hard, and give the coaches credit for steering the team through a good season.

Coaches of a first year team always have a herculean job, since they have to teach football from the bottom up. The material may be good, but it has to be trained. Men may have been prep school stars, but when they come here they have to learn different methods of playing. There are numerous details which the varsity coach is not troubled with, which the frosh coach must drill into his men. Baz Williams and his assistants, Bob Earl and Skeet Manerud, have developed football players from green material. Next year's varsity will be strengthened by the thorough knowledge of football which the members of the frosh team this year already have. To have the proper kind of freshman coaches is important, because in every first year team are members of future varsity aggregations. If the men receive the right kind of training the work of the varsity coach is lightened. The University has been particularly fortunate this year in the men which were obtained to coach the freshmen.

Frosh players have been putting several hours a day in practice, and in the construction of the bonfire and other activities should not be asked to do so much. They have done their part this term. Let the responsibility for other outside work fall on someone else, in order that they may catch up in their studies.

Get in the Parade

The Homecoming committee's request for student participation in the parade on Armistice day should be considered seriously. In keeping with the spirit of the day arrangements have been made to have ex-service men in civilian clothes, alumni, the R. O. T. C., as well as all other students, both men and women, march down town. There will be a great deal to do Saturday morning but everyone who possibly can should take part.

Since the national holiday and the University Homecoming fall on the same day alumni who are ex-service men will be included in the parade. The flag raising and salute will be a feature just before the game. The spirit of the day will be patriotism and loyalty to the University. Get into the spirit of it.

The Homecoming bonfire is being built near the baseball field where loads and loads of muck and clay have been hauled in. If there is any rain between now and Saturday it will be absolutely impossible to approach the fire on one side the night of the rally. It seems that some consideration of this should have been taken when the fire was located.

There has been a great deal of carelessness in exchanging overcoats at dances and in halls. Be sure to get the right one. The last man is likely to get a poor overcoat.

"CROSSROADS OF NEW YORK"

Mack Sennett has evolved a new and popular pastime in "The Crossroads of New York," his latest six reel comedy-melodrama, which is being released through Associated First National Pictures, Inc., at the Rex theater beginning today. It is the pastime of a quick getaway.

The plot revolves around the fortune of James Flint, Wall Street power and man of wealth. The financier has not only fallen hard for a Broadway vamp, but finds that he is involved beyond his financial depth. In his philanthropic heart, he offered to finance a musical show in which she was to star; but he had no idea of how fast that lady could spend money.

RADIO USED ON LOCATION

Richard Barthelmess has solved the problem of overcoming objections to actors on the silver screen to working overtime. In order that "The Bond Boy," which is his fourth starring vehicle under the management of Inspiration Pictures, should go along on schedule time, it was found necessary to some demurrers to this, but the young star whispered in the ears of Director Henry King, who nodded assent. The

electricians were given instructions and when the cast assembled that night, two radio sets had been installed. After that the cast found the studio a most desirable place to spend the evening even while not working.

COLORED COMEDIAN CAST

"Love Is an Awful Thing," which ends its run at the Heilig theater tonight, has a cast of expert farceurs headed by Owen Moore. His chief aid in this current picture is Douglas Carter, the colored comedian who is being hailed as another Bert Williams. Also in the cast of this latest Selenick picture is the internationally famous Saitz Edwards.

"TO HAVE AND TO HOLD" HERE

Raymond Hatton, having recently reappeared under the Paramount banner in "Pink Gods," is seen in "To Have and To Hold," a George Fitzgaurice picturization of the novel by Mary Johnston, which will be shown at the Castle theater Thursday, Friday and Saturday. He has the role of King James I of England, and his performance is said to be virile.

OREGON CLUB, SIGMA NU AND A. T. O. ARE VICTORS

Kappa Delta Phi, S. A. E. and Friendly Hall Suffer Defeat at Hands of Fast Teams

In the first game of yesterday's schedule the Oregon Club team walked over the Kappa Delta Phi squad by a score of 32 to 18. The continued fouling of the losers gave the game to their opponents. Gunther, center on the winners' team, did some remarkable shooting.

The Sigma Nu team defeated the S. A. E. quintet by the narrow margin of three points. Stenall, of the winners, was in his usual form and scored the most points for his team. This game was also featured by a large number of fouls by the losers. The final score was 18 to 15.

In a clean hard fought game Friendly Hall lost to the A. T. O. team. The final score was 23 to 14. Na Pier, a new player on the Friendly Hall team, showed up fine in his first game. Carson, high point man on the winners' team, played his usual speedy game and made the majority of points for Friendly.

The games scheduled for today are: 4:00—Bachelorlon vs. Phi Gamma Delta.

7:00—Phi Sigma Pi vs. Kappa Delta Phi.

8:00—Phi Delta Theta vs. Chi Psi. 9:00—Sigma Chi vs. Beta Theta Pi.
