

NIGHT EDITORS TO ESTABLISH ORDER

Four New Members Elected to Membership in Society; Purpose Efficiency

Four men, all now on the Emerald staff, serving as night editors, were elected yesterday to membership in the Amalgamated Order of Associated Night Editors. The neophytes are Tom Crosthwait, Ed Valitckka, Junior Seton and Leonard Lerwill.

The society which is limited to night editors was organized in the fall of 1920 by Kenneth Youel, C. K. Logan, Pete Allen, Stan Eisman and Ruel Moore, who were at the time the night editorial staff. The primary purpose of the order is to further efficiency on the composing end of the Emerald, and to establish a basis of good fellowship and cooperation between the members of the night staff.

Active members at present include George H. Godfrey, Marvin Blaha, Earl Voorhies, Don Woodward, Dan Lyons, Theodore James, Fred Michaelson and John Anderson, all members of last year's staff. Dean Colin V. Dymont, Dean Eric Allen and Prof. George Turnbull are faculty members.

At the meeting held yesterday plans were made for establishing the order on a national basis. Pins, which will be in the shape of a piea rule, with the letters A. O. N. E. embossed in green enamel, were officially adopted. It was decided to call the Oregon chapter Galley One, and to number the other chapters in the order of their installation.

For initiation the neophytes will all serve as night editors on the Emerald on the same night, and will be required to turn out a paper that is absolutely "clean" and error-proof in every way. Date and other details of initiation will be announced later.

Installation of the officers will, as has been the custom, be a feature of the annual Emerald banquet held in the spring term.

ROOTERS TO HAVE

(Continued from page one.)

Oberteuffer, who met with a pitiful casualty at the Idaho game when he misjudged the viscosity of the mud of Multnomah field, and was forced to dislocate his knee in preference to breaking his neck. However, there will be someone on hand to supply the noise for this long boy, and the stands will volley fearfully loud against Washington State.

FOOTBALL MACHINE

(Continued from page one)

would be lucky to beat the northern squad by six points let alone 60.

Oregon so far this season has won her games by a margin of three points, so if the scoring end of the team is ever to function it appears that the Homecoming game is the time when they will start.

CLASSIFIED ADS

Minimum charge, 1 time, 25c; 2 times, 45c; 5 times, \$1. Must be limited to 6 lines, over this limit, 2c per line. Phone 951, or leave copy with Business office of EMERALD, in University Press. Payment in advance. Office hours, 1 to 4 p. m.

TAHITIAN DANCER WILL BE FEATURE

EXPONENT OF TERPISCHOREAN ART IN PORTLAND

Big Homecoming Ball Has Attraction Which Rumor Says Is From Foreign Lands

Hokumilliwapus is here! Arriving in Portland in one of the Pacific fleet ships with much mysterious music, the seductive scent of South Sea incense, with stars shining, sailors strumming ukeleles, and coconuts piled in one corner of the deck, this renowned daughter of the famous Palmetto has come to perform the feature at the Homecoming ball. But despite the vast crowds gathered at the pier, regardless of the multitudes of newspapermen present Hokumilliwapus refused to be seen and was spirited away by Puh-Pnoon, her manager.

All that can be learned of her is that she was proclaimed Miss South-See at the 1922 Beauty contest of her native land, that Jiggs has postponed his trip to China to come to the Homecoming dance and a few other anecdotes such as the one about the professor on board the steamer who was eating a peach and dropped overboard when she gazed liquidly at him.

To make her feel at home the ball will have a South Sea island setting, monkeys and all, the music will be wickedly seductive, and there will be plenty of room for fancy demonstrations of the Terpischorean art.

The underclassment will sport in an exclusive manner at the Armory and whispers hint that a big time will be had by all. The upperclassment scorn the hint and are of the opinion that they are in line for the best time of the two. The only way to get statistics on the matter will be for each group to go and compare notes.

BIG FEATURE AT HELLIG

The Hellig theater will present an exceptional program for the last three days of this week, starting tomorrow. The Cosmo players will be featured with their own orchestra and Marimba band in music, singing, dancing and comedy together with William Farnum in his newest screen success, "Moonshine Valley."

UNIVERSITY HAS LARGEST SLIDE LIBRARY ON COAST

Films Are Used by Many; Are Free of Charge

The slide library of the University extension division has been growing steadily since 1916, until now the University has the most extensive and best fitted library on the Pacific coast, and is one of the largest in the United States. It contains 214 sets of educational lantern slides, comprising 8000 separate views. These slides are accompanied by written lectures and are viewed annually by audiences aggregating 60,000. In schools, churches, commercial clubs, Y. M. C. A.'s, in fact all community centers, these slides are used, and of late, rural schools have been considering the installation of machines for the purpose of showing these slides as a necessity.

These sets include illustrations of many various subjects. Among them are geography, history, industries, physics, physical geography, biology, botany, art, schools, health, civics, literature, the Bible, rock collections, and microscopic slides.

In connection with the slide library is one composed of educational films. There are 120 of these motion picture films exclusive of 20 war films. These films are divided into five groups:

1. Scenic and geographic films, mostly one reel in length.
2. Films from one to three reels in length on industries, manufacturing,

food, clothing, transportation, and other subjects.

3. A group of scenic and industrial films on Holland and the Dutch colonies in the East Indies, furnished by the Dutch government.

4. Films of the World war and related subjects, made by the U. S. government.

5. Dramatization of story classics and special films.

Several of these films are used by the University. The war films have been shown in connection with the R. O. T. C., and Miss Tingle has shown to her classes three films: "Romance of a Thread," "A Woolen Yarn," and "A Bale of Wool."

These slides and films are available at any time for educational purposes, and with the exception of one or two may be had free of charge.

Ring Lardner Says:

"Wives is people that think 2 ash trays should ought to be sufficient for a 12-room house."

DON'T let your house manager be like Ring Lardner's wives. You will need a lot of ash trays for your house when the grads come back this Homecoming. We have ash trays for the table or the mantle that are not only ash trays but decorations also. Then we have the handy ash tray stand to set by the big chair in front of the fireplace or by the davenport. You had better stock up now.
