

KAPPA ALPHA LOSES TO ALPHA PHI TEN TO FOUR

Hilda Chase Stars for Winners by Shooting Baskets

The Kappa Alpha basketball team lost to the Alpha Phi tossers in a fast and hard-fought game last night which resulted in the score of 10 to 4. Both teams have shown up well this season and considerable excitement was displayed by the onlookers. For the losing side Dorothy McKee starred as forward and later playing guard. Dorothy's ability along basketball lines has long been proven, and her work last night ran true to that shown in former games. Hilda Chase, forward for the winners, loomed into the rank of stardom in shooting baskets. It was her first appearance as a star, although in previous games she has been a consistent player.

The Alpha Phi team has had a very successful season this year, winning every game they played. One game yet remains to be played with Kappa Alpha Theta. This game is scheduled to be played next week. Thursday the Phi lost by the close score of 12 to 9 to Alpha Phi.

The remainder of the do-nut series to be run off will be completed by January 19 as class intercollegiate games with O. A. C. are scheduled for February 24.

The lineup for yesterday's game was as follows:

Alpha Phi	Kappa
E. Rauch	C. M. Plegel
J. Hefflinger	SC. H. Gripper
I. Dale	G. M. Nicolai
H. Atkinson	G. D. McKee
M. Vale	F. N. Service
H. Chase	F. G. Clemens

GRADS HAVE OPPORTUNITY

Belgian Universities Want Americans to Understand Work Abroad

Fellowships for graduate work in Belgian universities will be granted to a limited number of American students who have finished their college work before September, 1923, according to an announcement recently received on the campus. These will be awarded before April 1, 1923, to be used during the 1923-1924 session. Preference will be given students who intend to teach or take up research work as a profession. Other qualifications are that the applicant be an American student who has a reading and speaking knowledge of French, definite plans for study, and good health. He or she must be a grad-

uate of an accredited American college.

The commission for relief in Belgium has established the C. R. B. Educational foundation in New York and offers these fellowships as an inducement to American students to become interested in the work abroad. Its headquarters are in New York City and any university student interested in securing this opportunity is urged to apply to the Foreign Scholarships committee on the campus for further details. The members of the committee are Professor W. C. Barnes, Dr. E. S. Bates and Dean Colin Dymont.

GLEE CLUB TO TOUR

(Continued from page one.)

tration and if this body approves, the trip is a certainty.

In the meantime the club is working hard under the direction of John Stark Evans, director, who promises one of the best glee club programs that an Oregon club has ever produced.

Club Has Reputation

Oregon glee clubs in time past have had as great a reputation as any western singing group and this fact made it easy to obtain the cooperation of the towns along the route of the proposed trip, according to the manager. John Stark Evans' ability as a director is also declared to have been an important factor in the success of the managerial efforts.

The last trip of the men's glee club was to southern Oregon, during the spring vacation of last year, and as a result a considerable sum was realized in the way of profit. Insistence on the part of alumni and friends of the University that the glee club take longer trips, and their assurance of wholehearted support, is largely responsible for the effort which is being made to make the thing possible.

NEW PICTURES IN LIBRARY

Students in the reserve reading room are noticing the display of newly hung pictures. These pictures are from the Overmeyer collection of Civil War relics. They are all of great historical value and interest.

Dr. G. W. Overmeyer personally expended much time and trouble in securing the collection. There are a great many more pictures and maps in the collection but space at present is lacking in which to hang them. The Overmeyer collection includes many valuable books and pamphlets relating to the Civil War and was purchased by the library last semester.

PLEDGINGS ANNOUNCED

Bachelordon announces the pledging of Allen B. Orsey of Portland. Beta Theta Pi announces the pledging of Miller Bruhn of Portland.

FIRE HAZARDS ARE GREAT

(Continued from page one.)

but will return and do so at a later date.

"I'll guarantee that the electrical violations of the fraternities and sororities are bad enough to cause the forfeiture of their insurance policies, if the companies wish to revoke them," Mr. Sykes declared. "A majority of students in these organizations have a simple knowledge of electrical wiring and will string their cords and irons about the rooms thus inviting fire," he continued.

Apparatus Needed

The University needs a dependable fire department of their own to protect the campus, Mr. Sykes pointed out. The Eugene fire department while large enough to care for the city fires is entirely too small to act alone in case of a large fire on the campus. The inspector proposed that a pumping attachment be placed in the two swimming tanks. Approximately 100,000 gallons of water are contained in the men's tank and that of the women's is much larger.

"The state carries no fire insurance nor any protection whatsoever on these buildings," the deputy added, "and it is up to the students of the college to be careful for the safety of this institution as the one great fire hazard is the human hazard."

Mr. Sykes and Mr. Gleason have been on the campus for the last few days carrying out the inspection, and will inspect the buildings at O. A. C. the first of next week. This investigation is made at the request of the state fire marshal who will make a report to the state legislature now in session, which desires information concerning the fire conditions of the state's institutions of higher learning. A similar report was asked by the legislature two years ago.

Your Wrong
About This
Picture

—quite wrong. You probably figured that the nervous young man on the rampaging camel is running away from a formidable tiger or a sheik or some other fierce desert animal. Why not at all, brother: he's just heard that George has just turned out another batch of that perfect-dee-li-cious cream taffy—such as only George can make. And he's beating it for the Oregon as fast as his Sahara flivver can carry him. His appearance of extreme nervousness is caused by his fear that the other fellows may beat him to it and there won't be any left. At 35 cents a pound he knows it won't last long.
